We know the people of Medford will do their part and extend the famous Medford hospitality to our guests!"  
 Registrations which are arriving daily point to an attendance of at least 1000 of the Shrine nobility. When it is considered that hundreds of the biggest business and men of the coast are members of the Shrine, and will come to Medford during the meet, the publicity value of this gathering to southern Oregon and Medford is inestimable.

All ceremonial work will be presented by the Californians who are bringing a 40-piece band, drill patrol, and a carload of special scenery and effects as part of the equipment used in giving the half hundred novices a royal reception in their attempt at crossing the "hot sands" for which shrinism is famous.

**Delphin Club Has Chapter Meeting**  
 The Alpha chapter of the Delphin club met Thursday a. m., April 18th at the Y. W. C. A. with a fairly good attendance.  
 The meeting was called to order at nine-thirty by Mrs. Vivian Norman, president pro tem after which secretary's report was given by Mrs. Frederick Johnson.  
 Mrs. Rose Schieffelin reported letters of sympathy sent to recently bereaved members, after which she gave a most interesting talk on old mission architecture.  
 She said in conclusion after a very informative discussion of the subject that the old mission architecture is the only real architecture that America really can lay claim to and even that idea was brought from Spain by Cortez and his ideas in turn had been handed down from an earlier date and influenced by the Mohammedans and Moors.  
 The missionaries had to build according to the material at hand which was mostly rock, stone and cement.  
 These buildings seemed to grow right out of the soil and sort of blend with the scenery.  
 They were located fifteen or twenty miles apart on what is now the high way of today.  
 It seems a coincidence that a similar settlement was growing at the same time on the east coast, but there was no communication between the two and each had no knowledge of the other.  
 The Byzantine motive was largely in evidence with large domes painted to resemble mosaics.  
 One of the things there is yet a splendid mission in a most wonderful state of preservation. Father Kuhne, a gentle old priest visited here in 1692 and found only an old adobe shack which he used as a nucleus for a mission.  
 Santa Barbara mission is the only one that to this day is and always has been in charge of the Franciscan missionaries of the original builders. This mission is the only cloistered mission left.  
 Princess Louise of England and Mrs. Wm. McKinley were the only women ever allowed to enter its portals.  
 San Antonio has the oldest irrigation system in the United States that is in good enough state of preservation to be in use.  
 Mrs. Schieffelin spoke of the priest who went to the mission of San Juan Capistrano so broken in health that he seemingly could not live, but was inspired to rebuild the mission and in so doing he rebuilt his health and became a well man.  
 Sir Joshua Reynolds goes down to posterity as both an artist and a literary man never understanding women and his productions marked by "The Grand Manner."  
 Mrs. Humphrey in her delineation of character peculiar to individual artists touched upon the jealousy that generally existed among them.  
 This seems a peculiar trait that lives on among artists of the present day, said to relate.

Reynolds preferred red—Gainsborough painted the "Blue Boy" to prove how wrong Reynolds could be.  
 This great success as a picture only proved that color, like truth, like the diamond has many facets.  
 Romney was mentioned as having painted the blacksmith's daughter eight times. A picture by Romney which sold for one hundred pounds sterling the other day. Mrs. Joseph Duvene for three thousand dollars.  
 Lawrence was mentioned as were others worthy of note.  
 Mrs. Glen Fabric talked on landscape painting in England—showing that most of the portrait painters were inspired to paint landscapes but as landscapes simply would not sell they were forced to be portrait painters as a means of livelihood.  
 Crome was the first Englishman to really take his stand as a landscape artist, then followed Gerlin, Turner, Constable, etc.  
 It is doubtful if Turner ever has been or ever will be excelled as a colorist.  
 Mrs. Cline gave a resume of the months' work and what it meant to Delphinians and emphasized that the outstanding characteristics of the period of English art was "elegance."  
 She stressed the differences and similarity of character of the different artists of the period and in what way each excelled.  
 Mrs. John Cresce gave a fine talk on tapestry—the said tapestry was first introduced into England by the Saracens. It had been used as wall coverings and door hangings in the cold countries to protect the people from the cold.  
 She gave many interesting facts and advanced that there was nothing in all art so wonderful as tapestry.  
 Anyone interested can find much interesting material and food for thought at the library.  
 One more month will end the four years' Delphin course and a vote was taken concerning going for another two years.  
 It was decided to take up the additional two years' course offered from headquarters.  
 The next meeting will be held at the home of Mrs. R. V. Williams near Jacksonville. There will be the regular meeting in the forenoon, commencing at ten o'clock, luncheon at noon and a program and general good time in the afternoon.  
 Mrs. Barto asked Mrs. Scheffelin to act as chairman of a nominating committee and Mrs. Green and Mrs. Williams to cooperate with her in selecting officers for the coming year.  
 Mrs. Louise Ulrich has charge of the luncheon. For information phone her 1022.

**Mrs. Gould Leaves for Europe**  
 Mrs. O. M. Gould of 1316 Main street, leaves today for New York, sailing May 4 for Naples, where her son, Robert, will meet her. Robert Gould has been studying organ with Dupre in Paris for the past year. Mrs. Gould and her son will tour Europe before returning home in August.  
**Wednesday Study Club Enjoy Interesting Program**  
 The regular meeting of the Wednesday Study Club was held at the home of Mrs. H. G. Wortman on South Oakdale Wednesday, April 17.  
 The program was in charge of Mrs. Wortman, whose subject was "America's Contribution to Modern Music." From the musical background of Europe, Mrs. Wortman traced music through the colonial period to the present, mentioning its development along various lines.  
 To illustrate this development in public school music Mrs. Wortman introduced Mrs. Faulk of San Francisco, who spoke of the work done in that city by means of lectures, young people's symphonies and other means, in order that children might know and love music. Mrs. J. Albert McCorckle of Grants Pass interpreted "With Pleasure Have I Passed My Days," by Hopkinson, "Swing Low Sweet Chariot," arranged by Rogers and "In Italy," by Boyd, accompanied by Mrs. Mable Hartley Sims. These numbers were enjoyed very much. Instrumental music of the present, ident was given by Miss Margaret Child, who played "Phantasia Rhapsodique" and "The Flint," in a pleasing manner.  
 "Modern Art in Every-Day Life" was the subject of a most interesting and instructive talk given by Miss Snedcor. A brief review of the development in art from its beginning in America in 1608, and including glass, silver, paper, furniture, pottery, stained glass, portrait and landscape painting, sculpture and architecture, to the present day, made an interesting study. Miss Snedcor stated that industrial art had become the most important phase of art and that the modern trend in art was deplored and a

short period predicted for it. More and the better use of it has made our every-day life more attractive. The talk was concluded with the statement that the more that is known of art, the higher and finer life would be.  
 Mrs. T. W. Miles concluded the program with a short and interesting review of "Home and Garden."  
**Copco Pipe Organ Recital Enjoyed**  
 Last Tuesday's Copco radio program was considered by local music lovers to be one of the best of the season. The program featured Betty Brown, premier organist in her second pipe organ recital and many favorable comments were received from those who listened in. An added attraction was Miss Mildred Knight, mezzo-soprano in two beautiful vocal solos. On Tuesday, April 29th Miss Brown will present a special "request program" for Copco over station KAMED. **EXERCISES FOR GRADE SCHOOLS, ASHLAND, MAY 29**  
 The annual county grade school commencement exercises will be held in the Ashland armory on May 29, in the morning, when a class of approximately 250 boys and girls will receive diplomas for having completed eight grade work in the schools of the county under the jurisdiction of the county school superintendent. The afternoon will be given over to the county music memory contest, in which about 500 boys and girls will compete.  
 The details and program of the commencement will be announced within a few days, according to Susanne Homes Carter, the county school superintendent.  
 It is expected that over 1000 parents, including parents and friends of the pupils, will attend this commencement.  
**JANITOR ACTS AS CUPID'S ASSISTANT**  
 A right-hand bower of Dan Cupid is J. E. Daniels, county court house janitor, familiarly known as "Joe," who perhaps has started off more young couples into the uncharted seas of matrimony during the past two years than any other person in Jackson county, and he seems to take a delight in being of service for whenever some strange couple arrives for a license at the county clerk's office, Miss Claudia Klum, always knows Joe is nearby to act as a witness.  
 A short perusal of the license book yesterday afternoon revealed the name to be written on its pages with surprising regularity on the line where witnesses always sign. "This is an old story to him—these blushing brides and stammering bride-grooms—he can tell them coming when they reach the court house steps. So that is why he is always prepared.  
**THIN NEED EXERCISE AS WELL AS STOUT**  
 Exercise isn't a fad or a form of self-expression, but is as necessary as food, insists a beauty editor. Describing the proper exercises for thin as well as fat, she writes: "Special exercises, to be worth anything at all, must be directed to our own personal needs and weaknesses. The stout, sluggish type needs exercise to burn up the surplus fat quickly, to harden flabby muscles and to quicken the circulation. The tense, thin type needs exercises that are taken at a slower tempo which, in addition to strengthening to weak spots, will also teach the body to relax. Nearly all of us need regular foot exercises because our feet, encased in shoes all day, get such less natural play than the rest of the body. And we need eye exercises to strengthen little-used eye muscles, and neck and chin exercises to make the line of the jaw beautiful and proud.  
 "The ideal way to rebuild yourself by exercise is to do it under an expert's direction. In gymnastics and exercise studios, directors have learned that most of our physical lacks come because we have not learned how to use the spinal column.  
 "For the abdomen which has relaxed and has a tendency to protrude, take this simple breathing exercise, which is nothing more than proper breathing exaggerated. Place your hand on the lower abdomen and draw in the abdominal muscles with an upward motion of the diaphragm. Then inhale deeply, pushing the abdominal walls outward. Singers learn to breathe in this way, not in the shallow uppermost chest manner which most of us achieve. Learn the feel of it—the straightening of the lower spine and the raising and lowering of the diaphragm, easily, smoothly."  
**OLD SERMONS CRITICIZE CANYON, TEXAS**  
 Criticism of women's styles in clothing two centuries ago is revealed in a set of books containing sermons of the Rev. John Newton, which have been donated to the Texas Panhandle-History Historical society.  
 The six volumes of sermons were delivered between 1760 and 1775.  
**Brazil Plants More Potatoes**  
 SAO PAULO, (AP)—Brazil each year imports potatoes from Europe and Argentina in considerable quantities. To make this state self-sustaining in that regard the government is distributing seed potatoes to the small farmers and urging their cultivation.
