"King of the Rodeo," filmed when the recent national rodeo at Soldiers' Field, Chicago, was in progress.  
Gibson is recognized as the leading star in western pictures of romance and action. In striving for new plots and ideas he thought of the heralded Chicago rodeo on the tremendous field, the farthest of its kind in the world. He then signed B. M. Bower to write the story with this as background. The noted authoress wrote "King of the Rodeo" in the nature of a sequel to "Chip of the Flying U," one of her former stories in which Gibson scored a great hit.

**KELLOGG'S HOPES FOR TREATY MAY SEE REALIZATION**

WASHINGTON, March 14.—(Sp.)—Hopes of Secretary Kellogg that the treaty to renounce war which bears his name might go into effect before he leaves office, have received impetus with word that the Belgian senate had ratified the pact.  
In addition, the Cuban embassy has deposited at the department, Cuba's instrument of adherence to the treaty. With the signature of King Albert, Belgium's adherence will be complete, and only the adherence of Poland, France and Japan will then be necessary to put the pact into effect.  
A feeling is current that all the remaining signatories will adhere to the treaty for the treaty to become effective before Mr. Kellogg turns over his office to Henry L. Stimson.
