The cherry fruit fly will destroy this year's light cherry crop in this part of the state unless spraying is done immediately, according to S. B. Hall, county agent. It is time now to apply the poisoned sweet bait to kill the cherry fruit fly before it begins depositing its eggs under the skin of the cherries. Growers in the last three years have got almost complete control with the following spray: Lead arsenate, 1 pound; molasses or syrup (never honey), 2 quarts; water, 10 gallons. About one quart of this mixture should be sprinkled over the outside leaves of a large cherry tree.—Oregonian.

75 FAMILIES OF MIDWEST SETTLE ON OREGON SOIL

PORTLAND, Ore., July 2.—(AP)—Seventy-five families from midwestern states were settled during June on farms throughout the state by the land settlement department of the Oregon State Chamber of Commerce, according to a report issued today.

The report indicates that families are coming to Oregon in much larger numbers than last year.

In June, 1928, the farm settlement department of the state chamber settled only 59 families. During the first half of last year 181 families have been located in Oregon and during the first few months of this year 307 families have become residents of the state.

An investment of $1,122,725 was brought in to the estate, according to the report, against $633,760 invested by those who came during the first six months of 1928. As represented in acreage, 17,903 were purchased this year against 11,404 during the same period last year.

Obituary

RAY—The funeral services for Enola Ruth Ray were held at the Perl funeral home Sunday, June 30. Dr. E. P. Lawrence delivered a splendid service, and Mrs. R. E.
