Explain This, Please. Why Two Died. Make Your Money Work. Shoot Him Gently.

(Copyright by King Features Syndicate, Inc.)

Sometimes high finance is puzzling. Our government borrows money, a few days later Canada's National Railway Company, government owned and operated, mind you, borrows \$40,000,000 in New York on better terms than Uncle Sam can get it.

Is the Canadian National Railway's credit better than this government? How do our financial gentlemen, who say government is unfit to manage any business, explain this freak of nature?

Mrs. Barbara Wolsrath, 65 years old, killed herself, leaving this message: "I want my rest. Bury me in my blue dress."

Her \$175 she left to her daughters.

Not far away, Martin L. Bartlett, 24, killed himself in his Y. M. C. A. room. Disappointment in love was his trouble.

Poor Mrs. Wolsrath might have waited. "Rest" comes soon enough to us all.

And if young Mr. Bartlett had waited and looked about for a few weeks, he undoubtedly would have discovered consolation in pink stockings.

Suicide, always foolish, is something that can always be done. Doing it means an end to opportunity.

Will H. Latta, able lawyer, killed in an automobile accident, leaves \$50,000 to grow at compound interest for 200 years.

In 2127 this \$50,000 at compound interest would amount to \$160,000,000. And that sum Mr. Latta divides by will in various interesting way.

Our laws and customs won't permit such accumulations and postponed divisions.

But the will is valuable, reminding people that money creates money, and that, while they work for their money they should let their money work for them.

A comic opera star used to sing with an arch smile, "Shoot him gently, oh so gently," etc.

Prohibition enforcement has taken the hint, and prohibition agents must no longer use long range rifles on shooting expeditions.

TARIFF TO BE TEST OF STRENGTH

Hoover Facing New Difficulties In Securing Tariff Revision To Suit Views - Situation Similar To That Faced By Predecessor - Independents In Power.

By James L. West

Associated Press Staff Writer WASHINGTON, June 20.-(AP)—President Hoover has had his first experience in dealing with congress and found the going anything but easy during the first part of the special session he called to meet for budget and tariff revision legislation.

After much maneuvering and an open controversy with the senate, he got about the sort of farm aid measure he wanted, but just how close the tariff bill will come to his views remains for the future. The measure passed by the house is regarded by some of his friends as not being in accord with his ideas of either limited or necessary revision.

Both republican majorities in both houses were increased in the election which swept Mr. Hoover into the presidency, so found a situation on capitol hill very similar to that faced by his predecessor, with the republican independents of the senate able to wield the balance of power between the regular republicans and the democrats.

Early in the session it was found that the independents and the democrats were standing together for the export debarment plan on farm relief which the president denounced as dangerous to agriculture, but the bill surprised to many came when both Senator Borah of Idaho and Senator Brookhart of Iowa, came out for the debarment proposal.

These two senators were prominent in the campaign, stamping the agricultural west in behalf of Mr. Hoover and the republican party platform, which the president holds is interpreted in the administration farm relief measure.

President Hoover has made no public expression regarding the house tariff bill other than to refer inquirers to his message to congress at the opening of the session. In that he urged a limited revision in the industrial schedules to meet changed conditions since the present law was enacted, and a general revision of agricultural rates.

CHOLERA ADDED TO DISTRESS OF FLOOD VICTIMS

British India Plunged In Misery By Sudden Floods - Starvation and Epidemic Affects Large Number of Natives.

SYHLET, Assam, British India, June 20.-(AP)—Acute distress prevailed today through the Syhlet and Cachar districts where flood waters were rising two feet daily and communication with the tea gardens was cut off.

The suddenness of the floods created a panic among the villagers living along the riverside, they being forced to abandon their cattle and property and flee to the hills. The Dibrugarh valley was flooded and at Dibrugarh the trolley line was broken and a number of deaths were reported.

To add to the terrors of the flood cholera has broken out over an area of 3,500 square miles, populated by 1,750,000 people. Thousands were starving in Karimganj where an area of 1,984 square miles was affected and cholera was at its worst.

The resources of Syhlet were almost exhausted, with its women making house to house collections and even servants contributing. The relief committee operating from 18 centers needed as a minimum 100 lakhs rupees (about \$2,000,000) for relief.

NORTH PACIFIC BISHOP CANNON ONLY SPOT NOT PLAYED STOCKS SUFFERING HEAT AVER PAPERS

SEVEREST JUNE HEAT WAVE IN YEARS - Electric Storms In East Cause Deaths - Prospect of Relief Seen In Eastern Zone.

NEW YORK, June 20.-(AP)—From coast to coast virtually the entire country today continued in the grip of the most severe June heat wave in years.

In the east disastrous electrical storms that caused many deaths brought a drop of 20 degrees in temperature at some points but the mercury again began a steady climb.

On the Pacific coast, from San Francisco south, and in the mid-west, the highest temperatures for June in years was experienced.

In New York City the temperature rose to 92 degrees, the highest in the weather bureau's annals for the date, and bit relief was afforded in the late afternoon by a brief thunder shower.

The electrical storm was especially severe in Pennsylvania where lightning bolts killed four persons, put power lines out of commission and damaged barns and trees. Temperatures in the storm area dropped 10 to 20 degrees but after a few hours started to rise again.

At Reading the temperature dropped from 97 to 85 but in the next two hours climbed again to 94.

The temperature at Newark, N. J., rose to 94 degrees. In upper New York state the rainfall was so heavy that it washed out bridges near Dickinson Center, marooning a two-coach passenger train on the New York Central.

Prospect of an early end to the heat wave in the east was seen in reports from New England, where the descent of cool northeastern winds from the Grand Banks brought a slight break in the torrid weather. Nevertheless the temperature at Springfield and Lawrence, Mass., reached 90 by noon and schools were closed for the day.

At Boston the maximum was 86. Thinner showers in the mid-west failed to provide any adequate relief. Kansas City had a high temperature of 88; Cincinnati, 86; Milwaukee, 84, and Chicago, 80.

The Pacific coast, which escaped the heat earlier in the week, reported such temperatures as 98 in Los Angeles; 82.4 in San Diego and 84 in San Francisco. The heat wave extended into the northwest with 108 at Phoenix, 94 at Oklahoma City and 90 at Denver.

SEATTLE, Wash., June 20.-(AP)—In a big upset, Dr. O. E. SMITH FORCES LOSSES WHEN BROKER FIRM BANKRUPT - HAD PAPER PROFIT OF \$6,100.

NEW YORK, June 20.-(AP)—New York newspapers today printed lengthy accounts of dealings in stocks by Bishop James Cannon, Jr., of the Methodist Episcopal church, South, leader of the anti-Smith forces in the Democratic party and chairman of the Anti Saloon League legislative committee at Washington.

The transactions were with the now bankrupt brokerage firm of Kable & Co., the officers of which are under indictment for using the mails to defraud. The firm's books indicate that between August 14, 1927, and April 30, 1928, Bishop Cannon, with an investment of \$2,500 bought and sold stocks at prices running into five and six day figures. Had he closed his account before the firm's books were seized he would have made \$6100.

So far he has made nothing and is out his \$2500. The ledger shows purchases of \$188,254.92 and sales of \$205,000 in one month alone.

The World, which printed a fair share of the ledger sheet carrying the bishop's account, quoted the bishop as admitting the stock purchases but saying he believed he was buying stock for investment on the partial payment plan.

Disclosure of the bishop's stock dealings was made by Judson Campbell, attorney for Charles H. Cable, after United States Attorney Charles H. Tuttle had refused him access to the firm's books.

CLOTHIER SEEKS SHARE HICKMAN REWARD MONEY

LOS ANGELES, June 20.-(AP)—George Willoughby, Seattle haberdasher, secured an order from Superior Judge Arthur Keown today, to file suit in intervention in the pending action brought by Oregon police officers, Sheriff Tom Glasgow and Taxicab Officer Buck Gendelin of Pendleton, for a share of the \$2,000 reward offered for the capture of William Edward Hickman.

The defendant in the suit of the Oregon officers is radio station KMTZ, which he said he had sold and offered the reward. Willoughby declared he had sold Hickman a pair of gloves during the sensational flight of the convicted child slayer through the earth country, and accepted one of the marked \$20 bills in payment, which Hickman had accepted as ransom for 13-year-old Marian Parker, the murdered girl. Willoughby gave the alarm of Hickman's presence in that territory, the fleeing slayer was captured by Virginia and Litchell near Pendleton, he said.

Arthur Schreiber.

PARIS, June 20.-(AP)—Only one of the Yellow Bird fliers, Arno Lotti, Jr., accompanied Arthur Schreiber, who stowed away on the plane on its transatlantic flight, to the Levantine boat train today as he left Paris for the United States.

The stowaway seemed contrite and somewhat anxious. He shook hands with Lotti before the photographers and they kissed each other on both cheeks.

Schreiber said: "I am glad to go home, but I am sorry I can't go with a little different story." "I did a fool stunt and I am heartily sorry for it," he said. "The only consolation is I have found such a good friend in Lotti here, one of the men who suffered from my foolishness."

He was handed his ticket at the last minute. He wore a new striped blue suit with a gray fedora hat and carried a new suitcase in which was believed to be his evening clothes, ordered for him by M. Lotti, but never used.

OHIO STATE PROFESSOR QUIZZED FOR SIXTEEN HOURS - TOO BEFUZZLED TO TALK - ADMITS TAKING LOVE NEST KEY FROM BODY.

COLUMBUS, Ohio, June 20.-(AP)—Quizzed 16 hours by County Prosecutor John J. Cleaver, Jr., and police heads, Dr. James H. Snook was taken back to police headquarters today after a respite of about an hour.

John E. Seidel, one of Dr. Snook's two attorneys, was admitted to Dr. Snook's cell at the county jail, where the prisoner had been taken during an intermission of the questioning. After he talked to Snook he told newspaper men that Snook was "befuddled and unable to pronounce his words."

The weather was unseasonably cold last night and the two men apparently decided to close the windows of the cell and leave the motor running to obtain warmth. The poisonous fumes from the engine overcame them as they slept.

The McMillan brothers operate a trucking business in the city and are prominently identified with the logging industry. They had come to Klamath Falls to attend a carnival. About 3 a. m. they drove up to Burnett's auto camp ground and stopped. It is thought they intended to have a short sleep before starting out on the long drive to Bly.

SAY HELFLIN'S SON DIZZY FROM DRUG CAUSED ACCIDENT

WASHINGTON, June 20.-(AP)—Thomas Helflin Jr., son of Senator Helflin of Alabama, pleaded not guilty in police court today to a charge of driving an automobile while under the influence of drugs and was released under bond of \$1,000.

He was arrested on Pennsylvania avenue near Seventh street, about midway between the capitol and the White House, late yesterday after his automobile crashed into the rear of a laundry truck which had stopped for a traffic signal.

The patrolman who made the arrest alleged that Helflin apparently was unable to drive the automobile. He was taken to the traffic bureau and then to emergency hospital, where an examination by Dr. E. Gribovsky produced the information on which the charge against him was based. He remained in the hospital about three hours.

TOIL OVER TARIFF ACT IN RECESS

Senate Finance Committee To Work On Measure While Congress On Vacation - Prohibition Debate Precedes Adjournment - Senate Reviews Fight Over Farm Bill.

By FRANCIS M. STEPHENSON

Associated Press Staff Writer WASHINGTON, June 20.-(AP)—The senate finance committee stood guard in the heat of a Washington summer at the deserted capitol today to toil over the mass of figures involved in the pending tariff measure while the other members of congress enjoy a vacation.

For two months the committee will hear witnesses and work over the voluminous tariff measure passed by the house and then the senate will return—August 18—to begin consideration of this last recommendation of President Hoover remaining to be acted upon at the special session.

The recess was taken last night after a day of vigorous debate in the senate revolving principally about prohibitions and a few hours of discussion in the house over the administration proposal to postpone the maturity date of the \$400,000,000 French war supplies debt. That later was approved by both chambers before adjournment.

The senate prohibition debate binged on the resolution of Senator Jones, Republican, of Washington, proposing appointment of a joint congressional committee, as requested by President Hoover, to study the advisability of transferring the prohibition agencies to the department of justice.

The final hour of the session found the senate again reverting to its dispute with President Hoover over the export debarment farm relief plan. Senators Norris, Nebraska, and Johnson, California, leaders of the Republican independent group which supported the debarment proposal, assailed published stories which they said aspersions on the motives of Republicans opposing the president on that issue.

Will Rogers Says:

BEVERLY HILLS, Cal., June 20.—Some professor said, "Be high hat, be a snob, marry the boss's daughter and quit making a play for the stenographer." Everybody said he was all wet, but he was a right He figured, that "Students never took a professor's advice, so I will advise along lines I know they will take." If you do not think the old prof is right, count the poor single and the poor rich girls, and if you do not think graduates are "high hat" talk to a new one. They will pull a diploma on you quicker than a Cheagone can a machine gun. But as for the stenographer, she has all she can do to support herself, without feeding and clothing some college graduate. Bad as euffe girls, they got more sense than modern old age. Yours, WILL ROGERS.
