

PROBABLE SALE OF BLUE LEDGE MINE REPORTED

Sale of the Blue Ledge mine, owned by the Guggenheim interests and one of the largest copper holdings in the state, is pending, according to Dr. J. F. Reddy, who returned this week from New York and Los Angeles. The Guggenheims purchased the Blue Ledge mine two years ago from the Charles S. Towne estate, former owners and operators.

The prospective buyers of the mine are Los Angeles mining men, who are expected to arrive this week to look over the property, which is located 39 miles southwest of this city, a mile beyond the Oregon-California state line. A representative of the Los Angeles interests was here two weeks ago and paid a visit to the mine.

Dr. Reddy was in Yreka, Cal., today, ostensibly on court house business in connection with the reported sale. The Blue Ledge mine is located in Siskiyou county.

Dr. Reddy told friends in this city that the mine would be placed in operation this summer. It would employ about 200 men.

Copper is now at its highest price since the war, selling at from \$19 to \$20 per ton.

The Blue Ledge mine has 12 or 15 miles of tunnels, with thousands of tons of copper blocked out ready for production. It was last operated about 20 years ago, closing down on account of the low price of copper and the difficulty of transportation to the railroad for hauling to the smelters.

Would Be Soon

The resumption of activity at the mine would be a business and financial boon to this city and valley.

Since the Guggenheims came into possession of the mine, there has been a revival of talk it would be operated. A deal pending for the sale of the mine six months ago failed.

Slightly more than a year ago a local plan was afoot, headed by W. H. Gore, for the building of a railroad to the mine, using the right-of-way of the Jacksonville railroad. A tentative agreement was reached whereby the Southern Pacific was to furnish the material, the Guggenheims to furnish the tonnage, and both to assist in the building of the railroad. An agreement was reached, also, upon the freight rates. Then the project was dropped.

The Blue Ledge is located at the summit of the Siskiyou and is in the center of a rich copper belt. Many local residents have claims to the region.

Dr. J. F. Reddy has long been interested in the mining district and for years has striven for its reopening. He has claims in the district, and has aided many others in the mining development of the section.

When the mine was to operation its postoffice was Eileen, named after a daughter.

FORD PLAN FAVORED

(Continued from Page One.)

especially for perishable products, through which, under producers' approval, co-operation can be established, with distributors and processors to more orderly marketing of commodities and for the elimination of many wastes in distribution; and to provide for

Wins Praise

The quality of her acting as Olive Shea in "The News Parade" is winning the praise of newcomers to the screen. At home in New York City, hundreds admire her charming personality and she has fairly "set the style" on Broadway by the way she dresses her hair.

"The simple method I use in caring for my hair," says Miss Shea, "has been of great help to me in my motion picture work, where one's hair must always look its best. It's just the thing for busy girls, too, because it is so easy. Most of the girls I know in stage and picture work are taking it up as soon as they hear about it. All you do is put a little Dandine on your brush every time you use it. It makes your hair so easy to dress and holds it in place wonderfully. It's ideal for girls who are letting their hair grow. It keeps my hair and scalp so clean and comfortable. I don't shampoo half so often, now. It gives my hair such a silky, soft, lustrous appearance that all my friends comment on it."

Dandine removes the oily film from each strand of hair, restores its natural color, gives it more luster than brilliantine. It cleanses and deodorizes the scalp; helps overcome dandruff. It is delightfully fragrant; isn't sticky or oily; doesn't show. Waves, "set" with it, last longer. All drug stores have it, in generous 5c bottles.

licensing of handlers of some perishable products so as to eliminate unfair practices.

"Every penny of waste between farmer and consumer that we can eliminate, whether it arises from methods of distribution or from hazard or speculation, will be a gain to both farmer and consumer."

"With the creation of a great instrumentality of this character, of a strength and importance equal to that of those which we have created for transportation and banking, we give immediate assurance of the determined purpose of the government to meet the difficulties of which we are now aware, and to create an agency through which constructive action for the future will be assured."

NEW YORKER HAS UNUSUAL CANE AS VALLEY SOUVENIR

A freak of nature has made possible one of the most unusual canes ever seen in Medford and the property of E. D. Matison of Berlin, N. Y., who has been a visitor here since July with his brother, A. O. Matison. The cane is a perfect specimen of Madrona wood taken from the root of a tree in Klamath county by C. C. Clark of Medford, with the exception of a twisting, winding second piece of root around it for three-fourths of its length.

An Indian carved a snake's head on one end and carved the rattles on the tail. H. M. Samuelson of this city, regarded as one of the best stone and diamond cutters on the Pacific coast, is responsible for the polishing and cutting of several agates imbedded in the wood.

Adding to its attractiveness, a piece of gold bearing the Gold Ridge mine at Kane's Creek, also imbedded in the wood, as well as an arrow head, found in the vicinity of Table Rock.

Mr. Matison plans to return to New York this month and take the cane with him as a souvenir of his visit to Oregon to entertain the New Yorkers who have never been "out west." He plans to visit in Oregon again next fall.

MEDFORD-ASHLAND HI Y CLUB BANQUET HELD LOCAL SCHOOL

Music and speeches completed the program at the joint Medford and Ashland Hi Y club banquet held at the local high school last night. More than 50 students attended the meeting.

The boys were served to a delicious banquet prepared by the "Hi Y Hashers", a unique girls club recently organized at the high school in the domestic science department. The meal was prepared under the direction of Mrs. Wilson White, instructor in this department. The "Hi Y Hashers" include Elnora Hulander, Mildred Lawrence, Opal Harvey, Leah Inch, Alberta Knips, Harriett Campbell and Mary Lee Roberts.

Ralph Bailey was the only faculty member present at the meeting. Other visitors were: Jerry Jerome, P. W. Walters of Ashland and John H. Ruffel, Y. M. C. A. town and city secretary for Oregon, Washington and Idaho, who is spending this week in Medford.

SWIGART HONORED AT ROTARY LUNCH

Carl Swigart, newly elected president of the chamber of commerce, was introduced in his new official capacity before the Rotary club this noon by C. T. Baker, secretary. That he considered the election a real honor and was keenly anticipating his part in the next year's program to be executed by the local chamber, was the gist of a brief talk given by Mr. Swigart.

The remainder of the meeting was given over to committee reports, representing the various branches of work accomplished during the year. Allen Carley and Owen Phelan, two local high school boys, were the guests of the Rotary club today.

Other guests included: Jack Kerr of Grants Pass, Carl Day and Jim Hopper of Ashland, Gene Stowell of Eagle Point, Scout Executive W. L. Bricker, C. T. Baker and Dr. Haines of Ashland.

"Redeeming Sin" Hunt's Craterian

"The Redeeming Sin," which opens a four days run at Hunt's Craterian today, a part-talking picture is a thrilling and glamorous romance of the Paris underworld in which Dolores Costello plays the part of a café dancer—ruled by a thief and rescued by a young doctor, who is called to save the life of her young brother. Surrounded by forces of evil she finally finds what she wants most—love and peace.

Vitaphone gives this great story the warmth, the terror and the beauty of actual life—in voice and sound reproduction and glorious symphonic accompaniment.

In "The Redeeming Sin" Miss Costello's leading man is Conrad Nagel, who has appeared with her in a number of recent productions,

HUDKINS LAYS MIT BARRAGE FOR EMANUEL

Nebraska Wildcat Takes Decision By Furious Onslaught—Gave Away 15 Pounds—Armand Gets But One Round of Ten.

By Victor G. Sidler, Associated Press Sports Writer, LOS ANGELES, April 15.—(AP)—A good little man—if he is a wildcat—can beat a good big man.

Armand Hudkins, the tousel middleweight "wildcat" from Nebraska, proved last night that the age-old adage revolving around big and little men does not always hold true.

Before a crowd of over 15,000 at Wrigley Field here, the tow-haired middleweight ripped, tore and slashed with a fury that never abated at Emanuel, clever San Francisco light-heavyweight, to a decisive triumph. The raising of his hand in token of victory was but a formality.

Figures at weighing-in time said that the wildcat was a scant half score pounds lighter. At ringside he must have spotted Emanuel at least 15 pounds.

He fought as his followers here never have seen him fight. Before the weight disadvantage he made up with a smashing style that could not be denied. He went through the 10-round battle at such a relentless pace that the outcome was seen long before the final gong.

The Nebraska's crashing, never idle fists carried away at least seven of the rounds. Emanuel garnered but one, ring-siders almost unanimously agreed, and the other two sessions were even. Emanuel's lone round was the tenth when he regained his fighting pose and out-boxed the "wildcat." That was for one round only, however, and many of his followers had thought he would outbox Hudkins throughout.

OUT & KEELER'S GOLF BAG

By O. B. Keeler

I think it was Harry M. Dingley, a son of the great proponent of the Dingley bill of the Gay Nineties, who was telling a story about a Scotchman (naturally) during the recent golfing activities at Pinehurst.

Anyway it was at Mr. Dingley's home there, and Walter Hagen was in the party, and the story inspired Sir Walter to one of the most terrible puns ever developed in golf, which has developed its share.

The story about the Scot was that he had just come to this country and wished to send his wife a telegram, he being on a business trip and delayed.

"How much for the ten words?" he asked the operator and was told 60 cents, or whatever it was.

BAGSHAW ACTION DUE WEDNESDAY

SEATTLE, April 15.—(AP)—Definite announcement next Wednesday night on the compromise proposal made by Enoch Bagshaw, head football coach at the University of Washington, that he and his three assistants remain at the university for another season and then resign, with the provision that full payments be made for the two years remaining in their contracts, was promised here last night, following an executive session of the student board of control.

The board, which originally demanded that Bagshaw resign at once and accept full payment on his contract, at first refused to accept Bagshaw's proposal, which was made through his attorney, Ward Kumm. The board, however, reconsidered this action after a conference in executive session with Bagshaw's assistants, Dorset V. Graves, Wayne Sutton and Bart Spellman.

It was the first time that the assistant coaches were brought in to the controversy.

Klamath Falls.—\$60,000 church and parish house will be erected by Church of Sacred Heart.

FIGHT CARD WITH THRILL PROMISED

A high powered fight card for Medford and southern Oregon boxing fans is promised at the armory April 29 when Nails Gorman, hefty leather pusher of Klamath Falls, and Gene O'Grady, 175 pounds, of Ashland, clash in a 10-round main event. Gorman and O'Grady fought at Chiloquie last week to a draw.

Austin Rosander, 140-pound Ashland boxer, will meet Jack McCoy of Portland in the six-round semi-main event. Both boys are reputed to be hard hitters and are expected to put on a good bout.

George (Red) Sorenson of Central Point but recently of Troy, N. Y., will also be seen in action on this card. Sorenson up until last March was champion of the second corps area of the United States army in New York and New Jersey. He has been in hard training for the bout and will fight four rounds with Eddie Welsh, local boy. The other four-round event of the card will be fought between Joe Corbett of Roseburg and Spike Gorman of Klamath Falls.

Portland.—Plans completed for construction of \$45,000 three-story apartment house at 940 Holladay avenue.

Portland.—Plans completed for construction of two-story court apartment house at 1275 Halsey street.

HAGEN SAYS HAS BEST GOLF GANG EVER SENT OVER

PLYMOUTH, Eng., April 16.—(AP)—The American Ryder cup team, golf professionals headed by their captain, Walter Hagen, arrived here today aboard the Mauretania, breathing confidence they would take back to America with them England's premier golf trophy.

They immediately entrained for London where they were to be welcomed officially. Hagen told friends who greeted him it was the best team America had ever sent to England.

"But we have got to play hard to retain the cup," he said. "I know several of your men and we are going to have a tough job, even if we win at all."

Hagen said eight members would be selected to play against Great Britain at Leeds and all would participate in the British open championship at Muirfield. He added he intended to try to fix a series of matches with Archie Compston, one of England's leading professionals, before returning to the United States.

Miss Marion Hollins and Miss Marion Turpie, who will compete in the British women's championship at St. Andrews, arrived on the same boat.

BILLY EDWARDS WINS FROM AUGUST SEPP

SEATTLE, April 15.—(AP) Billy Edwards, Kansas City grappler, was declared the victor over August Sepp, Boulder, Colorado, when the latter was unable to return to the ring for the third fall. Sepp won the first fall and Edwards the second. Sepp was so weakened after the second fall that he was unable to continue the match.

Portland.—Plans completed for construction of two-story court apartment house at 1275 Halsey street.

MANN'S—The Best Goods for the Price—MANN'S

WEDNESDAY SPECIALS

At Mann's

Every Item a Money Saver

WHY THE PREMIUM

THE slight premium you pay for Ethyl over ordinary gasoline, represents the actual cost of the Ethyl fluid added to the gasoline and is not really an added cost when you realize that it is quickly returned to you in reduced operating costs and lessened depreciation—plus vastly improved motor performance!

Fifty of the greatest oil companies in the world purchase ETHYL brand of anti-knock compound to add to their gasoline, because they know it is the only genuine anti-knock, high compression ingredient that is commercially practical.

Developed after seven years of intensive research, the expenditure of vast sums of money and the testing of more than 33,000 separate chemical compounds, Ethyl has made it possible to develop the modern high compression motor for everyday commercial use. The increased speed and power, added smoothness and flexibility, the reduced fuel consumption and lowered operating costs that go with high compression are possible only because of Ethyl.

The tremendous success of Ethyl gasoline, and the fact that it costs a few cents more to produce, has brought many imitators, marketing so-called high compression gasolines, totally inferior in quality and results. Insist on genuine Ethyl—sold only by authorized distributors from pumps that bear the Ethyl trade mark.
