Love Triumphs Over a Feud

"The Girl on the Barge," is at Hunt's Craterian.

Jean Hersholt, has the leading role into which he puts all his ability to bring out the character of a mean-tempered old man who is more to be pitied than censured.

Sally O'Neil gives a spirited performance, as the ignorant little girl who has never been on land, who has spent her life on a coal barge.

To Malcolm MacGregor also goes histrionic honors and praise for an admirable and natural portrayal of tug pilot.

The story concerns the love of a girl on a barge and a boy on a tug, which triumphs over the ingrained feud which exists between tug and barge folk.

Stomach Disorders First Revealed by Coated Tongue

Your tongue is nothing more than the upper end of your stomach and intestines. It is the first thing your doctor looks at. It tells at a glance the condition of your digestive system—and physicians say that 90% of all sickness starts with stomach and bowel trouble.

A coated tongue is a danger signal of those digestive disorders which lead to so many kinds of serious illness. It tells why the least exertion tires you out; why you have pains in the bowels, gas, sour stomach, dizzy spells.

Coating on the tongue is a sign that you need Tanlac—the medicine which has helped thousands who were physical wrecks from stomach and bowel troubles—who had "tried everything" in vain and about given up hope.

Tanlac contains no mineral drugs; it is made of barks, herbs and roots. Get a bottle from your druggist today. Your money back if it doesn't help you.
