## GERMANY'S BURDEN IS LIGHTENED

### Report of Experts On Reparation Plan Reduces Annuities During Next 37 Years to Average of \$492,000,000 — Advantages of Plan Set Forth By Report to Powers.

PARIS, June 7.—(AP)—The experts' report to the reparations commission unanimously recom-

mends reductions of the reparations annuities during the next 37 years from 2,500,000,000 gold marks (approximately \$600,000,000) to an average of 2,050,000,000 gold marks (approximately \$492,000,000).

It recommends annuities of 1,700,000,000 gold marks (approximately \$425,000,000) for the last 22 years subject to the profits of the international bank to be created under the reparations agreement and an arrangement for amortization in which the creditor powers will participate.

The report dwells upon the following advantages:

Decreasing the burden for Germany.

Taking of the reparations question out of politics.

Putting it into an organization of orderly business.

The elimination of outside organizations that exercise a control in Germany and the early mobilization of a considerable part of the first 37 annuities to give the creditor powers important sums available for the reduction of their own interior debts.

## BURTON TO OPEN CHILDERS DANCE HALL SAT. NIGHT

Dreamland, another amusement place for Medford, will open Saturday night, according to the announcement given out yesterday by Curtis Burton, who is in this city from Eugene to open the dance pavilion. The new management has already taken over the dance hall over the Isis theater on East Main street, commonly known as the Childers building. The opening dance Saturday night will be an exceptional treat for the people of Medford with a variety of features added to the regular dance program. The Burton Sisters orchestra, well known entertainers in Portland, Eugene and Salem, will furnish the music for the dance.

The hall is being redecorated from ceiling to floor to represent a Japanese garden, an ideal Dreamland, and will be ready for the opening program Saturday, June 8th.

A false ceiling of all the colors of the Orient is being created out of fine streamers of paper run in hanging strands across the room. The stage, where the orchestra will perform, will be a small Japanese garden within itself, covered with exotic blossoms of many colors.

The light for the dance will come forth in subdued gleams of various colors from the many Japanese lanterns arranged about the hall. The entire pavilion will be a sea of colors, ranging from pastel tints to brilliant oranges and reds.

Several features of singing and dancing will be presented at various intervals throughout the dance by the girls in the orchestra, who have appeared in theater programs in all the leading cities in the northern part of the state.

A record crowd is expected to attend the opening night dance to be given under the new management. Mr. Burton has managed dances in Eugene and other northern cities for some time and comes to Medford as highly recommended for providing successful programs, as the orchestra for furnishing symphonies unparalleled in this locality.

Zuleima Temole No. 13, Daughters of the Nile, will meet in the Medford Masonic temple Saturday afternoon, June 8, at 2 o'clock. A luncheon will be served at Hotel Medford at 12:30.

## NEWLYWEDS HAVE A HECTIC TIME AT PICO

SAN BERNARDINO, Cal., June 7.—(AP)—Three trans-continental trains plus one honeymoon couple, were on their way east slightly behind schedule today, after two deputy sheriffs had spent a hectic two hours unscrambling vowels and consonants.

The deputies, looking for James Brewer, who they said was wanted on a non-support charge and a woman with whom he was supposed to be eloping, stopped the continental line of the Santa Fe at Pico Crossing, outside of Los Angeles. They found Mr. and Mrs. Finn Brunna, of Nome, Alaska, just married, and on their way to England for their wedding trip. By the time the honeymooners had demonstrated, by much wiggling of pencil on paper, that their name was "Brunna" and not "Brewer," the Continental's tail lights had faded down the track.

The officers started to rectify their mistake. They wired San Bernardino to hold the Chief, another trans-continental train. Arriving here by automobile, they put Mr. and Mrs. Brunna on it. The conductor put them off, explaining it was the wrong train. The Los Angeles Limited was halted. The deputies put the newlyweds on—the conductor put them off. Finally the Continental caught up with them. This time everybody was right. Mr. and Mrs. Brunna found their recently vacated Pullman section, the deputies found James Brewer, and the three trains proceeded.

**Gold Label Twill**  
stronger than any other fabric used in bib overalls

In actual bursting tests, sometimes called "explosion" tests, Gold Label Twill stands many more pounds pressure than other overall fabrics! The reason for the greater durability of Gold Label Twill is... it has 32 more threads per square inch. Great strength and resistance to grease, oil and dust are not the only advantages of Gold Label Twill Overalls. Pliability; less shrinkage; blue that deepens with washing. The white back of Gold Label Twill will not discolor underclothing.... These overalls give greater strength without uncomfortable bulky weight.
