

HIGH PRAISE FOR RICHARDSON SPRINGS.

A recent sojourn at the Richardson mineral springs near Chico, Cal., convinced a local resident that the springs are the only ones of their kind in view of the benefits he derived from a visit of nine days at the springs last month.

World travelers, familiar with the beauties of the Old World, as well as those of the new, are said to have become enthusiastic over the beauties surrounding the California resort in its setting of natural beauty—surrounded on all sides by the green slopes of misty mountains, but yet easily accessible over the finest of modern highways.

The center structure of an imposing group of buildings is a 200-room hotel, an ultra-modern edifice of brick and hollow tile equipped with every convenience scientific hotel practice can suggest—steady heat for winter and air cooled for summer. The resort also has a large number of cottages at reasonable prices. In addition to receiving healthful baths in the mineral waters, the management has provided for golf putting, croquet, driving net, tennis courts, quads, croquet, blue rock traps and many other sports of interest to men, women and children.

Sometimes the blues are sleeveless. Most of them have some round turn-over, which fits the base of the neck closely, favored above others. Pleated vests and collars and cuffs are shown by many designers, both for wear on suits and tailored dresses of light or dark colors.

Afternoon suits, which include the sash and printed crepe de chine combinations. Jackets of such suits are short and usually of cardigan form over one piece dresses, which may be made of any material. Printed designs are small and tend toward the Japanese.

There are five springs and are known as Number One, Montgomery, Beauty, Radium and Iron. The principal diseases cured by the waters of these springs include rheumatism, neuritis, constipation, gout, dropsy, high blood pressure and all disorders of the stomach, liver and kidneys. The resort includes modern bath houses, a resident physician and a massage department.

Open for bids. For the moving out and the remodeling of the L. O. O. F. building, according to plans and specifications found at the office of Frank Clark, Medford Building. The work to be completed on or before May 8, 1929.

All bids to be accompanied by a certified check of five per cent of the bid. All bids to be in the hands of the Trustees on or before 7:30 o'clock p. m., March 8, 1929. The Trustees reserve the right to reject any or all bids.

OLIVER ROGERS, SAMUEL BATEMAN, A. J. HANBY, Trustees.

FINDS A WAY TO STOP ATTACKS OF FITS. Reports are received of an amazing treatment that epileptics after they have tried all other methods, have been cured by this treatment.

Materials and Forms Spring Suits Widely Varied

Materials and forms of spring suits will be widely varied. Tailored tweed ensembles of last season will continue to be worn. More elaborate versions of the suit form are also being shown.

Tweed suits are partial to brown and white and blue and white mixtures. The newest of them have tucked-in, or stimulated tucked-in blouses of white crepe de chine or natural silks like shantung and tussore.

Sometimes the blouses are sleeveless. Most of them have some round turn-over, which fits the base of the neck closely, favored above others. Pleated vests and collars and cuffs are shown by many designers, both for wear on suits and tailored dresses of light or dark colors.

Afternoon suits, which include the sash and printed crepe de chine combinations. Jackets of such suits are short and usually of cardigan form over one piece dresses, which may be made of any material.

Printed designs are small and tend toward the Japanese. There are five springs and are known as Number One, Montgomery, Beauty, Radium and Iron.

The principal diseases cured by the waters of these springs include rheumatism, neuritis, constipation, gout, dropsy, high blood pressure and all disorders of the stomach, liver and kidneys.
