

MEDFORD MAIL TRIBUNE

Daily, Except Sundays... MEDFORD, OREGON, MONDAY, AUGUST 5, 1929... PRICE 10 CENTS

AIRCRAFT STOWAWAYS NOT WANTED

THE experience of the stowaway on the Graf Zeppelin should discourage adventurous young men from endangering their own lives and the lives of others by stowing away on aircraft.

Instead of being treated as a hero, Alfred Biskaw was treated as a common thief, locked in a dark compartment with out windows during the voyage, and given over to the immigration authorities for deportation upon the dirigible's arrival.

DOES COLLEGE TRAINING EVER PAY IN DOLLARS AND CENTS?

CAN a college graduate earn a high-grade professional business executive, as it can grind out clerks, lawyers and engineers from its classrooms?

That question—long unasked—has been answered. The answer is "Yes."

The average salary of the class of 1928, first graduating class of the Harvard School of Business Administration, is in excess of \$21,000 annually for each member, according to figures obtained by H. J. Freeman and published in a recent McChure's Magazine.

Freeman's investigation discloses a surprising change in the attitude of great enterprises and industries which once regarded the college trained man with an indulgent smile.

At the Harvard school, the first school of administration in the country, 300 young men were graduated last year—and 80 employers, representing some of the largest corporations in the country, sent representatives to interview most of them long before they received their diplomas, he reports.

ALTHOUGH the school discourages its graduates from starting at high salaries, preferring that they begin from the bottom, many have left school with assured incomes of from \$10,000 to \$15,000 awaiting them.

Instead of teaching at the close of college-trained business men, the largest industrialists and trade leaders in the country are asking if their training.

They also serve who merely wait, refrain from loafing.

The winning of night clothes on the steamer was a question. Lines waiters usually look at though they had been stung.

The dirigible may become the popular medium of fast news travel, but not until the schedule is reduced. These air-liners are too long for most people to leave off smoking.

THEY, lunch packages are never needed than bathing suits, and the substitution of night shoes would be most unwise still.
