Daily, Monday, Tuesday, Wednesday, Thursday, Friday, Saturday, Sunday, except holidays. Published by the MEDFORD PRINTING CO. 25-27-29 N. 1st St. Phone 15.

Editorial Correspondence

PASADENA, Cal., March 19.—Having never heard Almee McPherson, we hurried through dinner to reach the Pasadena Police Square "Lighthouse" at 7:30 last night, when she was scheduled to speak. We made it on the dot, but the doors of the church were locked, and a crowd was waiting outside. From within came sounds of drums and horns and melodious full-throated singing by the congregation. We made our way through a side door, where in the darkness another little group was congregated. A large man with a baby in his arms knocked on the door several times, but there was no response. His wife returned after a reconnoiter, equally fruitless. The large man put the baby down and raised his wife to a stance before from which she gained a view of the inside of the church through a broken window.

Personal Health Service

By WILLIAM BRADY, M. D. Signed letters pertaining to personal health and hygiene, not to disease diagnosis or treatment, will be answered by Dr. Brady if a stamped, self-addressed envelope is enclosed. Letters should be brief and written in ink. Owing to the large number of letters received, only a few can be answered here. No reply can be made to queries not conforming to instructions. Address Dr. William Brady, in care of this newspaper.

Quill Points

A wife is a person who plays at steering the boat until there is a storm. Our forefathers must have been great guys. They could make up their minds without a nation-wide survey. Perhaps we become what we eat in the old days there were no peanut butter sandwiches or peanut pollets.

Stomach Disorders First Revealed by Coated Tongue

Your tongue is nothing more than the upper end of your stomach and intestines. It is the first thing your doctor looks at. It tells at a glance the condition of your digestive system—and physicians say that 90% of all sickness starts with stomach and bowel trouble. A coated tongue is a danger signal of those digestive disorders which lead to so many kinds of serious illness. It tells why the least exertion tires you out; why you have pains in the bowels, gas, sour stomach, dizzy spells.

Tanlac

82 MILLION BOTTLES USED. Synopsis of the Annual Statement of the Peoples National Fire Insurance Company of Wilmington, in the State of Delaware, on the 31st day of December, 1928, made to the Insurance Commissioner of the State of Oregon, pursuant to law.

Ye Smudge Pot

By Arthur Perry. Tammany, an extremely wicked political organization, which many believe could have stolen Teapot Dome without getting caught, is now suffering from an intestinal trouble. It was inevitable that one of Mr. Bert Anderson's rousing letters last summer, explaining their cunningness at long distance, would get under their hide, sooner or later.

Brisbane's Today

Continued from Page One. thinks he will spend a year in Europe, think up new plans and start working again. The American mind, with few exceptions, is unable to endure idleness, and that keeps at work all those that know how to work.

No More Gas In Stomach and Bowels

If you wish to be permanently relieved of gas in stomach and bowels, take Salsolam's Gas Tablets, which are prepared especially for stomach gas and all the bad effects resulting from gas pressure. That empty, gnawing feeling at the pit of the stomach will disappear; that anxious, nervous feeling with heart palpitation will vanish; and you will again be able to take a deep breath without discomfort.

Editorial Correspondence

Almee has. That we believe in her sincere conviction. It is not what commandment she may have broken, or what falsehood she may have spoken—it is what she has done and what she has tried to do working "in the vineyard of her Lord." Whatever her sins—or her shortcomings—they have been redeemed by her works. That is her belief. If it were not, she never could have gotten where she is today. For while sincerity may be faked for a time, it can't be faked for long. Almee is unquestionably a sincere—with a better education and different early environment, she might have been a great actress. Her histrionic ability is tremendous—she dramatizes everything she does. But she could never have acted her part as long as she has without being found out, at least that is our opinion.

ONE CHILD OUT OF EACH TWENTY-FIVE

Tabulations of random groups indicate that one child out of every 25 is naturally left handed. What do we mean by the term natural left handedness? Well everybody knows that most of us are naturally right handed. Even so, we can be tolerant about it and concede that the minority may have been good a right to prefer the left hand.

Ye Smudge Pot

Everybody sang. And we should say 50 per cent of them knew the words, which is certainly a high percentage. Before the rostrum was a 15-piece orchestra, men, women and boys—violins, trombones, cornets, a xylophone and a young man with patent leather hair the piano, who certainly made the old box speak. Above was the large white-robed choir, women in front, men behind—and they, too, sang with a will. For one feature of the music we were not prepared. The words were sacred but the tunes were profane. That is, popular airs, waltzes and one-steps were used almost entirely. The congregation danced with their hearts if not with their feet. It was most enlightening.

Still no Almee McPherson. Pastor Noorgard suggested another selection from the orchestra, and the regular evening collection. "Make it a dollar," he urged. It was during this procedure that there was a sudden hush—a mysterious moment of suspense—everyone has experienced them at times in a crowd—the door at the left of the rostrum opened, and Almee McPherson walked—it would be more accurate to say loomed—in. A compact, rather square-jawed figure in white, with black flowing cape, trimmed with white, a cascade of golden hair, in many waves and ringlets, above a smiling and exuberant face.
