ADMIRABLE CAST FOR SENIOR PLAY

Senior class students of Medford high school who will appear in "Bab," class play to be given at Hunt's Criterion Monday evening: Elnora Hulander, Jack Walker, Elbow Mae Wilson, Al Stoehr, above; Mildred Lawrence, Eric Pierson, below.

That for the most part the seniors who make up the cast of the senior play, "Bab," are ideally suited to their parts, is the opinion expressed by those who have been privileged to witness some of the late rehearsals. Medford theatergoers will be able to judge for themselves when they see this interesting production at Hunt's Criterion Monday night.

Brisbane's Today

(Continued from Page One.)

has no public officials, no police, sheriff or doctor. The 1200, all fishermen, live peaceably.

A community without police, or laws, is hard for us to imagine. Yet every good family is such a community. Justice and kindness take the place of the police and laws. The time is coming, and is less than a million years away.

when there will be no need of laws or police on this earth. Science will provide enough for all. Emulation will replace competition. Even now nobody steals water from another man's well. There is plenty of water.

Colonel Lindbergh tells congressmen that within a few years there will be "safe flying" between here and Rio de Janeiro and Buenos Aires, and, of course, absolutely safe flying all over the United States, from ocean to ocean, from Canada to Mexico.

Colonel Lindbergh says that every big city will need more than one airport.

The postoffice, which continues its admirable aviation developments, has shortened air mail time from the Atlantic to the Pacific by one night.

Mussolini, anxious to have more Italians on earth, lowers the legal age of marriage, for boys from 18 to 16, and for girls from 15 to 14. That may increase numbers, but it will not increase quality.

Wall Street Report

NEW YORK, May 3.—(AP)—Bullish enthusiasm was at a high pitch in today's stock market, which witnessed the establishment of more than a score of new high record gains from one to nearly 15 points. Trading started off at a terrific pace, with blocks of 5000 to 25,000 shares changing hands at the opening, but it slowed up later when weakness cropped out in a few of the volatile specialties.

Berlin Turns to Lumber. BERLIN.—(AP)—Wooden houses gradually are replacing brick and stone in the residential districts of Berlin. Economic necessity has forced the change.

NEW POSTAL AIR SCHEDULE GIVES FAST TIME EAST

The attention of the Medford and valley public and business men especially, is again called by Postmaster Warner to the fact that with the inauguration last Monday of twice-daily transcontinental air mail service between San Francisco and New York City, air mail service in correspondence with eastern and middle west points will gain much time in arrival over the old air mail schedule, which was much faster than by the regular train mail service.
