GRAF READY FOR FLIGHT TO STATES

Action of France Causes Postponement of Plan to Start Tomorrow — Last Trial Made Monday — Passengers and Curious Crowd Little German Town for Take-Off.

FRIEDRICHSHAFEN, Germany, May 14.—(AP)—The scheduled departure of the trans-Atlantic dirigible Graf Zeppelin for the United States tomorrow morning has been postponed because France has been withholding permission for the ship to fly over that country.

FRIEDRICHSHAFEN, Germany, May 14.—(AP)—Final preparations for departure of the giant dirigible, Graf Zeppelin, on its second trip to America were under way here today.

A last trial flight of one hour and three-quarters was made at dusk yesterday under command of Captain Lehmann, assistant to the ship's master, Dr. Hugo Eckener. Everything was pronounced in readiness for the great adventure.

The little south German town was a beehive of activity today, with its quarters crowded with passengers, newspapermen and sight-seers.

It was assumed after taking off tomorrow morning Dr. Eckener will shape his course to Lakehurst, N. J., as far south as the Azores, or even further south, since adverse weather conditions are expected to prevail along the northern route. The extreme southern course measures 7,600 miles, as compared with 4,000 minimum mileage along the northern course.

Fifty-nine persons and one lady gorilla, "Missie" by name, who is consigned to the Chicago zoo, will make the trip aboard the ship, 49 of the persons being members of the crew. Among the passengers is Captain Sir George Lambert Wilkins, polar explorer, who wishes to make some navigational studies en route.

Sir George, with 27 others and the full crew complement, made the trial flight yesterday under Captain Lehmann. The gorilla, however, remained aground, although it was expected she would be taken aboard some time today.

The plans of an attempted stowaway, a young painter's assistant, were frustrated when he was discovered and ejected from the ship.

Thousands of letters have stacked up at the little postoffice here, to be carried aboard the dirigible. A branch postoffice has been installed aboard so that passengers may mail letters, as well as send wireless dispatches.

To facilitate departure, and arrive at Lakehurst, passport formalities have been reduced to a minimum.

As the hour of the Zeppelin's second departure for the United States approached, a great tide of spectators set in from all parts of Germany and other countries, various associations and clubs arriving en masse with music and flags, all creating an atmosphere of excitement. Three boats arrived from Switzerland, jammed to the rails while motor busses coming from Munich, Augsburg, Frankfurt and other cities, kept piling in new arrivals.

PARIS (AP)—Marshal Foch's national funeral cost the French treasury about \$12,000. A recent auditing showed that the radical body of Jean Jaures, socialist leader, government spent twice that amount in 1925 to transfer the body of Jean Jaures, socialist leader, to the Pantheon.

GENOVA, Italy (AP)—Luigi Stoppioni, convicted in an earlier trial by default and sentenced to 30 years in prison for killing a fascist, returned and stood trial and got away with a term of 16 years. The crime took place in January, 1923.

HE THOUGHT:
"You'll never make this club"

YET, to be polite,
SHE SAID:
"We'll let you know, Joe, after the next meeting."

But actually, we did him a favor. For Joe grew suspicious—and somehow learned the real facts.

Today Joe rates big everywhere—in the club and out. He knows the easy way to end body odor now.
