

STUDENT REVIEWS BRING FAVORABLE ADULT COMMENTS

The group of book reviews submitted to the Mail Tribune by the new literary club organized at the local high school by William Conroy, senior, and printed in the Friday book review page, elicited considerable favorable comment from book lovers of Medford. The high school club known as the "Yeomen of the Mermaid Tavern" will present five book reviews every other Friday, alternating weekly with the reviews of older readers.

A thorough grasp of their reading matter, clearness of construction and a commendable originality of attack in their annotations, mark the five compositions presented by this group of earnest student readers, who have not only set a standard for other student reviewers to follow, but have somewhat surprised adult readers who have been carefully perusing the book review page since its inception several weeks ago.

The student reviews are under the faculty supervision of Miss Mary Gilbert, head of the journalism department of the local high school.
