

### NAME DELEGATES LEGION CONCLAVE IN POST MEETING

Seven delegates and seven alternates to the American Legion state convention to be held August 8, 9, and 10 at Salem, were elected at the meeting of the local post at the armory last night. The delegates are to be: Newton C. Chaney, Seelye Hall, John Holmer, E. C. Ferguson, Horace Bromley, Harry Moore, Leon Brown. Alternates are: Paul McDonald, Lee Garlock, C. T. Baker, Ed Leach, Ed Webber, George Colding, Dr. Bunch and Fred Scheffel.

Plans were also discussed for the big public auction to be held on the lot opposite the present police station on July 20. The purpose of this sale is to raise money to send the delegates and the drum corps to the convention. Anyone who has anything to donate, is asked to call Lee Garlock, 312.

A meeting of the Southern Oregon district of American Legion posts will be held here July 11, for the purpose of forming an American Legion council. Members from the Grants Pass, Kerby, Ashland and Medford posts will attend the meeting.

**"Jungle" Victim.** WALLA WALLA, Wash., July 9.—(AP)—Victim of what police believe to have been a "jungle murder," the body of a man thought to be that of H. Engstrom, itinerant, was found near Mill creek. A bullet through the head caused death.

### PUBLIC EAGER TO OBTAIN A SUPPLY NEW GREENBACKS

The new size paper money of the United States government will be placed in circulation tomorrow, and Medford banks have received an allotment of approximately \$20,000. It is in denominations of from \$1 to \$50. The government printing plants are behind with their work, so the \$20,000 will be all that is available during the current month. Each bank, under the rules of the federal reserve is allotted \$4 of the new currency for every \$1000 of its resources.

The new money is well-laundered, and crackles with a slightly louder crackle than the old. The bills are as crisp as a lettuce leaf at sunrise. They are slightly smaller than the old style, which makes them easier to fold which will be a great help.

As fast as the new bills can be printed, they will be placed in circulation, an even distribution being the objective of the treasury department.

Local bankers report a keen interest in the new money, but no more than there was in the old, and did not expect the supply to equal the demand.

### Radio Program KMED

Mail Tribune-Virgin Station  
Tuesday  
8 to 8:15—Lis Theatre.  
6:15 to 6:30—Mail Tribune, news and markets.

6:30 to 7:00—Crescent Dairy.

**Monkey Likes Drop**  
NEW YORK, July 9.—(AP)—Paul DeLever, parachute jumper, maintains his pet monkey enjoys a drop with him and whistles and chatters all the way. But the society with the long name disagrees with him. At its protest, Saul has canceled plans to drop from a plane with his pet at Roosevelt field.

### FRUIT INSPECTOR TRANSFERRED TO DUTY AT EUGENE

Roy Hughes, inspector for the Mediterranean fruit fly, left for Eugene on the Snahta today, where he has been transferred. Frank Kylvester, who has been stationed at Eugene will take Mr. Hughes' place here. Friends who were at the depot to see him off included Woody Archer, "Dutch" Hilsman, Jack Osborn and Jean Millard.

The Mediterranean fruit fly, first discovered in Florida in May, has destroyed much of the citrus fruit there and an effort is being made by the California state agriculture department and the U. S. department of agriculture, who are cooperating in the matter, to keep the fly out of California, according to Mr. Hughes. Eighty percent of the lemons and 60 percent of the oranges in the United States are grown in California, he said, and if the fly gained a foothold there the results would be serious. Congress has appropriated \$4,000,000 to fight the pest. The fly has not been found in California. "The passengers' baggage is inspected on all trains entering California and all of the fruit they may have is taken from them. Mr. Hughes, who has been here three weeks, said there would be an inspector stationed here until Oct. 1.

**Madras**—Extensive improvements under way on Commercial hotel practically completed.

### HORSE PENSIONER IS PROBLEM FOR PERRYDALE AREA

Residents of the Perrydale district are considering ways and means to dispose of a 32-year-old sorrel horse, formerly owned by Oliver Harbaugh, former well known Jacksonville pioneer. The horse has been loose for a week, browsing around J. A. Perry's front yard, eating a geranium occasionally. His worst habit is standing in the middle of the Jacksonville highway, meditating on an honorable past, while autos go whizzing by. It is feared that some day he will get out of the road in time. His mate last summer failed to dodge a logging truck.

J. B. Bennett of Jacksonville, Sunday night rounded up the horse and put him in a pasture. He is guardian of the animal. He informed Mr. Perry Monday afternoon that the horse would be kept penned up.

The horse has been on a pension for 15 years, and has not had a harness on in that time. In summer he eats the greenest grass, and in the winter chews the choicest hay and oats. He was one of a prancing span that Oliver Harbaugh used to drive, and frequently ran away. He figured in Jacksonville's last runaway, which terminated in the courthouse yard. Many years of ease and high living caused him to get frisky in the cool of the evening despite 32 years of life. He looks as young as he ever did, but can't pull as much. Mr. Bennett said he would probably send the venerable equine to some mountain ranch, where he will get plenty of fresh air and lots of hay, and not be apt to get in the road of autos.

It was suggested that the horse be shot at sunrise, but Mr. Bennett was quite certain nothing like that would happen.

## Colored All-Silk Jap Pongee

Copen . . . Rose . . . Orchid . . . Jade . . . Coral . . . Mais

Imagine! The same quality all silk Jap pongee that you know in natural color . . . now in a range of lovely summer shades. 33 inches wide. Yard

# 49c

Our buyers have searched the market for this ideal summer fabric . . . and we pass the savings of quantity buying on to you! 12 momme quality.

One naturally thinks of exquisite women when the picturesque city of Budapest is mentioned. So many lovely women of our own stage and screen came originally from this Hungarian city on the banks of the Beautiful Blue Danube.

# "It is a mistake to use any other soap!"

says **ECHTEN** of Budapest

Beauty specialist to the leading actresses and opera singers of The Royal Opera House

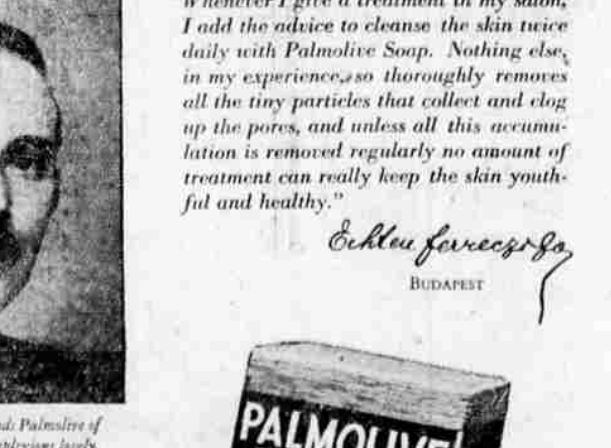

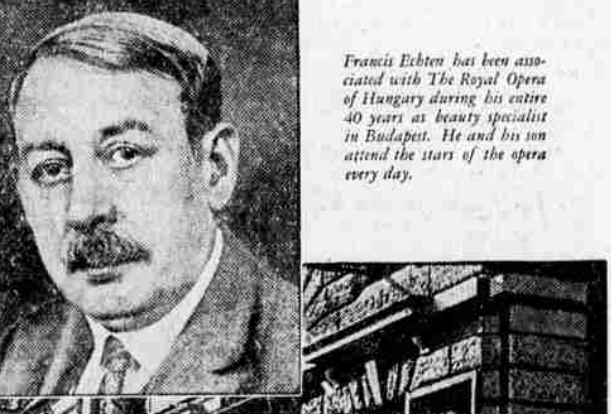

**WHENEVER** I give a treatment in my salon, says Francis Echten, of Budapest, "I add the advice to cleanse the skin twice daily with Palmolive Soap!"

The advice is particularly interesting because both Echten and his son are distinguished in coiffure and complexion care. Francis Echten holds a diploma as Professor of Beautifying, Hungary; Akademie de Damenficier Kunst, Vienna; Etablissement Chabrier, Paris. He has won three awards in competitions, two medals of gold and one of silver.

**All European experts agree** Throughout Middle Europe and the Continent, beauty specialists are unanimous in their recommendation of Palmolive Soap. And in America more than 15,000 experts tell their patrons to follow the same advice: massage a bland, creamy lather of Palmolive Soap into the pores for two minutes. Rinse, first with warm water, then with cold. Occasionally, an ice facial is refreshing. Now—and not before—apply your make-up.

Try this simple treatment this evening. Use Palmolive for your bath too. Then wonder why you ever used any other, since this costs no more than ordinary soap.

# PALMOLIVE SOAP

"Whenever I give a treatment in my salon, I add the advice to cleanse the skin twice daily with Palmolive Soap. Nothing else, in my experience, so thoroughly removes all the tiny particles that collect and clog up the pores, and unless all this accumulation is removed regularly no amount of treatment can really keep the skin youthful and healthy."

### KNOX PASSES EXAM PUBLIC ACCOUNTANT

Leland J. Knox, accountant, and commercial instructor at the local high school, received a letter from the state board of accountants, saying that he was successful in passing the examination for certified public accountant, which he took in Portland last May.

Mr. Knox has the honor of being the second person in Oregon who has ever passed the examination the first time he took it. The examinations are given in 38 states and are prepared by the American Institute of Accounting.

### SEVEN SMALL FIRES ARE UNDER CONTROL

Seven small fires were reported by the U. S. forest service yesterday. Three were near Central Point, one was at Emigrant Creek dam, one at Sams Valley, one at Reese Creek and one on Kings creek. The fires, none of which were serious, are all under control and did little or no damage. The hot weather and low humidity is likely to cause more serious fires now, said Mr. Scott of the forest service.

### WANT ANY GRASSHOPPERS?

A Lancaster, Texas, Herald, advertising man made a bet with a merchant, who was skeptical about advertising, that if he would insert a one-inch advertisement in an inconspicuous corner of his paper offering a prize to the boy who brought the most grasshoppers to his office on a certain day the office would be swamped with grasshoppers. The publisher said the advertisement was inserted and that before daylight boys swarmed around the newspaper office. Before the sun sank, he related, there were enough grasshoppers in the office to stink a barbershop. That merchant is one of the best advertisers the paper now has.

### Births

Born July 4, to Mr. and Mrs. Stanley Spinder of 418 Haven street, a seven pound girl.  
Born July 2, to Mr. and Mrs. Victor Smith, of 1818 Genesee street, a seven and one-half pound boy.

Born to Mr. and Mrs. James Kresland, of Central Point, a seven and one-fourth pound girl.  
Born July 8, to Mr. and Mrs. Mergel Gay of Antelope Orchard an eight and one-half pound girl.  
Seaside.—Vitaphone equipment at Strand theater improved.

### CHERRY PACK ENGAGES ROGUE CANNERY CREW

The Royal Anne cherry pack is in full swing at the Rogue River Valley cannery now, and they are packing from four to six tons of cherries a day. The short crop, caused by the frost this year, will result in a smaller cherry pack than last year. About 100 persons are employed at the cannery at the present time, but many more could obtain work there if the cherries were available. Both beefs and beans will follow the cherries. There will be no peach or apricot pack this year as they were practically all frozen, according to information received.

### RADIO PLAY TONIGHT MAINLY ABOUT BRIDES

Seeing the bride of course is one thing—hearing her is another. Medford radio listeners who tune in on KMED, the Mail Tribune-Virgin station, at 9 o'clock tonight will get all the necessary "low down" on "The Bride," a two-act radio playlet, as presented by the Copco Players.

### TELEPHONE SERVICE ON CASCADE TRAINS

F. S. McGinnis, traffic manager for the Southern Pacific, has just announced the installation of inter-car telephone service, recently developed and perfected by experiments, on the Cascade, the S. P.'s fast train between Portland and San Francisco. A telephone instrument of the hand set type now commonly used in Europe, will be put in each car and connections run to the dinner club, and observation car.

With the new service passengers will be able to telephone and see if seats are available in the dinner club, have refreshments sent to them, call the mail, summon train officials and will save their time and steps in many other ways. A combination dial and push button system gives the passengers quick connections with the ease of the home installation.

Telephones on trains at terminals, where connections are made with the telephone companies' lines, have been in use for some time, but this is the first time that they have ever been installed on moving trains.
