

FROST EXPERT YOUNG BEGINS SPRING DUTIES

Spring officially arrives at 6:35 p. m. tomorrow when the sun crosses the equator, although many people thought it officially arrived today when they heard that Floyd D. Young, the government frost expert, had arrived in the city late this forenoon for his annual stay during the frost danger period. Anyhow his arrival makes doubly authentic the fact that winter officially goes into the discard late tomorrow.

It may be a chilly, rather disagreeable day, as the weather forecast is for fair weather tonight with local fog and frosts, becoming cloudy tomorrow.

Mr. Young, who has been in the fruit districts of Washington for a week or two looking after getting the frost warning stations there in readiness for the season, is here to stay until all frost danger is past, and was busy today getting his bearings and inspecting the orchards. It is presumed that as usual he will reside at the University club during his stay.

His assistant, Roy S. Rogers, has been here ever since his arrival last week, preparing for the frost warning season which, with Mr. Young's arrival today, is also officially on. Mr. Young is expected to give out a statement and program tomorrow for the guidance of the fruit growers during the season.

In the mean time the orchardists are urged to bring in their orchard thermometers at once to the county agent's office for testing. Many have already been brought in.

Rocky S. Ellison, who is associated with Mr. Young in the frost work in southern California during the winter and in Washington in the spring, on his way to the Washington fruit belt arrived in the city today from Santa Paula, Cal., for a conference with Mr. Young of frost warning and research work.

AIRPORT NEEDS TO BE TOLD AT CHAMBER MEET

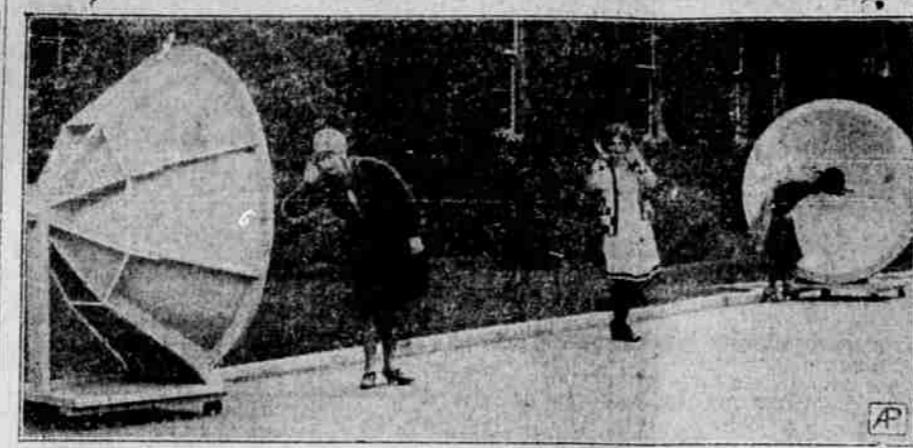

A meeting of utmost importance to every resident of Medford wishing to see Medford keep her place as a key city in Pacific coast aviation is the regular March forum of the Medford Chamber of Commerce tomorrow at noon at the Hotel Medford, where A. O. Wilmoughby of San Francisco, assistant superintendent in charge of air mail on the Pacific coast, will be the main speaker. In this speech he will stress the importance of Medford improving its present position in the aviation world as a civic duty.

The meeting will begin promptly at 12:15 and will adjourn exactly one hour later. Members of the Lions, Rotary and Kiwanis clubs will be present and an invitation to every public spirited citizen to be present has been made.

It is also probable some speaker from Oakland, Calif., will be present to speak of airport development in that city, describing the airport and advancing information to local residents why an airport is important to a city, in view of the rapid strides of development that have taken place in the industry and which promise to continue with even more rapidity.

Tomorrow's session will be important in view of the subject matter to be discussed and the nearness of the special election to be held April 2 to vote on a bond issue of \$120,000 for the construction of a municipal airport.

CALIFORNIA CO-EDS TEST SOUND REFLECTORS

Plaster reflectors that carry a whisper hundreds of feet, like those in the Louvre at Paris that were used by the ancients, were constructed by the physics department of the University of California at Los Angeles. Hilda Gustafson (left), Marian Hapner and Mabel Rector, students, demonstrate the action of the sound waves which are thrown off in parallel beams from the concave rims so that the whispers, heard at either end, cannot be heard mid-way between the two reflectors.

HEAVY SENTENCE METED LEABO ON LIQUOR CHARGE

L. B. Leabo of the Trail district, following his arrest at Gold Hill last Saturday night by Deputy Sheriff Louis Jennings of this city and Sam Prescott of Astland, was fined \$250 and sentenced to 30 days in the county jail yesterday afternoon in Judge Taylor's court, on his plea of guilty to a possession of liquor charge.

This is the heaviest sentence administered in this court for some time past, and arises from the fact that Leabo had a bottle of moonshine in his pocket and 19 or 22 bottles in his car, presumably for dance consumption, at the time of his arrest, and also because at that time he started to resist arrest until a couple of well planted blows of Prescott's fist caused him to change his mind.

Leabo is said to reside in the Trail district, and a brother of his lost his life some time ago when his car overturned on the Crater Lake highway.

New J. C. Penney company store opened in Heppner.

QUENTIN CONVICT A WEEK TO LIVE, LEAPS TO DEATH

SAN QUENTIN, Cal., March 19.—(AP)—Alfred Castro, 19, patient in the San Quentin prison hospital, leaped from a window 40 feet to a stone pavement today and suffered injuries from which he died shortly after. Attendants had believed he was too ill to leave his bed. An inquest is to be held.

Castro, the second prisoner to make the death leap from the same window within two weeks, was committed from Los Angeles for first degree robbery. He was serving an indefinite term with a 20-year maximum.

Stricken with tuberculosis he was being treated in the prison hospital, where his death, in any event, was expected within a week. Only this week, relatives in Los Angeles were notified that Castro had but a few days to live.

On March 8 James Oliver James, also committed from Los Angeles, leaped from the prison window and died before his body could be picked up.

Klamath Falls.—Improvement underway at Moore City park.

KIDNAPED CHILD OF 20 YEARS AGO REJOINS MOTHER

CHICAGO, March 19.—(AP)—Twenty years have passed, since Anna Nuzzo was kidnaped as an infant, but 20 years of hope will be fulfilled today when Mrs. Lucia Nuzzo clasps her long lost "baby" in her arms.

A train from California is bringing the long sought child home, ending a search which started in 1908 when a neighbor abducted her. The baby was left in the woman's care, while the mother was away and that was the last seen or heard of the child. The neighbor, it is known now, went to California and reared the child as her own. However, on her death bed a short time ago, the woman, Mrs. Mary de Franco, told Anna the truth.

Anna began communicating with everyone whom she thought might aid her in finding her mother. Her efforts were successful and this afternoon her mother, two brothers, a sister, and numerous other relatives will form a reception committee at the railroad station to welcome her home.

POP GATES NAMED MEMBER OF YEON MEMORIAL BOARD

SALEM, Ore., March 19.—(AP)—Appointment of 16 Oregon citizens as members of the John B. Yeon memorial committee, in accordance with Senate concurrent resolution No. 5, passed by the legislature last month, was announced by Governor Patterson Tuesday afternoon.

The resolution named H. B. Van Duzer, John W. Kelly and Robert C. Johnson as members of the committee to provide a memorial for Yeon, one of the builders of the Columbia River highway and early member of the state highway commission. Added to these three are the following appointees of the governor: Robert W. Sawyer of Bend, member of the state highway commission; C. E. Gates of Medford, highway commissioner; Robert A. Booth of Eugene, former member of the highway commission; William Doby of Baker, former member; W. L. Thompson and W. B. Barratt, both of Portland and both former members of the commission; Wade H. Martin of Corvallis, former member; Joe E. Dunno, who introduced the resolution to the senate; Julius Meyer, J. C. Answorth, Richard Montague, Franklin T. Griffith, Guy W. Talbot, Henry F. Cabell and Frank E. Hart, all of Portland.

AMERICAN MINER HELD FOR RANSOM

MEXICO CITY, March 19.—(AP)—Private advices received here today and transmitted to the American embassy said that an American mining man named T. L. Carnahan had been kidnaped by bandits last night at La Noria Mine, in the state of Zacatecas. He was presumably being held for ransom.

Carnahan's headquarters were given as El Paso, Texas. He has a brother, George Carnahan, of the Continental Rubber company, in New York City.

HOW THEY BATTLE FIRES IN MAINE

BREMEN, Maine, Mar. 19.—(AP)—The village of Meungon, near here, has no fire fighting equipment, but it has crosscut saws, logging chains and large automobile trucks.

When fire broke out last night in a residence, the oil of which houses the postoffice, the villagers saved the two portions apart, hooked on their chains and dragged the burning structure to a safe distance, where they let it burn.

The blaze did not damage the postoffice.

GHOULS TAKE BODY OF FLOYD COLLINS

LOS ANGELES, Mar. 19.—(AP)—It will be at least a year before an airplane passenger will be able to telephone his office or home from the air, Herbert Hoover, Jr., said on his arrival here yesterday from Washington, D. C.

DRAMATICS BARRED

(Continued from Page One.)

President Hoover has abandoned the idea of establishing a summer White House at Mount Weather, Virginia. He will have no summer White House this year as congress will be in session most of the hot months and after it adjourns Mr. Hoover may make his projected trip to the West Indies and possibly Mexico.

No plans have been made for a summer White House next year but the possibility is that the president will spend part of the vacation period at his home at Stanford University, California, this spring.

Pacific coast summer White House for the first time in history.

LOS ANGELES, March 19.—(AP)—Lucy Banning Ross, once the belle of Los Angeles, willed the bulk of her \$200,000 estate to RELIGIOUS Oils, a Japanese, 19 months before she married yesterday. Her will filed for probate yesterday revealed. She died in Italy recently.

WEST PLAINS, Mo. March 19

—(AP)—Mrs. M. J. Burris, 28, and her three small children were burned to death last night when their farm home burned.

Patricia Ann Leason
A sunny little sprout in this plump, rosy, cheeked daughter of Mr. and Mrs. J. A. Leason of St. Paul, Minn. She's a real Lifebuoy baby—healthy and happy!

Patricia has never been sick a day in her life

... and frequent washing of her hands and face with Lifebuoy has been a big factor in keeping her healthy"

says her mother, MRS. J. A. LEASON, ST. PAUL, MINN.

"OUR little daughter, Patricia Ann, is two years and five months old and she's never had a sick day in her life, not even suffering a cold.

"She's so chubby and bright, she just seems to radiate health. The constant use of Lifebuoy soap for her bath and frequent washing of her hands and face with Lifebuoy has been a big factor in keeping her healthy, I believe.

"In fact, I attribute the splendid health of my whole family in large part to our habit of washing with Lifebuoy many times every day and getting rid of germs that we simply can't help getting on our hands.

"Lifebuoy is a marvelous soap for the skin, too, it's so mild. And at the same time, it's so invigorating that my husband

calls it his 'pep' soap. We certainly do think Lifebuoy is the best soap ever!" . . . Mrs. J. A. Leason, 598 Dayton Ave., St. Paul, Minn.

Guard your family's health!
Mrs. Leason's letter is typical of the way millions of mothers rely upon Lifebuoy to help them keep sickness out of their homes.

Your own family has to wash with some toilet soap anyway. So why not use Lifebuoy? It's gentle, antiseptic lather removes germs with dirt. And because it purifies the pores Lifebuoy is a perfect soap for the complexion.

You'll quickly learn to love Lifebuoy's pleasant extra-clean scent, which tells you it purifies and which vanishes as you rinse. Adopt Lifebuoy today.

LEVER BROTHERS Co., Cambridge, Mass.
