

LOCAL GOLFERS GLENNA TAKES SWINDLED BY OPENING ROUND LONDON BOOKIE IN GOLF QUEST

John Stanley to Whom Medford Golfers Cabled \$350 in Bets, Disappears With Cash and Red-Headed Girl — Golf Book Turns Out Swindle.

LONDON, May 12.—(AP) John Stanley, whose real name is S. H. Clark, the mysterious London bookie, who first put in an appearance on the scene about two months ago when he showed a willingness to take American money from backers of United States golf stars, seems to have folded his tent like the Arabs and even more silently stolen away. At least his office has not been open since the writer inquired yesterday, while various other addresses displayed 100 per cent ignorance of Clark's whereabouts or even his identity.

Walter Haven won the British open, so perhaps Clark was too busy sending out checks to American backers to appear at the office today. But what is his preoccupation he must be at some new address, for the two former ones disclaim even having heard of him.

At address No. 1, Compton Crescent, Chiswick—a woman said she never heard of John Stanley. However, a young man who came up in time to hear the name, immediately professed the information "nothing to do with us old man."

He seemed conversant with the subject of the conversation, although he had not heard anything but the name, but when asked what he knew, he insisted that he had never heard the name before and could not think how his name could be connected with Stanley.

Address No. 2, the squalid furnished room section of Westwick Gardens, Shepherd's Bush, the children in the street seemed under the impression that Clark lived at No. 25, but the woman called when Clark was asked for, insisted the address was 25, which was shut up tight.

The two rooms in Knights Bridge, where the flood of American bets were directed were tightly locked. "Stanley" and the red-headed girl, who acts as buffer between him and visitors, were both conspicuous by their absence.

The above news came today as a distinct shock to many members of the Medford Golf club who placed wagers with "Stanley" aggregating \$350. Most of this money backed Horton Smith to win and quality, but other American pros were also backed. One hundred dollars was placed on Smith to win at six to one. As a result, those who backed Smith on this bet, celebrated the fact they would distribute \$600 cash among themselves.

Now it appears the entire proposition was a hoax, and the alleged John Stanley, alias S. H. Clark is no doubt at Monte Carlo, spending \$350 in hard earned Medford cash on the red and black—principally the "Red."

Further developments will be awaited with interest by local golfers. If other golf centers fell for Stanley, as did Medford it is calculated the London bookie cleaned up several hundred thousand dollars, as it is believed his "come on" card was distributed throughout golf clubs of the United States.

American Title Holder Wins Five and Three Over English Opponent—Marion Turpie Defeated—Joyce Wethered Wins.

ST. ANDREWS, Scotland, May 12.—(AP) Glenna Collett, American title-holder, began her quest for the British women's golf championship with a five and three victory over Marjorie White of Southampton, in a first round match today.

Marion Turpie, born at St. Andrews but an American resident since she was less than a year old,

GLENNA COLLETT

was beaten in the first round by Miss S. F. Dampney, of England, three and two.

Playing confidently, Miss Collett eliminated Miss White by winning the 13th, 14th and 15th holes in succession.

Enid Wilson, twenty year old English champion, won her first round match from Joy Winn, three and two.

Gertrude Boothby, of Rochester, Minn., had a walkover into the second round, her schedule opponent, Mrs. Clifford Kitson having scratched.

Miss Joyce Wethered defeated Miss Phyllis Lobbitz, 6 up and 5 to play.

Mrs. Temple Dohell, former champion, won from Mrs. George Coats, Ayrshire champion, at the 19th hole.

Miss Leslie Brown, young English girl from the Wimbledon club, defeated Miss Janet Jackson, many times Irish champion, seven up and six to play. This result with Miss Turpie's defeat were the surprise of the morning play.

Miss Wethered played sensational golf to win her first match, reaching the turn in 37 strokes. She played the four holes of the second nine 4-3-4-5, even fours, and had a card for the day's play, one over four for 13 holes.

Mrs. Kenneth Morrice's defeat of Miss E. E. Helme, six up and five to play, was regarded as an upset. Mrs. Alex Gold won from Miss Dix Perkins, six up and five to play.

Miss Marion Hollins, former women's golf champion of the United States, won her first round match, defeating Mrs. R. V. Finlay five up and three to play.

The entry of Mrs. E. A. Guggenheim, New York, was scratched, so Miss D. I. Clark advanced to the second round by default.

Miss Holly Gourlay won from Mrs. Hugh Percy, four up and two to play.

Tomorrow morning Miss Collett will play her second match. Her opponent will be Miss Phyllis Bayliss, a young player from the Camerly Heath club, near London. Miss Bayliss has had comparatively little tournament experience.

CLEVELAND FAN BEANS ARBITER WITH BOTTLE

Umpire Ormsby Suffers Concussion of Brain After Demonstration By Crowd—Peckinpugh Draws 5-Day Suspension.

CLEVELAND, May 12.—(AP) Suffering with a concussion of the brain inflicted by a baseball fan's pop bottle, Umpire Emmett T. Ormsby was in the constant care of a physician today. Roger Peckinpugh, manager of the Cleveland American league team, was under five day suspension for protesting a decision which preceded a demonstration during the game Saturday.

The decision curbed an Indian rally and gave the game to the Philadelphia Athletics, 4 to 2. It was not Ormsby's ruling that caused the trouble, however. Umpire William Brick Campbell had called Lew Fonseca, Cleveland first baseman, out for interfering with a throw to first after laying down a bunt in the eighth inning.

Peckinpugh protested. As howls and jeers in the stands grew louder the fans rained bottles on the field, striking Ormsby in the back of the head, and two members of the Philadelphia team, Joe Bowley, shortstop, and Kid Gleason, coach. Neither was badly hurt.

Campbell's report to E. S. Barnard, president of the league, brought an order forbidding him to enter the field until Friday. It was the first time in Peck's baseball career of nearly 20 years that he has been under suspension. He was sent from the field but once.

Ormsby was led away in a semi-conscious condition, but was not thought seriously hurt. Last night, however, he became worse. His wife was summoned from Chicago. He is expected to return to duty in about a week.

Saturday was "Jamieson Day," in honor of Charlie Jamieson, Cleveland outfielder, 11 years a member of the team, and the demonstration was the second incident to mar celebration of his baseball anniversary. Shortstop Ray Chapman, of the Indians, was killed by a pitched ball in New York in 1920, during a game which marked Jamieson's second year in the big league baseball.

SELLING SCIENCE NEEDED IS CLAIM BEFORE KIWANIS

Physical sciences have advanced far beyond mental science and men are not using their minds any more vigorously than they did 100 years ago, according to Percy Arnold, head of the Arnold sales institute being held in Medford this week, who was the main speaker at the Kiwanis club luncheon this noon.

O. O. Alenderfer, A. W. Pipes and Gus Newbury compose the Kiwanis club committee chosen by President Jack Thompson to work with the general committee on the new community club house upon which construction will begin during the summer, according to present plans.

High school boy guests of the Kiwanis club this noon were: Junior Porter and Gene Prock. Other guests of the organization included M. A. Marcy, district superintendent of the Southern Methodist Episcopal church, from Eugene; Kiwanians Coss of Bend, Ore.; Frank Isaacs of Medford and Frank Glover of Portland.

WOOD READY FOR BOUT WITH HAND ARMORY TONIGHT

Preparations are complete for the big I. O. O. F. grand lodge committee wrestling and boxing smoker at the armory tonight, featuring Sailor Jack Wood of this city and Ralph Hand of Yakima, Wash., in a finish wrestling match. Wood has just completed a heavy

Jack Wood

training program for the bout, and declares he is in the best condition he has been in for some time. Hand arrived in Medford several days ago and has been spending much of his time at his former headquarters in Gold Hill.

Hand is remembered in Medford and southern Oregon for the numerous matches in which he took part with mat men from all parts of the county. Hand was well known for his toe hold, with which

he won the majority of his matches, but when he meets Wood that hold may not do him much good, as it holds no menace for the local man, the latter says.

A special boxing event is also on the card and will match Pat Padelford, local pride, against Jackie McCoy of Seattle, for six fast rounds. McCoy is given a slight edge over Padelford, and fans are expecting a hard fought battle. In a preliminary, Joe Corbett of Roseburg will meet Eddie O'Connor of Seattle, and this also promises to be a fast go.

FRENCH AIRMEN PLAN HOP OVER SEA FOR SPORT

NEW YORK, May 12.—(AP) Setting themselves a schedule of 20 hours in which to reach Paris, three French fliers hope to soar away from Roosevelt Field, L. I., within 10 days in a huge, single motored monoplane. If successful the air riders, Rene Lefevre, Armand Lotti, Jr., and Jean Assalant, would better by three hours the standing record established in 1927 by Col. Charles A. Lindbergh.

The contemplated schedule was made known here last night on the arrival of Lotti and Assalant, who joined Lefevre today at the field. Lotti, financial backer of the flight, said the venture would be attempted simply out of sportsmanship.

The Monoplane, a Bernard, powered with a 600 horse-power Hispano-Suiza engine, has been at Roosevelt field undergoing a tuning up for the past week.

The flight will be over the great circle route. Le Bourget field is the objective. The plane has a cruising speed of 130 miles per hour and can be accelerated to 140.

"We hope to start after May 19, which is next Sunday," Lotti said. "It is our intention to take advantage of the favorable conditions expected to prevail immediately before and after the new moon which is due on the 25th."

"Our primary purpose is to show the trans-Atlantic flight can be done by a French plane and a French crew."

DECISION WILL NOT PUT CARKIN OUT OF TAX COMMISSION JOB

That the decision of Attorney General Van Winkle does not make it impossible for him to hold a position on the new state tax commission, should the same be offered, was the opinion expressed today by John Carkin of this city, who, according to press reports Saturday night, had been eliminated from the race by the decision above mentioned.

"The decision," said Mr. Carkin, "establishes the fact that the bill does not create a new commission, and therefore a member of the legislature is perfectly eligible for membership. If the board of control wants me to be a member, they can certainly have me."

"The decision regarding the increase in salary is not an error, but as I see it, this only affects the salary and not the right of any legislator to serve on the commission."

STUDEBAKER... holder of world records

...maker of transportation history

—guard its fine motor from harmful carbon-forming oils!

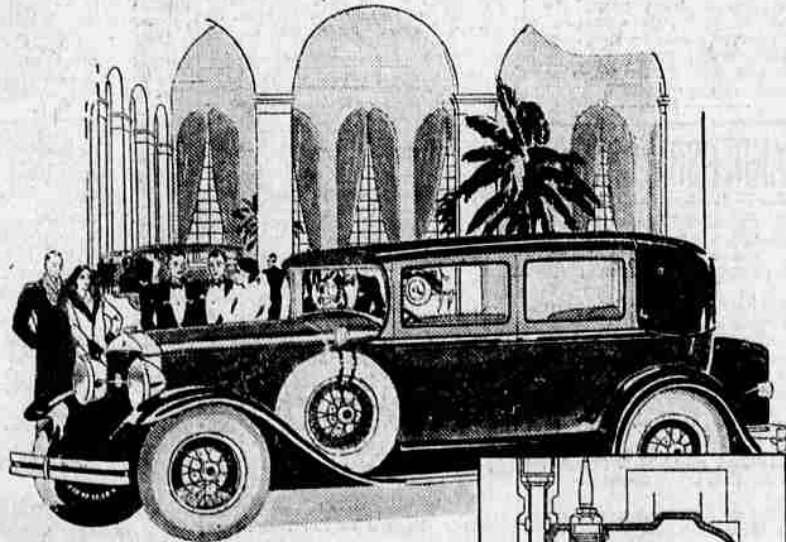

TODAY, car makers give us wonderful motors with enormous capacity for endurance, for speed. Not mere size; many of the "biggest" motors have disappeared. Rather it is the strength, the efficiency built into them. A change in design which enabled Studebakers, for example, to shatter existing records for time and distance.

This change in motor design, almost universal now, calls for a new motor oil standard—an oil that forms no hard carbon. Such oils are scarce; many otherwise good lubricants are notorious carbon-formers. They could be used perhaps in the big, roomy motors of a few years ago, but today, with pistons that come almost to the cylinder head, there's simply no room for carbon.

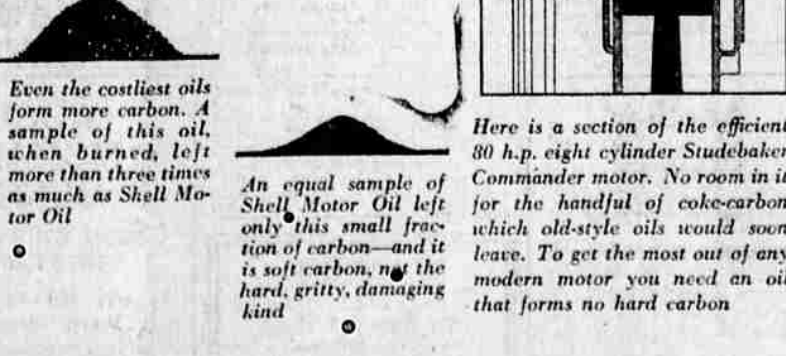

There is an oil, however, that forms 2/3 to 4/5 less carbon than even the costliest oils! The little it does form is only soft soot that blows easily away.

It both lubricates and protects fine motors. It eliminates the gritty carbon chips that would grind endlessly through tight pistons and bearings; prevents carbon knocks, valve fouling and burning.

It is Shell Motor Oil. Refined by a new high-vacuum process, this remarkable low-carbon oil is hailed by lubrication experts as a great advance. Full bodied, resistant to heat—Shell Motor Oil is a great new lubricant with the added advantage of less carbon.

This particular body style, the Commander eight brougham, caught the artist's eye as he sketched a display of the new Studebaker models

Even the costliest oils form more carbon. A sample of this oil, when burned, left more than three times as much as Shell Motor Oil

An equal sample of Shell Motor Oil left only this small fraction of carbon—and it is soft carbon, not the hard, gritty, damaging kind

SHELL MOTOR OIL

Shell 400, the new "dry" gas that burns cleanly and keeps out of the crankcase, is the ideal running mate for Shell Motor Oil. Even Shell Motor Oil can be ruined by thinning with "wet" gasoline
