At 3:30 o'clock Tuesday afternoon the Reeder Gulch reservoir was filled and the water started pouring over the spillway into Ashland creek. This means that a storage of 800 acre feet of water has been provided. When the water started pouring over the spillway it was the first time in a year that water from the above dam had flowed through the creek bed below the dam. The water is pouring over the dam in sufficient quantity to insure the "clean-out" of the creek before the hot summer days.—Ashland Tidings.

Helman's plunge opens May 4th. 70*
