

PEOPLE FAVOR SATURDAY P. M. PARKING RULES

Questionnaire Vote Also Strongly Endorses Hour Parking and Limitation of Service Station Driveways—Vote Representative of All Sections and Classes.

According to members of the City Planning commission a really comprehensive cross-section of public opinion was secured by the recent newspaper questionnaire, sent a new auto parking ordinance in Medford.

Although only a total of 163 votes were cast, these were scattered over such a large area, coming not only from every ward in Medford, but from every section of Jackson county from Talent to Gold Hill, that it is believed the total represents pretty well how the people as a whole stand on the five important questions listed.

If this view is correct, then there is no question that the people of this community are in favor of hour-parking over half-hour parking; retention of parking restrictions Saturday night, and limiting service station driveways on the principal business streets to 18 feet. On some ballots it was suggested that Medford follow the example of larger cities and prohibit all service stations on the main business streets, but in the opinion of all city officials such a drastic step would be neither desirable nor practical.

On the other two questions opinion appears hopelessly divided the votes being practically even on the prohibiting of double parking and the inclusion of more territory in the parking district.

The detailed vote, as officially compiled, follows:

The dinner was served from six to nine and so crowded was the reception hall and front rooms of the school that the guests were forced to wait their turns before being seated at the tables in the large dining room.

The afternoon and evening programs also drew a large crowd and this year's frolic is said to be one of the most successful from both a social and financial standpoint ever held here.
