

Local and Personal

This is Mother's day when every one is expected to extend messages of love or greeting or gifts to his or her mother, if living, or honor her memory by wearing a white flower, if dead. Mother's day will be formally observed by most churches today with special sermons and the like. Many messages of greeting were sent out by the local telegraph companies last night by local men or women to their mothers in all parts of the county. The second Sunday in May, designated as Mother's day, has, in 15 years, become one of the outstanding "days" of the year. Fifteen years ago Mother's day was practically uncelebrated in America.
