## POLICE OF PARIS AGAIN READY FOR MAY DAY RIOTING

PARIS, May 1.—(AP)—Backed by a century of experience, the police force of Paris is pronounced fully prepared to cope with any rioting that may take place on May day, the Labor day of France, but which for several years past has been the occasion for clashes between marchers of rival organizations. The force is 100 years old but it has inherited the experience of 12 centuries of city policing under all sorts of conditions. The present force, now 12,000 men in the city and 2,000 in the suburbs, was formed in March, 1929. The first outfit that guarded the streets, usually only at night, was created by Clovis II in the year 935. It was "the Watch" and was armed with clubs, swords, bows and arrows and a sort of small catapult. The first modern police force a century ago numbered 71. Their night arms were sabres. They wore bicorne hats, much like Napoleon's traditional headgear. They were, too, the first "blue-coats." Those garments then reached half way between the ankle and the knee, but the present force is costumed in a shorter coat over which is worn a hooded cape of waist length, blue cloth on one side and rubber on the other for wet weather. This cape, indeed, is one of the touches of genius of the Paris cop. In street fighting the policeman throws his cape over his adversary's head, enabling him to bind his arms and throw him if necessary. When rioters use iron gratings and paving blocks as missiles, the police wrap their capes around their left arms as shields. The capes serve as shields likewise when criminals use knives.

## GIRL HANGS SELF IN DOCTOR'S ROOM

SAN JOSE, Cal., May 1.—(AP)—Suicide April 12 last of Elizabeth Gehbart, 28, in the room at Agnew State hospital of Dr. Paul A. Gleibe, assistant physician at the institution, was revealed yesterday. The girl, with whom he had been acquainted since September, 1927, was not a patient at the hospital, said Dr. Gleibe, but came to his quarters, he explained, at his invitation to have lunch there with him, on the eve of her departure for Europe. A coroner's inquest established that the physician had found her body suspended by a wire from a hook in the clothes closet in his room. A verdict given by the coroner's jury declared that she had "committed suicide by hanging while mentally deranged." The doctor told the jury that in 1927 at a San Francisco hospital, the young woman had been brought before him for observation after she had been restrained from leaping from a second story window.

## HUNGARIAN CAR HATER FIRES AT PASSING AUTO

BUDAPEST, Hungary, May 1.—(AP)—Franz Hauer, young truckman's assistant, who resented replacement of horses and oxen by automobiles, was today declared responsible for the death of Dr. Emil Schreiner, formerly in the consular service, and for gravely wounding Mrs. Schreiner Saturday night. Hauer hated automobiles with a personal hatred, fearing that the advent of motor transportation would cost him his job as a driver of horses, and decided to seek revenge against all motorists. When Dr. Schreiner and his wife passed in their automobile near the village of Erdenberg, Hauer fired several shots at the tires. He said that he had only intended to disable the car, but his shots were unfortunately more deadly. Mrs. Schreiner, whose leg was amputated, continues in a critical condition. J. T. McEntee and Jack Morris establishing jewelry store in lobby of Levens hotel, Burns.

## AUTHOR OF JONES LAW WOULD HAVE TOURISTS SUFFER

WASHINGTON, May 1.—(AP)—Senator Wesley L. Jones of Washington wants to know why the law which bears his name and fixes penalties of five years in prison and fines of \$10,000 for prohibition violators is not being enforced against tourists who attempt to bring liquor into America from foreign countries. Saying he had only recently been told that persons found with liquor in their possession upon landing from foreign ports are usually fined \$5 for each bottle they have, he declared he intended to take up the matter immediately with the treasury department. He said he did not know of any authority under which the department's customs service could pursue such a policy, and would ask whether it is being done. If so, why; and further, why such cases are not prosecuted under the Jones law.

## JIM THORPE WILL ACCOMPANY PYLE PARADE OF FOLLY

SPRINGFIELD, Mo., May 1.—(AP)—With an unofficial record for 41 miles claimed by Pete Gavuzzi, Italian waiter of Southampton, England, C. C. Gavuzzi, who covered the 41 miles between Conway and Springfield yesterday in 4 hours, 51 minutes and 10 seconds, said his time for the distance was nine minutes better than the amateur record held by Lloyd of England. The victory increased Gavuzzi's advantage over Johnny Salo, Passaic, N. J., policeman, to 3 hours and 15 minutes. Jim Thorpe, former Carlisle athlete star, joined the troupe here and will act as master of ceremonies at Pyle's Cross Country Follies.

It was understood Ambassador Morrow would leave Mexico City some time this month or early in next next, arranging his visit to the United States to correspond with his daughter's plans. Williams awaited a hearing on a statutory charge resulting from an investigation by a private detective employed by his wife of eight months. ## BRITISH HOPE TO SEE GLENNA PLAY JOYCE WETHERED

LONDON, May 1.—(AP)—With a number of "ifs" standing in the way, British golf fans hope for a "natural" in the women's championship, opening at St. Andrews May 12, where Miss Glenna Collett, three times American champion and Miss Joyce Wethered, three-times British title holder, may meet in the final as they are in opposite sides of the draw. Before the long hitting Glenna can advance to the 36 hole final Friday, however, she will have to dispose of Miss Marion Turpie, native of St. Andrews but resident of New Orleans, who holds the southern women's title. Another formidable rival in Miss Collett's half of the draw is Miss Eloit Wilson, but the 29-year-old English champion has drawn Miss Joy Winn of Atherburgh in the first round and in close proximity is Miss Simone Thion de la Chaine, present French champion and former British title.

Miss Wethered, who played her last championship in 1925 has emerged from a determined retirement to again seek the championship. The great British woman golfer, however, is only 27 years of age. Miss Collett is more than a year younger.

# The "Last Spike" will never be driven

—Southern Pacific still building with the West

The 60th anniversary of the driving of the Golden Spike, May 10, Southern Pacific's Golden Jubilee, finds this western railroad still building. Weaponed with crude tools, courage and vision, the early pioneer had hand-carved a way to the new West. With the vision of the pioneer, the West has carried on, and with it, step by step, Southern Pacific has built. In the last five years Southern Pacific has built more new line than any other railroad in the United States. In fifteen years Southern Pacific has built 1481 miles of new line at a cost of 88 million dollars. Of this, 40 million dollars has been spent in Northern California and Oregon. Through the barrier of the mighty Cascades it has created a new north and south railway. It has double-tracked its OVERLAND ROUTE line over the Sierra. A new main line has been built through Arizona. From Wendell, California, to Lakeview, Oregon, has been broad-gauged. Now Southern Pacific is completing a short line transcontinental railway through Southern Oregon and Northern California. The Cascade line of the SHASTA ROUTE and the OVERLAND ROUTE will be connected. From less than 700 miles in 1869 to 16,520 miles today is but one way of recording Southern Pacific's 60 years of work. Behind this cold fact of miles built is the epic story of the development of the West. A story of progress indelibly written in the traditions of the West.
