(By Mrs. M. E. Tryer)

TALENT, Ore., April 12.—(Special)—The Talent Community club will meet next Wednesday afternoon at the usual time instead of Friday afternoon, as stated in this column last week. Remember the change and dates and all interested in the lamp shades are requested to be present in the morning as Mrs. Mack desires to dispose of this subject then so as to leave the afternoon free for other subjects.

A covered dish luncheon will be served at the noon hour. As this is the regular club day, a short business meeting will be called some time in the afternoon.

William brought with him, in addition to the log book, photographs of the Baebane taken during a squall in the Indian ocean. King George was aboard at the time as a midshipman and was familiarly known to his shipmates as "Sprats."

"The king was very nice and jolly," said William after their interview, "and we laughed and talked of the days when we were young lads together and when I used to pull ashore in the captain's cutie."

His majesty recalled many little incidents which occurred aboard ship. I was surprised how vivid were his recollections of those faraway days."

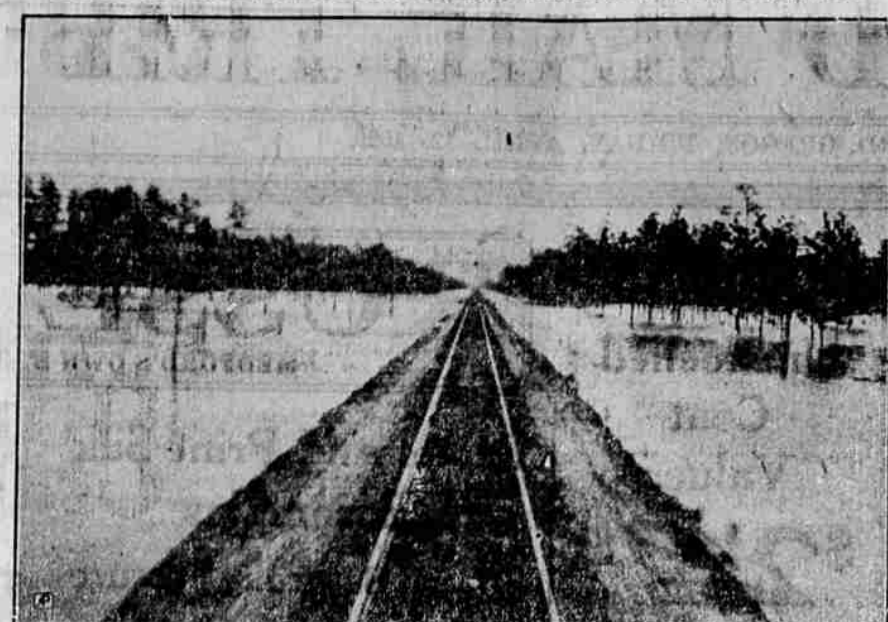

One of William's most treasured possessions henceforth will be an autographed photograph of the king in admiral's uniform, which his majesty presented him before saying good-bye.

The sea-faring king, who was almost constantly at sea until the age of 27, and a seafaring man, who passed all his life at sea, chatted for quite a time in the gardens of Craigwell house, where King George is recuperating from a long illness.

For Exhibition Blooms
A good general rule to go by for pruning garden roses is to remove two-thirds of the previous year's growth. If one looks for exhibition bloom, pruning might be still more severe, as it is an axiom: the lower the cut, the stronger the growth and the more beautiful (though the fewer) will be the blooms.

FLOODS IN GEORGIA MENACE PROPERTY AND LIVES

The flood burdened south, lately recovered from devastating waters, labored under new deluges which sent streams from their banks. This photograph shows the condition of the terrain in the vicinity of Townsend Ga.

Last Friday evening a merry party of Baptist young people and their friends gathered at the home of Mr. and Mrs. Jesse Inman for a "hard times" party. There were many comical and clever costumes of rags, tins and patches. The prizes were awarded to Marjorie and Burnell Northridge of Ashland, who wore costumes fashioned of gunny sacks and literally covered with patches. The evening was spent in games and music with much laughing and merriment over the comical attire. Refreshments were served and one and all went home feeling they had spent a most wonderful evening.

Mr. and Mrs. Fred Brandt and two daughters of Medford were guests at the home of Mr. and Mrs. Marion Tryer Wednesday evening.

"The God of Mankind" will be shown at the Isis theater on Saturday only. It is a thrilling drama with many moments of real pathetic acting.

RABID COYOTE IN EASTERN OREGON ATTACKS WOMAN

BEAND, Ore., April 12.—(Special)—With her throat torn by the fangs of a supposedly rabid coyote, Miss Mable Gordon, 17-year-old Silverlake girl, was today awaiting arrival of serum being rushed here from the state board of health laboratory in Portland. The wound is regarded as serious. Wednesday night, hearing a commotion in the poultry yard, Miss Gordon went to see what was causing the disturbance. She scarcely reached the yard when a coyote sprang at her, sinking five fangs into her throat. Aroused by her cries, the family went to her aid and the animal was shot. Forcypine quills were found in its body which was taken as definite proof the animal was rabid, as coyotes rarely attack porcupines.

Dr. F. D. Stricker of the state board of health in Portland expressed the opinion in a telephone message the coyote was rabid and asked that the skull be sent to the state laboratory.

MODOC USES OIL LONGEST PERIOD TO FIGHT FROST

TABLE ROCK, Ore., April 12.—(Special)—Crews at the Modoc orchard began lighting smudge pots at 8:30 Friday night, April 5, and at 8:30 the next morning were still firing, with temperature outside of the heated areas hovering around the killing point. This is the longest continued stretch of firing since artificial heating has been used for frost protection in the orchard.

Mrs. Margaret Lydiard and daughter, Miss Grace, entertained the Ladies' Sewing club Wednesday afternoon.

A. L. Heabrooks is reported to be suffering with a severe attack of sinus trouble.

Mr. and Mrs. Levi Hardman entertained the Peterson family and Mr. Hardman's mother from Medford Tuesday evening.

W. W. Davidson, manager of the Table Rock store, is a business visitor in Roseburg this week.

Mr. and Mrs. Otis Davis and children of Sams Valley were Sunday afternoon visitors with the Ralph Wilson family.

The boys' Sunday school class held a class meeting at the home of John Morris Wednesday evening.

Miss Grace Lydiard is visiting her sister, Mrs. Berthold Barnum, at Phoenix this week.

Mr. and Mrs. Frank Myers and son, Ivan, and the Fred Smith family attended a family dinner at the home of Mrs. Etta Higham in Sams Valley last Sunday.

Mrs. J. B. Griffin of San Francisco, who is an aunt of Mrs. Frank Myers, arrived here the first of the week and will probably spend a month visiting relatives in the valley.

Ben Collins of Corvallis is a visitor here with relatives at the Lorn Gregory home.

Wednesday night, April 10, was the first night for more than a week that orchardists and crews in this district had a good night's sleep without being disturbed by smudge pots. The report came earlier in the evening of Floyd Young, frost expert, telling that there would be no frost was indeed welcome news to those who had been on the firing line for nearly two weeks. The past winter and present spring, if one can call this spring one, a great deal of time that will long be remembered in this section. Cold and dry has been the rule almost continuously since last November, which has resulted in the most backward season ever seen here. Garden seeds have rotted in the ground, grain crops have suffered tremendously, barley in many places being destroyed, and after being replanted cut down for the second time.

Alfalfa, which at this time of the year is generally six inches high, is only slightly above the ground and making a brave attempt to hold its own against the nightly raids of jack frosts.

A large amount of the fruit where no smudging was done, is believed to have been destroyed. Although the situation looks rather blue here at the present, a rather warm rain and a break in the cold snap with two weeks of warm sunshine, would make a wonderful change.

H. T. Finley, deputy assessor, was interviewing farmers in this district the first of the week.

SHE THOUGHT HER CASE HOPELESS

Yet ALL-BRAN Brought Relief Almost Immediately—No Trouble Since

When constipation once gets a grip on a person, it is almost impossible to relieve it, let alone prevent it with drugs and treatments. But here's a lady who was freed from her suffering—read her letter.

"Mine was an extreme case of constipation and although I had tried about everything that was recommended to me, I had almost given up hope of ever being relieved."

"One day I came across your advertisement, so I thought I would try ALL-BRAN. It relieved me almost immediately and I have had no trouble since, which was almost three months ago."—Mrs. E. E. Leslie, 2104 Lyman St., Flint, Michigan.

Your system must have roughage or bulk daily, otherwise constipation is almost inevitable. Kellogg's ALL-BRAN will supply this bulk. It is a healthy cereal to eat every day. To use in cooked dishes or serve with milk or cream. To mix with other cereals.

Kellogg's ALL-BRAN is guaranteed to relieve constipation and to prevent it. Far better than pills or laxatives whose doses often have to be increased to be effective. Two tablespoons daily—chronic cases, with every meal. It is 100% bran and is 100% effective. Doctors recommend it. Your grocer sells it. Served by hotels, restaurants, dining-cars. Made by Kellogg in Battle Creek.

RUPTURE CURABLE

Results Not Influenced by Age or Time Standing, Reports Expert

W. E. Hardy, nationally known expert of New York and Philadelphia, but now of Los Angeles, says:

"Rupture (Hernia) comes through a natural opening. It is not a breach or tear in the abdominal wall, as most people think, therefore subject to closure."

The Hardy Super Shield, as furnished and supplied to the United States Government, is a scientific advancement over all other methods and will not only retain any reducible rupture perfectly, giving immediate and complete relief; also relieve all fear and danger of strangulation; but closes the opening of the average case in 30 days. Make up your mind to permanently close the hernial opening by the use of the Hardy Super Shield. Mr. Hardy treats every case personally and proves to each what he claims for his treatment, and will give local references. If you want done what others have failed to do, see W. E. Hardy. Large or difficult cases of long standing specially solicited.

Mr. Hardy will be at the Hotel Holland, April 13th, this Saturday only—hours 10 A. M. to 6 P. M., Evenings 7 to 9

Avoid the use of elastic or web trusses with leg straps as same rest where the hump shows and not where the opening is, often resulting in strangulation.

(Don't wear your truss where the lump shows, but place it where the opening is. It is different. How and where to wear your pad, call and be shown.) If interested call. He will be glad to show you without charge or fit you if desired. Anyone ruptured should remember the date and take advantage of this opportunity.
