Britain's Election. An Epitaph for Sun. Theory Is Easy. Ice Water? No Thanks.

(Copyright by King Features Syndicate, Inc.)

At Britain's general election next Thursday surprises are expected. Austin Chamberlain may lose his seat. Birmingham is radical and "labor."

Lady Astor, contributed to the house of commons by Virginia, has a hard fight, and is able to handle it, including rough words and actions by some who think her husband too rich. It is generally expected that Balwin will win, by a much reduced majority, with labor a close second, and Lloyd George's liberal party with barely 60 members, but enough perhaps, to give him the balance of power.

The British are fortunate in their national leaders. Baldwin, Lloyd George and Ramsay MacDonald are all men of ability, unselfish patriotism and industry.

One British gentleman, almost in earnest, has recently suggested this: "America is very rich. We are hard up. Why not let America run its own country and ours, and help pay our taxes in an Anglo-American empire? Having the brains, we British would easily get control, and run the whole thing." That sounds conceited unless you consider the source.

Sun Yat-Sen, president of China, dead for a long time, not yet definitely buried, is on his way to his final resting place in the mountains near Nanking.

What will be written on his tomb?

"Here lies one who established republican government too soon" might do.

Some student should write a book on the epitaphs of conquerors and statesmen. Napoleon's inscription recites that he wished to be buried beside the Seine "among the French people, whom I have so much loved." Republican France should long ago have added, "and whom I have so plentifully slaughtered." But the great Corsican brought glory to France and men cling to glory.

In Samarkand on the tomb of Tamerlane, greatest Asiatic killer, except Genghis Khan, was written: "This is the resting place of the illustrious and merciful monarch, the most great sultan, and the most mighty warrior, Lord Timur, conqueror of the earth."

Tamerlane built pyramids of human skulls, lighted from within. If he was merciful, you can imagine what the others were.

But he did rebuild magnificently Samarkand, where Genghis Khan ruled before him, and where Alexander, in drunken anger, killed Clytus, his best friend.

It is easy to theorize, easy to have a special session of Congress, concentrating on farm relief.

Theory and the special session did not keep wheat from dropping to a new low record for the season, last week.

Farmers, in an age of intensive mass production, work on in the old disorganized individualistic way. Farm relief will be needed until farm work is organized on modern lines. No man in an old

SENATE TO GET TARIFF BILL TODAY

Expect House to Pass Measure Before Nightfall — Provides Changes in Thousands of Commodities — Every Person in Country Affected By Proposals.

WASHINGTON, May 28.—(AP)—The house today passed the tariff bill and sent it to the senate. The vote on final passage was 264 to 147.

WASHINGTON, May 28.—(AP)—Substantial increases in import duties on thousands of commodities of the farm and factory are provided for in the new tariff bill, which before nightfall is expected to be passed by the house and sent to the senate.

The measure, the first tariff legislation in seven years, also recommends sweeping changes in administrative provisions of the law and a reorganization of the tariff commission under a system designed to speed up its work.

The bill revises, mostly upward, rates in every dutiable section of the tariff, including Fordney-McCumber law, which it is designed to supplant.

Every man, woman and child in the country and nearly every foreign nation in the world is affected by the economic changes proposed by the measure in the seven-year-old Republican protective tariff structure.

Perhaps the most far-reaching change is the advance of sixty-four hundredths of a cent in the effective duty on sugar, raising the present duty of 7.76 cents a pound on Cuban raw sugar to 2.40 cents.

Other rates advances, designed to aid the farmer and manufacturer, affects such commodities as wool, cattle, dairy products, meats, grains, textiles, glass, paper, furniture and clothing of all descriptions.

Places Duties. Important commodities long allowed free entry into the United States are made dutiable, including hides, leather, boots and shoes, cement, common building brick, shingles, cedar, maple and birch lumber.

The measure also sets up an entirely new rate schedule to embrace manufacturers of artificial silk under the official name of "rayon." These goods are protected in existing law under the silk schedule.

From a public standpoint the increases in the sugar rate and the boosting of the duty on raw wool from 31 to 34 cents a pound are regarded as more important than the others. The duties placed on shoes and raises in rates on hundreds of other farm and factory products also will have a bearing on family budgets unless producers absorb the higher imports instead of passing them on to the consumer.

While the measure is understood to be objectionable in some respects to President Hoover, it meets his request for a reorganization of the tariff commission by providing authority for him to terminate the terms of office of the present six commissioners at his will by the simple process of sending the names of their successors to the senate for its advice and consent.

HOOVER OPENS ENFORCEMENT BODY SESSION

WASHINGTON, May 28.—(AP)—Hope that the national law enforcement commission will secure an accurate determination of fact and cause of lawlessness and follow them with constructive, courageous conclusions was expressed today by President Hoover at the opening session of this newly created body.

"Both the general public approval of the necessity for the creation of this commission," the president said, "and the extraordinary unanimity of approval of its membership are in themselves evidences of the responsibility that lies upon you and of the great public concern in your task and of the hopes that you may succeed."

"I do pray for the success of your endeavors, for such success as you will have performed one of the greatest services of our generation."

PUBLICATION OF ROLL CALLS IS RECOMMENDED

Senate Rules Committee Votes to Ask Publicity On Executive Session Action — Motion to Lift Floor Ban Fails.

WASHINGTON, May 28.—(AP)—Publication hereafter of all roll calls taken in executive sessions of the senate in the consideration of nominees was recommended to the senate today by its rules committee.

The committee also recommended that in future only a majority vote, instead of the two-thirds vote now required, be necessary to the consideration of a nomination in open session.

The committee, however, rejected the motion of Senator La Follette, Republican, of Wisconsin, to restore the privilege of the senate floor to the press associations.

The vote for revision of the rules to permit an open session upon a majority vote was 9 to 3.

The three senators voting in the negative wanted all sessions for consideration of nominees to be open unless closed by a majority vote. They were Senators Harrison of Mississippi, Swanson of Virginia and McKellar of Tennessee, Democrats.

ROGUE VALLEY CROP SURVEY TO BE SOUGHT

The Rogue River Traffic association, acting in conjunction with the Fruitgrowers' league, will take steps to secure a survey of the 1929 fruit crop of the Rogue River valley.

Heavy dropping of the fruit is now under way in Rogue River valley orchards, similar conditions prevailing in California and north-west districts, according to reports to local growers and shippers. This is attributed to the lateness of the season.

Fruit authorities generally admit, the Rogue valley crop will be less than last year.

J. E. Edmiston of C. & E., who last season estimated the crop shipments the closest in the pre-shipment season, figures that the crop for all varieties will be 85 per cent of last year. His first forecast was 90 per cent of last year.

Edmiston predicts that the crop shipments this season will be 500 less than last year. He has visited most of the orchards of the valley. J. Court Hall, local fruit-grower, did the same thing, and yesterday predicted that the 1929 crop would be 1000 cars less than last year.

Edmiston, owner of one of the largest blocks of Comice pears in the valley, estimates the Comice crop will be 75 per cent of last year. Hall figures the Comice crop would be 30 per cent of last year.

Most of the growers and packers estimate that the Bose, crop will be less than last year.

OLD ORCHARD, Me., May 28.—(AP)—Captain Lewis A. Yancy, navigator of the Green Flash, announced today that the plane would leave here at 8 a. m. tomorrow for Rome. The announcement followed a telephone conference with New York weather bureau officials. Final preparations for the take-off were under way this afternoon.

RETURN FROM WORLD CRUISE

J. C. Penney, who operates chain department stores, arrived in Los Angeles with Mrs. Penney at the end of a world cruise.

CANYON PLUNGE COST LIVES OF 9 IN COLORADO

Two Bodies Recovered — Victims Identified — Believe Car Became Unmanageable On Highway — Find No Trace of Automobile.

GLENWOOD SPRINGS, Colo., May 28.—(AP)—Nine persons lost their lives Sunday when an automobile in which they were riding plunged from a canyon highway six miles from here into the Colorado river, Sheriff George Winters announced today. But two bodies have been recovered from the swollen river.

The announcement followed identification of the bodies of the boy and girl which were recovered from the river by Ezekiel Tapia, brother of one of the victims of the accident.

The nine persons in the car, Tapia said, were Nick Garcia, his wife and their four children, three boys and a girl and Mr. and Mrs. Leo Tapia, and their baby. The bodies recovered were children of the Garcia.

Sunday Garcia drove from Oak creek, accompanied by the Tapia family, to get his family. The party was en route to Oak creek when the car evidently became unmanageable and plunged into the river.

No trace of the missing automobile has been found by the sheriff and it is believed it may have been carried down the river which is above flood stage. Winters said it was doubtful if the seven other bodies would be recovered.

RAIN AND BREAKS HALT QUALIFYING AT INDIANAPOLIS

INDIANAPOLIS, May 28.—(AP)—Rain and mechanical difficulties had drivers and officials alike caught in last minute jams here today with the annual 500-mile automobile race little more than a day away and only 19 of 44 entries qualified to start.

As a result, all day was to be given over to time trials in the hope that the starting lineup would be completed by nightfall. Unless that was done, officials said it would be necessary to suspend the rules and permit qualifying trials tomorrow. The 33 fastest cars will be eligible to start in the race.

Heavy showers and motor trouble prevented any driver from qualifying his mount yesterday. Myron Stevens, Los Angeles driver, provided the only thrill when he lost control of his car late in the day and was hurled from it as it skidded on a turn into repeated somersaults. Stevens escaped with a fractured right arm and bruises.

The car, entered by William White of Los Angeles, was wrecked.

Staters to Row. CORVALLIS, Ore., May 28.—(AP)—Coach Orthus and the senior rowing crew left here today for Seattle, where Oregon State college will meet the University of Washington freshman team in the 'Aggie's' third and final intercollegiate race of the season.

BRIDAL PAIR ON SECRET TOUR TODAY

Lindbergh and First Lady of the Air Escape Curious After Surprise Wedding — Ceremony Was Simple — Omit Word 'Obey' in Brief Ritual — Couple Not Flustered.

ENGLEWOOD, N. J., May 28.—(AP)—Taking a waiting woman completely by surprise, Col. Charles A. Lindbergh and his bride, the former Anne Morrow, were away on a secret honeymoon today.

The marriage took place without previous announcement at 4 p. m. yesterday in the drawing room of the home of the bride's father, Ambassador Dwight W. Morrow. Half an hour later the couple drove away from the estate unaccompanied, apparently bound for New York.

The Rev. Dr. William Adams Brown performed the ceremony in which a simplified form of the marriage service, with the word "obey" omitted, was used. He is a Presbyterian, as are members of the Morrow family.

Only members of the Morrow family and Mrs. Evangeline Lindbergh, the colonel's mother, witnessed the informal ceremony. These included the ambassador and Mrs. Morrow, the bride's two sisters, Elisabeth and Constance, General and Mrs. Jay Johnson Morrow, brother and sister-in-law of the ambassador, and Miss Alice Morrow, his sister.

So quietly and quietly was the wedding held that it was 8:30 p. m. before the public knew that the marriage had taken place.

The bride wore a simple white chiffon dress, made by Miss Mary Smith, an Englewood dressmaker, who has sewed for the Morrow family for years. The bride wore a short veil and in her ungloved hands carried a bouquet of blue larkspur which had been picked in the gardens of the Morrow estate by her fiancé a few moments before the ceremony.

Each guest was given a piece of the wedding cake.

Dr. Brown, describing the wedding, said: "There were no special decorations. The very simplest wedding ceremony was used at the request of the family. It was a very unusual and very brief ritual, designed to use a minimum of words and time."

"There was no best man and there were no bridal attendants. Ambassador Morrow gave his daughter away."

"The bride was very charming and very lovely. She wore a white veil and a white dress. Colonel Lindbergh wore a plain business suit."

"Miss Morrow was quite composed during the entire ceremony. Colonel Lindbergh was entirely at ease. He hasn't any nerves."

Dr. Brown explained that he omits the word "obey" from the marriage service unless requested to use it. He said the other omissions were at the suggestion of Colonel Lindbergh.

Possibility that the couple were planning a flying honeymoon was seen in orders received at Roosevelt Field from Colonel Lindbergh that his Blue Falcon plane be conditioned and ready for flight.

Colonel Lindbergh is 27 years old and his bride is 23. Their romance began when Lindbergh was received at the American embassy in Mexico City on his goodwill tour December 14, 1927. At that time Miss Morrow was a senior at Smith college, where she had made something of a name for herself as a poet with contributions to college publications.

WOMAN FLIER SETS NEW HEIGHT MARK

MINES FIELD, Los Angeles, May 28.—(AP)—Driving her trim cabin monoplane to an unofficial altitude of 24,000 feet, Miss Marvel Crosson, veteran San Diego woman flier, landed here today after a two-hour flight with the women's altitude record apparently broken.

ACCEPT RESIGNATION MRS. WILLEBRANDT

WASHINGTON, May 28.—(AP)—Mabel Walker Willebrandt submitted her resignation today as assistant attorney general, effective June 15, and it was accepted by President Hoover.

Mrs. Willebrandt submitted her resignation March 4, along with all other appointive officers of the government. The resignation was not accepted by President Hoover and she remained at her post at his request despite the offer to leave the government service.

Savvy Study Whose Constitutes Well Born Child

CLEVELAND, May 28.—(AP)—Five years from now scientists at Western Reserve university hope to be able to tell you just what constitutes a "well born child" and exactly what he ought to be like at various years of his life.

The project was announced at the commencement week meeting of the chapter of Sigma XI at Case School of Applied Science by Dr. T. Wingate Todd, professor of anatomy at Western Reserve.

It is proposed to study the child in and before the nursery school period as well as to examine the growing body and expanding mind of boys and girls in the second decade of life in order to find out how the patterns of adult behavior become fixed during that period.

NEW LICENSES ALLOWED FOR POOL PLACES

Council Votes Reissue Permits — May Be Revoked for Sale of Liquor Or On Other Law Infraction — Protection Promised.

All is peace again between the city administration and the proprietors of the pool and card rooms, following a unanimous vote by the city council at 9 o'clock this forenoon to reissue to all such establishments new licenses, including three front street places which were closed some time ago because of their selling "bitter."

The new licenses are issued under the recently amended ordinance stipulating that any pool and card room license may be revoked for the sale of intoxicants, and also a clause that, such licenses may be revoked at any time a municipal, state or federal law is broken.

The decision to grant the new licenses was reached after the special council committee to investigate conditions at each card and pool room had recommended that such action be taken. This committee reported that its members found no enclosed small card rooms, or screens or blinds about tables in the establishments except a part store room with card tables, on which friendly games of cards could be played without charge, which the proprietor had stated he would have removed.

The cellar room of one establishment has been removed since the recent agitation started.

The assembled proprietors at the meeting this morning were told that they could obtain the new licenses within two hours, as fast as they surrendered their old licenses and as fast as the city recorder could make out the new ones.

"It is not the purpose of the city council to work a hardship on any pool and card room owner, as long as he imposes no hardship on the people," said Mayor A. W. Pipes in addressing the assembled proprietors. "We recognize that the pool rooms are a source of amusement for many, and meet a certain popular demand if they are conducted properly and in conformance with the law."

The mayor called attention to the fact that at times himself, the police and councilmen received complaints of alleged wrongdoings against certain pool and card rooms, and hence the decision of the city administration to insert the clause in the ordinance that a license can be revoked at any time for violation.

"And I want to state right now," said the mayor determinedly, "that when any license is revoked in the future, it will be for a period of 99 years."

"So long as your places of business are conducted right, the city council will give you 100 per cent protection."

"We appreciate your co-operation at this time in settling this matter, and hope that you will continue to co-operate in the future."

WOODBURN STUDENT IS EDISON TRANT

SALEM, Ore., May 28.—(AP)—As representative of the district composed of Marion, Polk and Benton counties in the Edison scholarship contest Archibald Atkinson, senior at Woodburn high school has been selected. Atkinson was the unanimous choice of a committee composed of four faculty members from Willamette university, Albany college and Oregon State college.

RANCHER IS ACCUSED BY CHILDREN

Mysterious Disappearance of Wife and Young Son From Tulare Farm to Be Probed — Daughters Make Charges — Bloody Axe and Shovel Figure in Story.

SACRAMENTO, Calif., May 28.—(AP)—The mystery of the disappearance of a woman and her nine-year-old son from their ranch near Terra Bella, Tulare county, in 1923, and of suspicions that they met foul play are to be discussed by G. F. Franklin, 60, of Sacramento, his four children and Sacramento county authorities today.

Franklin was remanded to the custody of the sheriff here yesterday after his three daughters, Nellie, 14, Ruth, 17, and Irene, 20, charged him with statutory offenses. But the district attorney sheriff's office were more interested in a story told by the girl and their brother, R. H. Franklin, 16, to the effect that their mother and younger brother had disappeared from their Tulare county ranch in 1923, under peculiar circumstances.

The children declared that their mother intended to take her youngest child to Portland, Ore., there to have him treated for an affliction of speech. The two went away with their father, they told Deputy District Attorney Guy P. Johnson, and the father returned the following day saying he had put them on a train for the north.

On the same day, they said, Franklin appeared at the ranch house with a bloody axe and shovel. No word has ever been received from Mrs. Franklin or her son since, the children said.

Franklin declared today that his children had "framed" him because he would not let them "chase around." He also said he had received a letter from Mrs. Franklin in Portland last July. Irene possessed this letter, Franklin said.

Both of these assertions were denied by R. H. Franklin. He charged his father with unseemly immoralities involving his sisters and declared that, considering the "lay of the land" at the ranch, Franklin could not have taken the wife and son to the railroad station. Nor did Irene ever have a letter from her mother, the boy said.

HERMISTON HIGH DEBATING CHAMP

EUGENE, Ore., May 28.—(AP)—To eastern Oregon goes the state high school debating championship. Hermiston high school arguing the affirmative of the question. "Resolved, that a graduated income tax is a desirable feature of a state system of taxation" won the state high school debating championship title at the university here tonight, defeating Scappoose high school.

Ruth Benzel and Walter Ott were on the winning team, with Rose Donovan coaching. Hermiston won the eastern Oregon title, and Scappoose, the western title.

Will Rogers Says:

PITTSBURGH, Pa., May 28.—Threw Iowa out of the football league for paying too much attention to their players. Most of the colleges just give 'em board and schooling if they want to take any schooling.

These other colleges are not so shocked that they won't play with Iowa this fall then break off next year.

There is only one fair way to ever arrange amateur athletics in any line in this country and that's let the athletes work on commission of what they draw at the gate, then make them pay their own schooling expenses.

Yours, WILL ROGERS.
