

BUYING BOOSTS SHARE MARKET AFTER SQUEEZE

NEW YORK, April 27.—(AP)—The stock market which was unsettled yesterday by a flurry from 9 to 16 per cent in call money rates, regained its poise today and moved higher under the stimulus of buying operations in a wide assortment of industrials and specialties. Bulls were out of the speculative picture with the exception of New Haven which crossed 164 to the highest price since 1913.

Absence of any signs of business depression, except in a few isolated companies, continued to provide the background for the advance in stock prices.

The automobile accessory stocks gave one of the best demonstrations of group strength on buying influenced by record breaking automobile production.

Special buying operations again took place in the United Aircraft issues, both the common and preferred issues selling at least four points higher at new high records for the year. Case treading which broke 15 points yesterday and rallied 10, rallied 10 points more today, sharp gains also were recorded by General Refractories, Green-Camner Copper, Columbia Graphophone, Reproductions Cooke, American and Foreign Power and American Woollen preferred.

The closing was firm. Total sales approximated 1,500,000 shares.

PRODUCE PRICES ARE UNDISTURBED

PORTLAND, Ore., April 27.—(AP) For the first day in some time, butter and egg values were undisturbed today. Eggs were in active demand and butter showed no slackening from the consumer's standpoint.

In poultry, hens and broilers were plentiful with prices unchanged but weaker in tone.

Trade in veal was not as brisk as expected. Pork holds steady. Many spring lambs were being received, but complaint was made that the quality was not up to standard.

Tomatoes, cabbage and oranges were still tending higher.

Apparatus is abundant and the price is weakening. Old onions are dragging the market down because of their tendency to sprout during warm weather.

Macilage Matter Given Thought By Department Head

WASHINGTON, April 27.—(AP) Postmaster General Brown has his hands full of a sticky subject—the sufficiency of macilage on the back of postage stamps. Scores of complaints have reached the postoffice department that the stamps do not carry enough glue and after they have been moistened and placed on letters they literally jump off or are lost in transit with the result that the letters are returned to the postmistress.
