THE NEW DOLLAR BILL

Here's the exact size of the new dollar bill. It's only 6 1/8 inches wide by 2 5/8 inches deep, but it still buys as much, and, in many cases more, than it ever did. To celebrate the official issuance of this new convenient size of currency, every store listed on this page is offering unsurpassed values for your family and home. Visit these stores! You will be surprised to see how far your new dollars go.
