

MODERATION BY YOUNG LADIES IN ALL THINGS

Length of Dress, Drinking and Cigarettes Problems They Must Solve In Their Own Way, Catholic Socialities Told — Smoking Held as Passing Fad.

CHICAGO, July 6.—(AP)—The Rev. Gerald Fitzgibbons, director of the Catholic Women's societies, told the convention of that organization today that questions of length of dresses and smoking or drinking by women were problems young women were best able to solve.

The remarks were made in connection with the discussion of those problems. The principles agreed upon at the discussions will be embodied in resolutions for the convention to act on tomorrow.

"We do not believe, however, in excess in any form, whether in apparel or public drinking. "With proper education on the subject of dress we feel the young women can guide their own decision and still be in style. Drink has been a pitfall for many a poor misguided girl. Flash carrying, public drinking, road house parties and speakeasies, we definitely frown upon, and discussions among girls' groups support us in this stand.

The church and the socialities believe smoking cigarettes by women breaks down the feminine reserve so vital to women. We feel cigarette smoking by women is but a fad which will pass," he said.

LONG SEARCH FOR POISON PEN ENDS

SEATTLE, July 6.—(AP)—M. Uchiyama, elderly Japanese chemist and alleged "poison pen" artist, will face charges of threatening the life of President Hoover on July 12, in a hearing before U. S. Commissioner A. C. Bowman.

Uchiyama was being held today under \$10,000 bail. A search by federal operatives, lasting more than seven years, for the mysterious "writer of threats to the past three presidents of the United States and high Japanese officials, was believed ended with Uchiyama's arrest.

ELKS PLAN JUNIOR ORDER AND HUGE WELFARE FUNDS

LOS ANGELES, July 6.—(AP)—Led by Murray Hulbert, grand exalted ruler, the vanguard of 120,000 Elks expected here for the opening of the sixty-fifth annual convention Monday poured into Los Angeles today.

Streets and buildings were a mass of purple and white, the Elks colors, and art decorations were to be seen on every hand. Arriving with Hulbert was Col. Walter P. Andrews of Atlanta, Georgia, who will be elected to the office of grand exalted ruler at the first business session of the grand lodge Monday.

In a press conference shortly after his arrival, Hulbert outlined the principal matters which will be laid before the lodge during the week. Two of the most important were possible legislation for the establishment of a junior order and organization of a national welfare fund.

"We hope to pave the way for the foundation of an order for young men between the ages of 15 and 21," Hulbert said. "This probably will be known as the 'Antlers.' Applications from forty lodges for permits to establish a junior order as soon as legislation is enacted have been received.

"We also have under consideration a proposition to offer the Grand lodge whereby a \$20,000,000 welfare fund may be built up. Under the present plan, we would ask 1,000 lodges each to subscribe \$10,000 and 1,000 members to form an additional \$1,000 each, forming an initial fund of \$2,000,000.

The revenue from this fund we hope will eventually build up to \$20,000,000. Charitable enterprises of all lodges would be aided by it.

A third proposition, Hulbert said, is a plan to limit the size of lodges, each lodge setting an arbitrary maximum membership. The Elks, with members in the United States and its possessions has 1454 lodges with a total membership of more than 800,000. Election of officers of the Grand lodge and selection of a convention city will be made Monday.

Hobi School Staff Cooperate With U. O.

The new course groupings for students who wish to take up aviation are proving popular at the University of Oregon. Arrangements have been made whereby students may enroll in the school of business administration at the university, take such subjects as will aid them in their chosen field, and at the same time learn flying at the Hobi Airways school, one of the best flying schools in the Northwest. Above is the staff of the flying school. Left (right): B. H. Hobi, president of the school; S. S. Smith, mechanic; Esther Taylor, accountant; Phil Oberg, instructor in mechanics; and E. C. McElwood, flight instructor.

HOOVERS ESCAPE WASHINGTON HEAT ON FISHING JAUNT

MADISON, Va., July 6.—(AP)—President and Mrs. Hoover and their guests at the executive's fishing preserve in the Blue Ridge mountains, near here, rested quietly today, the second of their three days' sojourn from the capital's high temperatures.

The president maintained telephonic communication with the White House, which was told he had not enjoyed his favorite sport, fishing, as the trout season closed July 1.

With Mr. and Mrs. Hoover were their son, Herbert Jr., Dr. Vernon Kellogg of the national research council and Mark Sullivan and William Hard, newspaper men. The party planned to return to Washington late tomorrow.

KANSAS CITY, July 6.—(AP)—The youth of America in high schools are getting over their jazy views of life and are doing more serious thinking than some of their parents, the Rev. Frank D. Getty, of Philadelphia today told delegates attending the international convention of Christian Endeavor.
