WISCONSIN DOWNS LIQUOR PROPOSAL

MADISON, Wis., Aug. 5.—(AP) A proposal to put Wisconsin into the business of manufacturing and selling liquor was defeated in the senate today. The measure, by Senator Ben Gettleman, of Milwaukee, would have amended the state constitution which prohibits the commonwealth from entering private business.

Gettleman contends the 13th Amendment would not apply to a state disability.

DIG TEMPORARY TRENCH GRAVES FOR N. Y. DEAD

NEW YORK, Aug. 5.—(AP) Temporary burial of the dead in trenches, reminiscent of war times, was resorted to today at Calvary cemetery in Queens, where a week-old strike of grave diggers resulted in an accumulation of 400 bodies.

Since the start of the strike bodies have been placed in the cemetery's temporary receiving vaults which have accommodations for nearly 1500 bodies. Under the law, however, a body must be buried within four days after death and over the week and men were placed at work digging three long trenches.

It was announced that after settlement of the strike the bodies would be reburied in the family plots. Efforts to arbitrate the strike, which started shortly after the discharge of a chauffeur, were under way today between the strikers and members of the cemetery board of trustees. In-between 400 and 500 men are involved. They have demanded recognition of their union and an increase in salary from an average of \$24.29 a week to \$7 a day, with double time on Saturdays.

SALEM, Ore., Aug. 5.—(AP) An aluminum cooking utensil was a fascinating plaything for Mary, 15-month-old daughter of Mr. and Mrs. Albert Peigun of Sweet Home, until the pan which she was using as a hat refused to come off her head. ROUTE TO ROGUE RIVER SOUGHT BY POWERS

PORTLAND, Ore., Aug. 5.—(AP) It appeared today that after months of discussion, the monthly debate over the new Spring-Dent bridge has been concluded. At today's special meeting of the state highway commission bids were opened for construction of a concrete approach to this bridge on the west side.

A petition was received from the Powers commercial club asking permission to create a super-road district to construct a highway through the Siskiyou national forest to the Rogue river. According to the map of the proposed district, nearly the entire section is in the national forest so the cost of the proposed highway would fall on the small section of timber lands outside the forest that is included in the district.

Mrs. Gifford alleged that her husband's ideas of society differed widely from hers because he was too absorbed in his business. He became unkind of her and his home. Married life apparently became distasteful to him, Mrs. Gifford alleged.

UNLOADING IS CAUSE WHEAT PRICE BREAK

CHICAGO, Aug. 5.—(AP) A sudden violent break in wheat prices without any incentive manifest in the day's news, sent values down six to seven cents a bushel below yesterday's closing level today. The collapse was understood to have been caused by the unloading of wheat futures holdings by a leading Winnipeg trader, but rains in the Canadian northwest and indications of larger wheat acreage in the Argentine were contributing factors.
