Charm School Professor Teaches Women Proper Walk by Means of Books

A Chicago "charm school" teaches grace in walking by having students walk with books on their heads (left). In the other picture the proper length of skirt is being determined.

CHICAGO.—(Special.)—Teaching women how to walk without a wiggle of shoulders and hips, says one who has made a living out of such teaching, demands an interest in books—any old books.

Leslie Fisher, who developed a "charm" school from a costume and cosmetic business, first teaches her pupils how to walk. And to rid them of the shaking shoulder and waddling hip, she starts them walking around with a book or two on their heads.

Essie first taught folk of the stage how to walk. Hold their hands, stand, what to wear and how to make-up. Her admiration of a few society women opened the way for all women, and now even men are students of grace and charm.

Essie thinks American women

do not know how to walk and he sees that as their obstacle to complete domination in the international beauty field.

"They strike the pavement with their heels and stamp their shoulders," he says. "The slump drops down and becomes a wiggle when it reaches the hips. The wiggle is scarcely graceful.

"Most women walk stiff-legged and stiff-jointed. They swing along from the shoulders. The center of gravity is in the hips and in walking the shoulders should be steady and the head poised."

That's where the books come in. A shoulder shimmy and a hip wobble can't be done with a book balanced on the head.

Carmen Sylvia, who taught University of Missouri co-eds interpretive dancing, now coaches Es-

sie's pupils in what to do with the hands. Forget 'em, is the axiom, but not until after the charm candidate knows that the thumb should be so and so, the wrist flexed just right and the arm correctly poised.

Make-up rules are against bow foreheads and bangs and a nose "tip-titled like a rose"—that's how the instructions read—and spit-curls.

Essie's wife instructs in "clothes sense." That means the student should have a sports clothes consciousness, an evening gown appreciation or a bathing suit sense. Long, swinging strides are for sports wear, shorter strides for chiffon. The length of skirt to set off the particular woman also is decided.

Essie shows the candidates their progress with motion pictures.

IMMIGRATION LAW SEPARATES CHILD AND HER MOTHER

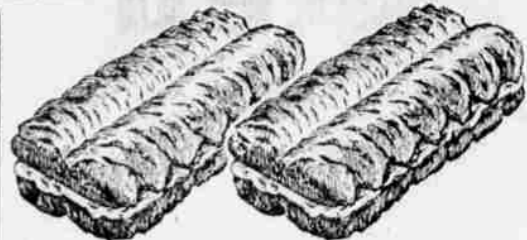

SAN FRANCISCO, Cal., Aug. 15.—(Special.)—Federal immigration laws came between a mother and her 3-year-old daughter here yesterday as orders were issued to deport Mrs. Anna Nicholas, 25, to Greece. Mrs. Nicholas had lived in this country for 25 years but because she returned to this country illegally through Mexico after having made a trip to Greece, she must leave again.

Mrs. Nicholas was born in Greece. Returning there eight years ago she married a Greek army officer. They came to America together by way of Mexico, shortly after the birth of a son, Teddy, who is 4 years old. Mrs. Nicholas recently obtained a divorce.

She was arrested recently at Sallinas. The immigration authorities ruled that Mrs. Nicholas and her son, Teddy, were ineligible to remain but that her little daughter, having been born in America, must remain here. The little girl was sent to a relief home.

Congresswoman Florence P. Kahn telegraphed Secretary of Labor Davis yesterday, asking if a stay could not be granted, and received this reply:

"Nothing can be done."

Learn this vital truth about sugar

Women cooking authorities show three astounding results of sugar in cooking vegetables

EVERY woman today wants every member of her family to eat more vegetable foods. She knows they are teeming with vitamins and that they are invaluable for roughage and mineral salts. Now women cooking experts have rediscovered the old secret of adding a dash of sugar to the vegetables while they are cooking (preferably in little water). These women authorities point out that the dash of sugar does three things. 1. Makes "stove" or wilted vegetables taste fresher. 2. Improves the pleasing colors of the vegetables. 3. Develops accents and points up the delicate appetizing vegetable flavors.

It must be borne in mind that the correct dash of sugar does not in any sense make the vegetables taste sweet. This is not the purpose of using the sugar.

Physicians and health authorities urge women to see that every member of their family eats regularly of varied balanced foods. Yet every woman knows that it is impossible to force the eating of tasteless, unpalatable foods regardless of how healthful they may be. Remember the secret of a dash of sugar in making cereals, milk desserts, fresh and cooked fruits, beneficial vegetable dishes, and many meats so delicious that they will be irresistible. And for dessert—a bit of sweet makes the meal complete. The Sugar Institute.

FIRST OPEN AIR COOKING COURSE CLOSED WITH A BLAZE OF GLORY

The first open-air cooking course ever held in northern Oregon closed today in a blaze of glory, long to be remembered by the women and young ladies of the city and county—as well as the men and boys who expect to profit by the baking to be done by their mothers, wives, sisters and sweethearts. From the recipes explained and demonstrated by Miss Victoria Warner.

The course was conducted by the Southern Oregon Gas Corporation and the Mail Tribune, and the wonderful success of the four days and the large attendance daily is very pleasing to both companies, as well as to Miss Victoria Warner.

Today's lesson subject was "Cakes" and many fine recipes, together with livings, were given, explained and some cooking demonstrated by Miss Warner, and many suggestions were laid down by the unusually large crowd present.

"This course has been the most complete that I have ever attended," remarked a housewife as she arose with a sigh of regret at the lesson's close. "We have had everything, practically, from soup to doughnuts, and it has certainly given me an added enthusiasm for my family menus."

During her stay in Medford, Miss Warner made scores of friends who delighted in her lectures and cooking demonstrations. In her pleasing, informal way, she won the hearts of everyone. She is representing the Home Service Bureau of the Tappan Range company of Mansfield, Ohio.

So keen has been the praise of Miss Warner by all that she has been invited to return and conduct the next school.

The Southern Oregon Gas Corporation and the Mail Tribune desire to thank the city officials who so kindly granted the use of the children's playground, the merchants of Medford and the national advertisers who so magnificently cooperated, the Palmer Music house for the musical concerts, the Boy Scouts, and all other assistants, and last but not of least importance, Miss Warner, all of whom contributed to make the occasion such a huge success.

TABLE ROCK, Ore., Aug. 15.—(Special.)—S. M. Tuttle, so far as we know, was the first from this section to try out the new road from the four corners into Medford, he having motored through that way last Sunday.

It is too bad that work on this road could not have been started sooner so that it could be used now for the fruit haul and this relieves some of the congestion on other roads leading into Medford.

FIRE THREATENED IN SAMS VALLEY

SAMS VALLEY, Ore., Aug. 16. When two little boys threw to the ground to lighted match Tuesday, our district narrowly escaped being wiped out by fire. The boys attempted to put out the fire, which started near the Grim Davis place, but being unable to do so, quickly spread the alarm and soon brought help. Two throwing crews, orchard crews and others rushed to the scene of the fire which was fast leaping through dry brush and grass, and soon had it under control, with no damage to any buildings, and but seven or eight acres of timber and a little fencing destroyed.

Walter Struss and friend, Lester Moore, were over from Klamath county Sunday, visiting Walter's parents, Mr. and Mrs. Dick Struss.

Friends are glad to know that Grandpa Hobst is improving from his recent illness.
