BOYS AND GIRLS CLUBS FLOURISHING IN OREGON NET PROFIT IS SHOWN

CORVALLIS, Feb. 28. — Boys' and girls' club work in Oregon in 1928 resulted in products with a gross value of $206,098.93, and a net profit above carefully calculated cost of production of $69,405.14, as shown by the annual report of the state office in the extension service at the state college here. This is an increase of nearly $26,000 in gross value over last year, the report shows.

Every county in the state but two, Harney and Lake, had from 1 to 172 clubs among the total of 1488 for the year just ended. Multnomah including the city of Portland had the largest number, but Lane county with 160 led all the rest, Clackamas being third with 114. Number of clubs was 275 greater than for 1927, the total having mounted steadily since 1920 when only 610 were organized in the entire state.

Individual club members reached a new high mark in the history of the work in this state at 11,748, this being an increase of about 1600 over 1927. Of those starting the work this last year 82.6 per cent completed all their work. This is also the highest mark in history. Earliest records which go back to 1914 show that in that year only 2 per cent completed the work undertaken.

What are known as "100 per cent clubs" also increased this last year when 773 won the distinction of having every member complete all the work assigned. In 1927 this total was 659.

"The number of 100 per cent clubs this year was praticularly gratifying," said L. J. Allen, acting state club leader, in commenting on the report, "as this is teching the club members to complete projects when once started. To each such club we are issuing certificates of achievement signed by distinguished national and state officials."

Though only seven counties have half or full time club agents, approximately half the total club membership of the state was in those counties, the report shows. These counties also had an average percentage of completions of 95.7.

Wall Street Report

NEW YORK, Feb. 28.—(AP)—Ten per cent call money, making its second appearance on the New York Stock Exchange this month, checked a promising rally in prices today. Thirty issues were marked up to new high records, a few high priced specialties, soaring 5 to 50 points, and a long list of popular industrials selling 1 to 4 points above last night's closing quotations before the selling movement started around mid-day.

Constructive interests took hold of the coppers and moved them to new high levels in the late dealings. Anaconda sold at 148 and Utah got into the $300 share class for the first time. Several of the motor accessories rose in a spirited manner. Spicer Manufacturing climbed 6 points and motor products 9½. The closing tone was strong.

Sales approximated 4,000,000 shares.
