

DOUGHERTY HOME AFTER ROSEBURG ORATORY VICTORY

Arriving in Medford after an all night ride from Roseburg, where he won the southern Oregon district championship in oratory before an audience of nearly 300 spectators and representatives of seven other districts last night, William Dougherty, local high school student, and his coach, Ralph Bailey, were sleepy but happy when they stepped from the stage to home port at 7:30 this morning.

"I am highly gratified at the opportunity of bringing this honor home to Medford," said Mr. Bailey, "and feel now that the past months of effort, put into debate and public speaking, have not been in vain."

William Dougherty, who is now eligible to represent southern Oregon in the state finals to be held in Portland, May 1, is already concerned with the chance to win future laurels for his home school, and tended to minimize the victory of last night.

"I'm going to do my very best to represent southern Oregon as she should be represented in the big state contest. I'm mighty grateful for the enthusiasm expressed by Medford residents over the victory—and would like to say that we're all proud of our capable coach, Mr. Bailey."

The high school representative of Grants Pass won second place in the district contest last night; the Marshfield representative third and the Roseburg representative fourth. John Carlin, speaker of the house of representatives, Judge J. W. Hamilton, circuit judge of Douglas county, and R. W. Coleman, district attorney of Coos county.

Coch Ralph Bailey and William Dougherty were featured speakers on the high school assembly program at one o'clock this afternoon at the high school and gave some interesting sidelights on the finals last night.

PLAN BIG SMOKER IN MEDFORD SOON

Prospects for a big boxing smoker in Medford soon were good today with the receipt of a letter by Jack Wood from Joe Ferguson, middle-western heavyweight fighter, offering his willingness to fight in Medford this month.

Ferguson a year or two ago fought Young Strubling in Little Rock, Ark., and lost on a close decision. He will probably be matched here against Sam Ferguson, the man of Klamath Falls and the same card will probably also include George (Red) Sorenson, ex-mayor, fighter of Central Point against some good contender from the northern part of the state.

Lodi almost total loss tree fruit, probably half crop tokays, Stockton lost 75 per cent cherries and other tree fruits. Very heavy damage all fruits Modesto, Merced, Escalon and other San Joaquin valley points. Very bad damage all fruits Dinuba district. No damage whatever to Lake county pears.

In view of the heavy fruit damage in California, Albert Birch, president of the Jackson County Fruit Growers' League, said this afternoon southern Oregon growers will be benefited by the misfortune of the sister state and that local growers must take all precautions possible to save their crops from similar damage. He warns growers not to take too low prices for fruit, especially for butchering purposes. He was optimistic over the local fruit situation if no damage from frosts is experienced.

WEATHER BUREAU AT AIRPORT WILL BE MODEL OUTFIT

The Medford weather bureau to be installed on the new airport with the completion of that project will be every bit as well equipped as is the Oakland station, and perhaps more fully equipped than it, so far as instruments are concerned, according to Walter Dick, head of the local weather bureau, who was a guest speaker before the Lions club this noon.

Mr. Dick gave an interesting review of the work and methods employed by the weather office here, and expressed a hope that classes in general science in the high school and other visitors might receive valuable practical instruction in the proposed new weather office here.

Lions J. O. Grey, Fred Scheffel and E. M. Wilson, who with Ed Janney compose the city council committee, and were recently sent to the Oakland airport on a tour of investigation, gave short talks on data they accumulated there. The Oakland port is considered one of the most important and best equipped landing fields in the United States, and is being studied by all communities anticipating building or improving their facilities.

"With only \$120,000 to expend upon the local airport, the distribution of funds will require careful calculation and the maximum amount of careful planning, according to the local committee."

"The Dover Road," little theater presentation to be offered at the new late theater Thursday and Friday, April 18 and 19, was the subject of an interesting announcement made by J. Verne Shingle who urged support of this local group of players.

BOYS AND GIRLS IN JACKSONVILLE CHURCH CONTEST

JACKSONVILLE, Ore., April 10.—(Special)—In the high school Sunday school considerable interest has been aroused at the new contest which started last Sunday. This contest consists of two sides, the girls against the boys. At the end of seven weeks, on or about June 1 the winning side will be given a banquet by the losing side. The results of this are based on certain points selected by a committee consisting of Virginia Pick, Lois Smythe and Andy Smith.

When points not only count for each side, but for each individual and when the individual has 80 points will be given a silver pin, as an emblem for their interest and co-operation in the class.

Fred Pick motored to Eugene last week on business. Mr. and Mrs. T. E. Andrews, who have resided here for two years, left Monday morning for Alturas, Calif., where they expect to make their home. The best wishes of their many friends go with them to their new home.

DOG CATCHER FOR CITY TO ENFORCE LICENSE PAYMENT

The new dog catcher employed by the city government is already on duty, and Medford citizens who have not yet taken out licenses for their dogs at the county clerk's office have only until April 15 to do so, without penalty, as the new state law requires every dog to be licensed. Until April 15th the fee is \$2 for a male dog and \$3 for a female dog. After April 15th Medford dog owners, who have not yet taken out licenses, will have to pay double the fee.

Mayor A. W. Pipes reiterated today that the city officials are determined to enforce both the state license law and the municipal ordinance requiring all dogs to be confined on their home premises, kept in leash during the months of April, May and June. Hence their employment of a dog catcher to gather in all dogs at large and confine them in the pound.

The identity of the dog catcher and the location of the pound have not been made public, but any citizen who misses his or her dog from now on, can reasonably rest assured that the animal is confined in the dog pound, and it not claimed to be put to death by a humane method.

If any citizen wants to know whether his or her dog is in the pound, he can easily learn by inquiring at the police station, and will be given opportunity to identify the missing dog at the pound.
