The almonds are in bloom. They will get killed by the first frost as they never have before.

PASADENA, Calif., March 20.—Everyone here agrees that the Vista Del Arroyo hotel is one of the finest and most civilized hotels in this land of luxurious hostilities.

We know all about the quail for we scoured up a covey this morning while going cross-lots to the 17th tee on the Amundale course.

We followed George Von Elm, who defeated Bobby Jones for the U. S. national title a few years ago, and we believe is rated among the first half dozen now.

The best golf was on the 7th hole. His long drive was out of bounds. He dropped a ball on the tee, took an iron, and sent a nice "scrambler" within easy pitching distance of the green.

Then George made one of the best shots we have ever seen. Luck entered into it, of course, but it was largely earned.

The worst golf was on the 13th. Von Elm made two perfect shots, being on the green with his second and only 15 or 20 feet from the pin.

The gallery groaned. With a fur score up to them, this put him above par for the first time in two days.

When he took his seat on the bench of the next tee, he remarked to another member of the foursome: "Guess I missed the shortest putt in the history of golf."

"That's the trouble with George," one of the gallery remarked in our ear. "He loses his temper—not outside but inside. He controls himself outwardly, but not within."

All of which was about a hole in one. The hole was on the 7th hole. His long drive was out of bounds.

Personal Health Service

By WILLIAM BRADY, M. D. Signed letters pertaining to personal health and hygiene, not to disease diagnosis or treatment will be answered by Dr. Brady if a stamped, self-addressed envelope is enclosed.

THE CAUSE OF MYOCARDITIS

Science tells us over again that old age begins in the arteries. Myocarditis is a most unattractive name for it, but somehow this name has come into vogue by physicians to signify that very common condition, slow heart muscle failure, which terminates the careers of many prominent people.

Answer.—At that, the old timers had little knowledge of, and little respect for, the human body. The present day "health authorities" who aid and abet the cold phobias probably draw subsidies in one form or another for their services.

Answer.—The move would probably not prove beneficial. Protect your children against the two chief dangers—diphtheria and smallpox—by having them immunized by your physician.

Answer.—Assuming the present complaint has lung tuberculosis (the proper abbreviation for tuberculosis is the, not TB), if you give the rooms an ordinary housecleaning and airing, there is no danger in moving in and living there.

Answer.—The description suggests a type of migraine. However, you should have medical advice. (Copyright John F. Dille Co.)

Wives are heartless people who smirk when they catch a man posing before a mirror in his lodge uniform.

Well again at sixty-eight—and filled with new hope. Worried by the sufferings of an elderly father with diabetic symptoms, a son forwarded a package of Agmel from the distant town where he was living.

STATE OFFICIALS WILL NOT TEST REGENT BILL. As far as state officials are concerned there will be no court action to test the Boll-Shulmerich consolidation bill affecting state institutions of higher learning.

QUESTIONS AND ANSWERS. Old Times Didn't Know Human Body. I believe you are entirely right on the question of exposure. I have been exposed to cold weather in flimsy clothing countless times and never suffered the dire consequences manufacturers of "cellulose" and certain "health authorities" assure us are liable to follow such exposures.

MUTT AND JEFF—We Have a Hunch This Is Only Stage Money. MUTT, MITT ME! A PET AMBITION OF MINE HAS AT LAST BEEN REALIZED!

INTERESTING, IF TRUE! FOR SIX MONTHS I'VE WASHED MY OWN SHIRTS AND DENIED MYSELF SUFFICIENT FOOD IN ORDER THAT I MIGHT SAVE FORTY DOLLARS! IT NOW AFFORDS ME GREAT PLEASURE TO SLIP THE FORTY TO YOU AS A GIFT!

FOR ME? WHAT'S THIS ALL ABOUT, JEFF? KID, I WANT YOU TO GET YOUR FACE LIFTED!

OH, WELL! IT WAS WORTH EVERY CENT OF IT, TEG HEG!

Maybe cattle are inferior. But young bulls don't kill one another because two old bulls couldn't agree.

Correct this sentence: "John holds a public office," said the wife, "and I don't get mad when the papers criticize him."

Hard work must be sinful. People guilty of it are badly housed and clothed and made to suffer all their lives.

How did "Hip, hip, hooray!" get started? "Hooray" formerly had no connection with hips.

Americanism? Thinking the fool talk of English politicians represents the English people, telling England the fool talk of our politicians means nothing.

Old fellows still hope for four score and ten, but they are thinking of a golf score.

Alas! If he wants a job from Hoover, that's a pretty good sign he isn't big enough for it.
