DRY SOLON GOT A KICK HE REPORTS

St. Louis Paper Quotes Letter of Senator Gould to Vineyard Company—'Got Some Very Fair Results' With Unfermented Juice—Supposed to Be Dry, But Far From It.

ST. LOUIS, June 28.—(P)—The St. Louis Post-Dispatch says today that a letter written by United States Senator Arthur R. Gould of Maine, an avowed dry, to the Fresno Vineyards company, of St. Louis, in which the senator reported that by following instructions he "got some very fair results" with the company's unfermented grape juice, was brought into federal court today to be offered in evidence in a \$100,000 damage suit.

The newspaper says that Ray Weinbrenner, attorney for the Colony company, brought in the letter along with a sheet of others from customers to be introduced in evidence to refute the claims of the West Coast Vineyards company of Cincinnati, which alleges breach of contract on the grounds that the products distributed by the Colony company in many cases spoiled in the hands of customers.

The newspaper published the text of the letter purported to have been written by the senator May 11, 1927, concerning his purchase of some of the company's goods, and states that Senator Gould in a telephone conversation today from Presque Isle, Me., "vaguely recalled" writing the letter.

The letter states that the writer followed the company's written instructions and "got some very fair results" and that "three gallons in each keg" is "improving every month."

"As you know," the letter continues, "I come from a prohibition state and I am supposed to be a prohibitionist, but I am about as loyal to the prohibition element as some of these southern democrats are to the democratic party. While I am from a prohibition state and find it not policy to be too outspoken as to my sentiments, I don't mind telling you and the world that I believe a license for light wines and beer would be a great improvement over the present prohibition law."

WASHINGTON, June 28.—(AP)—The manufacture of wine from grape juice is a violation of the prohibition law and is subject to the same penalty as any other illegal manufacture of intoxicating liquor, in the opinion of Prohibition Commissioner Doyne, expressed after he had been informed today of the letter of Senator Gould of Maine to a St. Louis grape juice company.

Under Influence
TRENTON, N. J.—(AP)—For operating an automobile while he was under the influence of snuff, John W. Horton of Newark has lost his license.

J. BUCHTER AND BROMLEY STEP TO HIGHER POST

Well Known Copco Men Promoted By New General Manager, C. M. Brewer—Will Continue Residence in Medford, Is Report.

The many friends of J. J. Buchter and H. L. Bromley, well-known members of the Copco organization, will be glad to hear of recent promotions which will give them a greatly enlarged scope of activity. C. M. Brewer, vice president and general manager of The California Oregon Power Company and the Mountain States Power Company, has announced the appointment of J. J. Buchter as merchandise manager and H. L. Bromley as advertising manager of both the above properties. Mr. Brewer also announces the appointment of Glen L. Jackson of the Mountain States Company as sales manager for both companies. The combination of sales, merchandise and advertising activities of the two Hyllsby companies will effect a number of economies which should prove a decided benefit in future operations of both properties.

Messrs. Buchter and Bromley are veteran employees of the local company and news of their advancement will be welcomed by their many "partners in progress" as well as a large circle of friends throughout this territory.

J. J. Buchter first entered the employ of the company in February, 1912, taking a position as cashier of the Rogue River division. He later became division accountant, a position which he held for several years, after which he took a responsible position in the home office commercial department. When the company entered the electric merchandise field in November, 1926, he was placed in charge of the Copco electric appliance stores throughout the system. Under his supervision merchandise activities have increased until the California Oregon Power company now operates a total of eight retail electric stores in southern Oregon and northern California. These stores are conceded to be among the most modern and up-to-date retail electric establishments in this territory and are a distinct credit to the communities in which they are located.

H. L. Bromley joined the Copco organization after his discharge from the army in 1918, taking a position in the accounting department of the Rogue River division under J. J. Buchter. He was later promoted to the position of cashier and in 1923 went to Grants Pass as district manager. In 1924 he returned to the home office in Medford to take charge of preferred stock sales and advertising as assistant to Fred G. Phelps, secretary. In 1927 he became advertising manager for the company, the position which he now holds. His new duties will give him supervision over all advertising activities of the two companies, including regular weekly insertions in more than 100 newspapers.

The operations of the California Oregon Power company and the Mountain States Power company cover seven states, including California, Oregon, Washington, Idaho, Montana, Wyoming and South Dakota.

It is reported that Messrs. Buchter and Bromley will not have to leave Medford to take care of their new duties but will continue to make their headquarters at the Copco general offices in this city. This will be good news to Medford people as both of the Copco men have been most active in local civic affairs. Mr. Buchter is a past exalted ruler of the Elks past commander of the Spanish-American War veterans, first "Big Eruption" of the Craters club and is now a member of the city council; while Mr. Bromley is a past commander of the American Legion, present "Big Eruption" of the Craters club and active in Chamber of Commerce and Rotary club work.

STEVENS ENGAGED AS NORMAL INSTRUCTOR

James Stevens, well known local teacher, has been engaged by the music department of the Southern Oregon Normal as an instructor during the summer school session. Mr. Stevens, who gave a home coming song recital before a crowded house at the St. Mark's Guild Hall, June 18, and has opened a studio at 115 North Oakdale since his return to Medford, consented to hold classes at the normal school once a week for the remainder of summer school. These will come on Friday afternoon, when he will conduct a group course in vocal work, and give private lessons to a few students, who wish individual help. College credit will be given for his course.

Month's Trial Helped Her

"I started taking Lydia E. Pinkham's Vegetable Compound when I was 14 years old to build me up. I had been frail and nervous. After taking three bottles I was in normal condition. Since then I occasionally have a run-down feeling which makes me weak, nervous and irritable. By taking two or three bottles of the Compound I am back to normal."—Mrs. Jerry C. Jarvis, R. F. D. No. 1, Palmer, Me.
