 The theme of the little play concerns the escapades of the quaint little fairy responsible for much of the well-known Irish folk and will prove popular with all who have a bit of Irish blood in their veins, as well as to lovers of fairy lore in general.  
 An original song, woven around the activities of a little Irish crowd represented in the play, has been set to music by Miss Maud Barrigar, local musician, and physical education instructor at the high school, and will be sung during the course of the play.  
 We each have unlimited possibilities within us and are each an individual experiment of nature. Each of us feel that we are capable of grasping conceptions a little better than the other fellow, but we are influenced and perhaps hindered by opportunity and environment, perhaps even there is no call for our line of endeavor. Edison, Lincoln, Washington lived in an age when there was a "call" for just such men. The world needed their particular genius.  
 We must be obsessed with our peculiar mission as was the wonderful maiden who led the French army to victory.  
 We can do anything if we have the incentive and will to try.  
 When today is over let it die, tomorrow is a new day, a new page in history, a new world to meet it. Marshal all your forces to meet it. Life is continuous growth and we gather energy and good influence and make it a part of us.
