

To keep ham from getting hard and dry on the outside take some of the fat part of the ham and fry it out. Let it get hard, then spread on the cut end of the ham; half an inch thick is not too much. This excludes air. Hang in a cool place. When slicing the ham, scrape off this fat, and afterwards put it on again as before.

MOSCOW.—(AP) An expedition of the State Institute of Music, after nearly a year's search on foot for folk songs and musical instruments, brought back 100 songs and 54 instruments from the Smolensk district and White Russia. This summer the same men will search the Crimea and the Black Sea coast.

ADD TO LABORERS FOR CRATER LAKE SNOW CLEARANCE

That the Crater lake season's official opening, July 1, is not so far away can be better realized by the fact that Superintendent E. C. Solinsky sent up to the national park this forenoon a crew of 20 laborers to join the rangers and others who have been there for some time, to begin the preliminary work of getting things ready—shoveling snow from entrance roads, aiding in the pine beetle pest destroying work that has been going on for weeks past, digging the park buildings out of the snow, etc.

or 20 sent up today will be employed in the national park in various capacities until the close of the season next September, and included four Medford high school boys, Gordon Warner, Charles Thomas, Bill Bowman and Victor Atkins, and two University of Oregon students, Edith Phipps and Arthur Rowland.

The snow is yet deep at the national park, but like in the valley, it has been raining there most of this week, and it was raining hard at the park this forenoon.

Superintendent E. C. Solinsky, who returned yesterday from a several days' inspection trip to the park, left again this noon for Crater lake.

RAIN RECORD FOR JUNE PASSED BY CURRENT STORMS

While only .3 of an inch of rain fell during the 24 hours ending at 5 a. m. today, having practically ceased yesterday and beginning to fall again last night, between the hours of 5 a. m. and 11 a. m. today, .17 more of an inch fell, making the total for June up to the latter hour 2.38 inches. The latter amount is in excess of .19 of an inch of the total rainfall ever recorded in Medford for the month of June. The highest previous June record was in the June of 1914.

Rain continued to fall at various times after 11 a. m., and probable showers are forecast for tonight and Saturday, and also a moderate temperature. The down-pour of this week so far while of great benefit to crops, has caused the Rogue river and other valley streams to rise greatly and spoil orchards to spread and has much slowed up the auto tourist traffic because of driving the tourists into auto camps and hotels along the various highways to await the close of the rainy spell.

CALIFORNIANS VISIT T. SLATER JOHNSON

Mr. and Mrs. William Slater of Santa Barbara, Calif., arrived by motor this morning to visit for a week with T. Slater Johnson, who is recovering from a broken arm sustained when he was thrown from a horse ten weeks ago.

JACKSONVILLE DANCE BENEFIT BALL CLUB

A big dance will be given to-morrow night at the old United States hotel ball room at Jacksonville for the Jacksonville baseball team, recently organized and formerly known as the Mail Tribune Apple Knockers.

The dance will begin at 9 o'clock Saturday evening and continue until 2 o'clock the next morning. This team has been having a successful season and last Sunday defeated Talent, and will play that team again next Sunday, it was announced today.

Emil Britt, John Miller and Dr. J. W. Robinson of Jacksonville were among the city visitors today. They predict the water bonds will carry at the election June 26.

CANDIDATES FOR MILK INSPECTOR BESIEGE MAYOR

The city council will hold a special meeting tonight to act on a report and other matters that have come up since last Tuesday night. It will be recalled that at that time the council passed an ordinance to provide for inspection of dairies that retail milk in the city. The inspection to be done by an inspector to be appointed by the mayor with the council's approval.

ST. LOUIS WOULD BE AVIATION CAPITAL

ST. LOUIS.—(AP)—St. Louis is out to capture the title of "aviation capital" of the nation. The position of the city as a leading aviation center is the basis of an intensive national advertising program launched by the advertising committee of the Industrial club of St. Louis.

Wall Street Report

NEW YORK, June 7.—(AP)—Efforts to extend the recovery in today's stock market met with increasing opposition, giving price movements an irregular trend. The trading continued largely professional in character with the outside public still on the sidelines pending a further clarification of the credit situation.

Call money renewed unchanged at 7 per cent and appeared to be in rather more plentiful supply at that figure. Time money rates showed further liquidation of radio sent that stock down close to 81. Commonwealth Power fluctuated within a 5-to-6 point range and United Fruit sold at 116, the year's lowest figure. Later buying of the utilities and the renewed strength of commercial solvents, which touched 293, caused some irregularity at the close. Sales approximated 3,200,000 shares.
