

## RETURN RUNAWAY TO GRANTS PASS

Wallace Woodard, 12, who spent Monday night, Tuesday and part of Wednesday at the home of Joe and Mrs. Daniels next to the court house, having been picked up on the highway near Rogue River by a deputy sheriff, and brought into Medford, left yesterday with his brother-in-law, F. R. Stewart of Grants Pass, to the home from which he ran away.

Wallace, whose mother is said to be in Los Angeles, and whom he claimed to have run away to find, told a story to local officials about having hiked here from Grants Pass. Questioned by Sheriff Jennings before his brother-in-law yesterday, the boy admitted having done this to keep from being returned to Grants Pass.

Mr. Stewart, who has been keeping Wallace while his mother recovered from a major operation in a Los Angeles hospital, said that he was a good boy. He explained the act as having been prompted by homesickness for his mother.

Myrtle Point-Roseburg highway improved by spreading coat of asphalt.

Rainfall Falls—Building permits totaled \$153,319 here for month of May.

## Chamber of Commerce Answers Inquiries of Home Seekers

Following is a partial list of inquiries received and answered recently by the Medford Chamber of Commerce:

Y. R. Slinger, Lywood, Cal., box 185: Would like to trade his place in Lywood for small ranch in the Rogue River valley.

Mrs. W. M. Lisbee, 1728 Ralph street, Rosemead, Cal. Considering trading their property for small tract near Medford.

Vernon L. Axtell, route 10, box 461, Sacramento, Cal. Expects to spend his vacation in Oregon and at same time look for new location.

W. H. Panera, 51 Pico avenue, Hermosa Beach, Cal. Is interested as he "has heard so many good stories about Oregon, especially Medford."

Charles Root, route 3, Colville, Wash. Is interested in general farming; Vern Geiges, box 544, Sayre, Okla. would like about 160 acres, reasonably priced, suitable for stock, sheep and poultry; would not object to a place having only 30 to 40 acres suitable for agricultural purposes if remaining land were good pasture. Is coming to Oregon soon.

Mary Dudley, route 13, box 359, Seattle, Wash. Advises that Medford has been recommended as a nice city in which to live; is interested in business opportunities here.

Carl Hillier, Grand Junction, Colo. Hopes to come west soon and expects to locate in southern Oregon.

S. H. Wilcox, St. Croix Falls, Wis. Hopes to come west soon and hopes to locate in southern Oregon.

R. E. Shoop, 411 West Camille street, Santa Ana, Cal. Is interested in securing a dry cleaning plant in southern Oregon.

Joseph Bellezza, box 693, Gilroy, Cal. Would like to rent a small farm, preferably a wheat farm; is from Montana.

Irene Warren, 5918 Compton avenue, Los Angeles, Cal. Has property worth \$3500 which they would like to exchange for 20 to 40 acres with house, barn, and near school on highway or good road.

Miss Clara Bligs, Moscow, Idaho. Would like small four or five-acre tract, reasonably priced, with house having modern improvements; wants something suitable for truck gardening.

Mrs. Fred Bates, 4149 47th avenue, Seattle, Wash. Coming to southern Oregon this fall, together with five other families who are interested in locating here. Would like about 20 acres, improved to a certain extent.

H. R. Steinbach, 1518, 17th street, Sacramento, Cal. Interested in buying a small 10 or 12-acre ranch with house and equipment with modern conditions—ranch suitable for dairying.

L. Little, care L. Bellinger, Le Molle, Neb. Hopes to locate in the Rogue River valley; would be interested in small ranch reasonably priced.

S. F. Anderson, 1530 West Jackson street, Phoenix, Ariz. Interested in small farm near city, priced reasonably.

John W. Baker, Pekin, Ind., and Frank Umburn, 2245 West Monroe street, Phoenix, Ariz. Would like to secure about 100 acres brush or timber land with natural streams and springs, suitable for a game refuge; property must be of low tax value.

Gen. Chenoweth, Roberts, Mont. Wishes to trade a very good ranch near Roberts for Medford property.

Louis Kabell, Jr., 1112 Capitol street, Ogden, Utah.

Mrs. Lester C. Ormes, 310 Placer street, Cripple Creek, Colo. "Looking for an ideal spot to make our future home—and think Medford is the place." Interested in one to five-acre tracts near city.

Mrs. E. L. Perry, Lomita, Cal. "We want about 20 acres for poultry. A place where there are trees and streams—and some kind of a house on property."

Sam G. Price, 15419 Valerio street, Van Nuys, Cal. Mr. Price is planning on spending a month touring and at the same time looking for a small ranch suitable for poultry business—"with hunting and fishing near by." Expects to leave Van Nuys July 11.

James G. McLaughlin, 1201 Lincoln Way East, Mishawaka, Ind.

R. W. Roberts, Empire Auto Shop, Twin Falls, Idaho. Would like to secure an auto park or garage in good location in southern Oregon.

W. M. Price, route 3, Wamego, Kas. "I am a farmer and am interested in western Oregon, especially that section between Medford and Salem."

A. R. Mitchell, 119 College avenue, Waterville, Maine. Interested in city property.

B. H. Moore, general delivery, Bowie, Texas. Would like a small ranch suitable for poultry and dairying, where could expect reasonable terms on his investment.

M. E. Kroeger, 2714 Lamoine, Omaha, Neb. Heard about Medford through radio program broadcast over KOIL, Council Bluffs, Ia., through the courtesy of Mono Motor Oil Co., for the Medford Chamber of Commerce. Is interested in locating on the Pacific coast and is especially interested in the soda water manufacturing and bottling game.

Mrs. Louis Wiehl, route 1, 2304½ Roosevelt avenue, Bend, Ore. Is planning a vacation trip through this section with a view to locating a site for a camp ground and service station; prefer natural wooded site along main traveled highway.

W. R. Rasmussen, Mabton, Wash. Looking for a second-hand store; has cash to handle a good proposition.

H. S. Patten, Concrete, Wash. Interested in Rogue River valley; would like a small farm, modern improvements.

Mrs. H. D. Davis, star route 1, box 96, Wreop, Ariz. Would like small ranch suitable for dairying and poultry raising.

C. Curry, Tulare, Cal.

Glenn Fuller, Lancaster, Cal. Interested in farming; might consider unimproved land if it is good rich soil.

C. W. Olsen, Wineville, Cal. Would like to trade small ranch near Wineville for Rogue River valley property.

Mrs. Alfred D. Cooper, route 10, box 2523, Sacramento, Cal. Would like to get a few acres close to town.

C. C. Van Corman, Delano, Cal. Asks about possibility of acquiring a weekly newspaper in southern Oregon.

Herbert Smith, Philomath, Ore. Would like to exchange his farm for Medford property.

# SCIENCE LEARNS CAUSE OF MOST HUMAN ILLS

Recent Discoveries by Medical Science Prove Conclusively that Constipation—Indigestion—Dyspepsia—Biliousness—Hyperacidity—Auto-Intoxication—Disturbed Heart Action—Overloading of Kidneys with Consequent Excess of Uric Acid in the Blood—Headaches—Nervousness—Sleeplessness—Mental Depression—Dizziness—Bad Breath—Coated Tongue—Sallow Complexion—Sluggishness—Sour Stomach—Loss of Weight—Loss of Vitality—Loss of Appetite—Rheumatic Pains Due to Toxic Poisoning—and Mental and Physical Inefficiency Can be Traced, in most Cases to One of Three Things, a Sluggish Liver, Impoverished Blood or Improper Glandular Activity.

If These Vital Organs and Fluids Are Not Performing Their Proper Functions—Sickness—Suffering and Ill Health are the Inevitable Results.

The commonest and greatest curse of any of these is constipation. It is man's greatest enemy. It poisons him, slows him up mentally and physically, breaks down youthful strength and vigor, ages him prematurely, and leaves him an easy victim to the attack of almost countless diseases.

EVER since the dawn of civilization, mankind has been searching for drugs and medicines that would give relief from these common ills.

Two thousand years ago, Hippocrates, history's first physician, was trying to cure constipation by using purgatives. And until recently, millions of people throughout the civilized world have been trying to do the same thing—with the same lack of success that Hippocrates had.

Purgatives and laxative drugs have never cured constipation—and never will.

Within the past few years Medical Science has made some amazing discoveries—discoveries that will have a far-reaching effect upon the health and well-being of mankind. These discoveries absolutely disprove many of the beliefs, practices and theories that we have known for a life-time.

For centuries we have believed that bile was a harmful, nauseating substance that made us sick, or bilious. Medical science has now proven conclusively that bile is in reality and in fact, a veritable health-giving and life-sustaining fluid with many all-important functions—and that biliousness is not due to too much bile, but to a lack of it.

In attempting to stimulate the liver and increase the bile flow, Calomel is the drug that has been most widely used throughout the world for many years. And now science has proven that this poisonous, nauseating chemical has no action whatever on the liver or bile flow and that it confines its action to the intestinal tract. It is a purgative and nothing else.

Here is what an eminent authority has to say about Calomel: "Contrary to the belief adhered to for many years, calomel has no action on the liver or bile flow. This belief existed and was based on the color of the stools after the administration of calomel. It has, however, been thoroughly demonstrated that the characteristic greenish stools are colored by the calomel itself, and does not indicate the presence of bile.

Calomel is a mercury compound which exerts a cathartic action through the irritating effects of small quantities of mercury which are liberated from it. Large doses of calomel probably favor bacterial increase by lessening intestinal resistance. It is not suited to long use because of its systemic action.

Having made this discovery, scientists then began a world-wide search for something that would stimulate and invigorate a sluggish liver to action.

This search has been rewarded. They have found a substance which, according to the highest authorities, is the most powerful stimulant to the secretory, or bile-producing, activity of the liver known to materia medica.

Unlike Calomel, it does not shock or upset the system, cause nausea or any other ill effects so common to calomel. On the other hand, it is designed to stimulate a sluggish liver to the normal production of bile demanded by Nature for good health.

Neither is this substance in any sense of the word a purgative. It is a liver tonic and does its work by the simple method of causing the liver to secrete and deliver into the gastro-intestinal tract a normal flow of bile—which is a more natural and effective laxative than can ever be devised by man.

This amazing substance is one of the principal ingredients in Sargon, the new and revolutionary formula which is lifting tens of thousands out of the throes of ill health, dependency and inefficiency into vigorous, exuberant health.

This amazing substance, which does the one thing that calomel was supposed to do—that is, stimulate the liver and increase the flow of bile—without purging or upsetting the system, is contained in greater concentration in Sargon Soft Mass Pills, which are a necessary and integral part of the Sargon treatment.

Another great discovery that has been made by medical science is the astounding fact that there is no drug or medicine which is an effective "blood purifier." Although millions upon millions of dollars have been spent for drugs and medicines in the belief that they were effective "blood purifiers."

One of the three basic ingredients contained in Sargon is designed to build up the vigor and richness of the blood stream by aiding Nature to increase the amount of haemoglobin which the red blood corpuscles contain and thus enable the blood to purify itself.

Sargon is also designed to stimulate the secretions of the glandular system which forms a network throughout the body. It is now recognized that our outlook on life is largely governed by the chemicals which these glands secrete and pour into our blood.

In other words, gland secretions make us either alert and ambitious or dull and depressed.

The efficiency of every cell of the body is apparently either directly, or indirectly, supervised by the secretions of these glands.

Sargon also contains other ingredients of recognized therapeutic value which impart tone and strength to the entire system and are valuable for their influence upon the appetite, digestion and assimilation.

Sargon is fulfilling its great mission. It's doing it in a new and revolutionary way—the way that the men of science who labored for years to perfect this new epoch-making formula intended it to be done.

From all sections of the country where Sargon is available, reports are pouring in to leading druggists telling of the amazing powers of this new and epoch-making formula. This mass of evidence verifies the claim of science that good health is largely maintained by the three vital organs and fluids of the body which are stimulated and invigorated by the basic elements contained in Sargon.

Sargon can now be obtained in Medford from the Magill Drug Co.

a gun in a Long Island church, and had to walk him several miles to a lockup.

Reporting is easier in these days.

The President seeks eight "big men" to put on the farm board.

The big eight and the secretary of the treasury will administer the funds for farm relief, spending the people's money as intelligently as they know how.

How can you tell "a big man" when you see him, and how can you be sure that your big man understands farm problems?

It would be interesting to put the eight big men, after they are chosen, in charge of some typical American farm to see what they would make of it.

Helen Wills, California's star, won her match Tuesday, beating her British opponent, 6-9, 6-0.

The important thing for the British, who are accustomed to being beaten by Helen Wills, is the fact that she wore stockings. She does not usually wear them.

The British dislike the idea of bare legs at Wimbledon, possibly because the king and Queen Mary often attend the games, and they are old fashioned.

Organized labor, with Ramsay MacDonald ruling, took charge of the British empire in the house of commons Tuesday.

Lacking a clear majority, MacDonald can be defeated at any time by Lloyd George and his liberals uniting with the Tories, or the Tories with the liberals.

The British wait to see what good reason or pretext will bring liberalism and Toryism against labor.

The first and a most important announcement, says MacDonald proposes to recognize the Russian government and do business with Russia.

That will please a good many Tories that believe in doing business, as Lord Beaverbrook puts it, "even with cannibals."

War develops heroism, heavy debts and other things.

In Paris, Dr. Gaston Prieur and five assistants are sent to jail for a new crime.

They inflicted upon patients wounds that left conspicuous scars looking like war wounds, thus, for

## Bad Legs

Do Your Feet and Ankles Swell and Inflammation Get So Sore You Can Hardly Walk?

Have You Varicose or Swollen Veins and Bunches Near Ankle or Knee?

To stop the misery, pain and soreness, help reduce dangerous swollen veins and strengthen the legs, use Moore's Eminent Oil. This clean, powerful penetrating yet safe antiseptic healing oil is obtainable at Health's Drug Store and all first-class drug stores.

In hundreds of cases, Moore's Eminent Oil has given blessed relief. Wonderful for Ulcers, Old Sores, Broken Veins and Troublesome Cases of Eczema.
