There Is No Substitute for "Personal" Service . . .

Here, at the Community, you are assured PERSONAL service—graduate nurses are eager to serve you—to make you comfortable and feel "at home."

There is no substitute for this kind of service—it is just like being in your own home.

A hospital offers advantages, too, that are difficult to provide at home. The rooms are airy, the food is scientifically prepared under watchful eyes and nurses are constantly on hand.

A hospital offers this service at a cost more moderate, in many cases, than the charges of a first-class hotel.
