

Let's Go!

Are you ready to "go" after a day's hard work? If you are tired—lack pep—if your skin is not clear—if your appetite is "gone"—you owe it to yourself and friends to try S.S.S.

REMEMBER, in years gone by, when you couldn't wait for mealtimes; always hungry; ready to go somewhere—to dances, the theatre or to spend the evening with friends?

But why the change? Possibly, overwork, worry, lack of exercise, sickness or some other cause has reduced your building and sustaining "workers"—the red-blood-cells.

Every cubic millimeter of the normal, healthy human's blood should contain approximately 5,000,000 red corpuscles—those tiny red particles which flow along the blood stream, giving color to the blood; carrying nourishment to the cells of the body, and working against disease.

Thousands of people have a low blood count—to this may be attributed "run-down" systems, pimples and boils, rheumatism, and even more serious ailments.

When you get your red-blood-cells back up to normal, that sluggish, run-down feeling, loss of appetite,

boils, pimples, skin troubles, and those pains usually called rheumatism, disappear. You get hungry again and you sleep soundly; firm flesh takes the place of that which was once flabby. You feel strong. Your nerves become steady. You throw off disease.

You owe it to yourself and friends to give S.S.S. a trial. It helps Nature build rich, red blood—those vitalizing elements in the blood that build and sustain the body.

In building rich, red-blood-cells, S.S.S. improves the processes by which the body is nourished.

For more than 100 years S.S.S. has been helping people regain and retain their strength and charm. Thousands of users have testified to its benefit in unsolicited letters of gratitude.

Made from fresh vegetable drugs, gathered at the proper season of the year, S.S.S. gives to Nature what it needs in making you feel like yourself again.

All Drug Stores sell S.S.S. in two sizes. Ask for the larger size. It is more economical.

FIANCEE FIGHTS TO CLEAR LOVER IN MURDER CASE

SAN FELIPE, Calif., April 25.—Coming to the defense of her fiance, Jerry Ogden, accused of murdering his father, Lucy Peebles has launched an independent inquiry into the slaying. The girl was frantic when she learned of the accusation, but with her uncle, John Peebles, who discovered the killing, insists that the police evidence is incomplete and shields the real murderer.

The body of Andrew Ogden, wealthy civic leader, was found slumped over a desk in the library of his home, a dagger in his neck. Peebles had rushed to his neighbor's home in answer to an urgent telephone call from Ogden and discovered the sensational crime.

Police investigating the case announced a few hours later that a strong net of circumstantial evidence points to the fugitive Jerry as the slayer.

The story of the solution of this baffling crime in "Gold Bullets," by Charles G. Booth, an outstanding mystery novel, will appear in the Mail Tribune beginning Monday, April 29, in daily installments. The story is told by Peebles, who takes a leading role in the investigation.

Police throughout the state are continuing their search for young Ogden. But they admit that they have no clues to his destination after he fled in his automobile. Convinced by the evidence they have unearthed that Ogden was slain by his son, detectives are centering their efforts on his capture and are making no further investigation.

They allege that young Ogden probably quarreled violently with his father on the question of reopening the Torridity mine. In a burst of anger, according to their theory, he stabbed his parent with the dagger, which was kept in a curio case in the library, then dashed from the house and escaped. The testimony of Ogden's gardener, who says he saw Jerry's flight from the house, and the finding of Jerry's keys in the driveway are regarded as clinching their case.

Denying the contentions of the police investigators, young Ogden's fiancee and her uncle insist that they are not convinced by the circumstantial evidence. Here starts the gripping action of "Gold Bullets," which will appear in the Mail Tribune in daily chapters beginning Monday, April 29.

WOULD-BE KILLER MIGHT TRY AGAIN SLAY LOVE THIEF

PORTLAND, Ore., April 25.—(AP)—J. F. Gaunt, 59, was in jail here today under \$5000 bail charged with attempting to kill the man he says stole the love of his wife. "It was the easiest thing I ever did," police quoted him, "and I won't say that I won't do it again if I get the chance."

And in a hospital F. E. Braga, 55, was being treated for a superficial bullet wound. He refused to talk.

The shooting took place in the office of Braga's garage, where Gaunt told police he had gone to learn of his wife.

"When Braga refused to tell me where he had hidden her, I shot him," Gaunt told police. "When he laughed at me I shot him."

Gaunt said his wife, Caroline, 55, had left him for Braga on April 6. Braga, he said, had promised to finance a divorce, marry her himself and deed her half of his property.

Last week Gaunt left his little farm at Aloha where he had been living with two sons, and came to Portland to search for the woman.

FLORIDA EXTENDS FRUIT PEST FIGHT TO PASSING CARS

ORLANDO, Fla., April 25.—(AP)—The state's fight against the Mediterranean fruit fly has extended to passing motorists.

The state plant board, in charge of eradication work, has ordered all automobiles and other vehicles passing out of the quarantine area, to submit to a disinfecting process.

The plant board's plan calls for spraying the interiors of all vehicles with insecticide. It was pointed out that the disinfectant would be harmless to either persons or automobiles, and that only flies or fly eggs would be hurt by the process.

Police throughout the state are continuing their search for young Ogden. But they admit that they have no clues to his destination after he fled in his automobile. Convinced by the evidence they have unearthed that Ogden was slain by his son, detectives are centering their efforts on his capture and are making no further investigation.

FATHER FINDS LONG LOST SON IN PRISON FOR AUTO STEALING

PORTLAND, April 25.—(AP)—Separated for a period of 16 years, G. B. Kenoyer of Reedsport, Ore., and Charles Van Horn, father and son, were reunited today in the federal ward of the county jail.

Charles and his father were separated when the son was but two years old. The child was taken away when the mother and father separated. The mother remarried, the boy taking the name of the man she married.

Monday the father read in a newspaper that a Charles Van Horn had been indicted by the federal grand jury. He "took a chance," came to Portland and went to the county jail, where he met his lost son.

Deserted Husband Shoots Self After Rebuff at Funeral

CHICAGO, Ill., April 25.—(AP)—John Wildman and Bessie, his estranged wife, knelt yesterday beside the bier of a mutual friend. Only when Wildman had finished his silent prayer did he realize that the wife, who had left him three months ago, was kneeling at his side.

In Mrs. Wildman's arms was their boy, Robert. He moved as though to caress the child. Mrs. Wildman arose quickly and left the room.

Some men walking through an alley last night stumbled over a rifle. Then they came to a man's body—John Wildman's body.

Baby Robert's birth certificate was gripped in dead fingers. Upon it, in the shaky handwriting of John Wildman, was written: "This is all I have."
