

# PEAR HARVEST GAINS VOLUME; PLANTS READY

### Packing Houses Start Preliminary Operations On Bartlett Crop—Tuesday To See Full Activity—Help Is Plentiful.

Most of the packing plants of this city and the Rogue River valley... operations started preliminary operations this morning...

The Kimball Fruit company started its packing plant this morning and operated with room. It will resume tomorrow morning.

The Southern Oregon Sales, Inc., will start packing Tuesday morning. The packing plant at Gold Hill and the Newberry & Sons plant at Phoenix will start full swing next Monday.

The C. & E. packing plant started Thursday in a "warming up" of machinery. It will go on a full capacity basis Monday.

The Phoenix Packing company will ship all its Bartlett to canneries, chiefly to the Bay Moller company at Willits, Ore.

The Lear Creek orchard, Rumburg, Ore., started picking and packing this morning. They will put on a full force next Monday.

Packers, shippers and growers are employing local help, but it is not sufficient to meet the needs when the fruit season reaches its height about the last week in August.

Finishing touches are being put on the new packing and storage plant of the Medford Ice & Cold Storage Co.

Trucks registered this morning that will haul the Bartlett were not up to size it was the rule. Some of the growers hesitated to this heavily at \$34 a ton, and the result was shown in the size.

The Southern Pacific railroad has assigned two switch engines and crews to the local yard, and will increase the equipment this first of the week.

Traffic managers and department heads of the railroad will visit the city next week and arrange final details of the shipping.

The following announcement concerning T. H. Ness, well known Oregon truck and implement dealer of Roseburg, promises to be of interest to the many friends of the Newlands in this city.
