

MODEL PLANT OF S. O. S. INC., TO START TUESDAY

The pre-cooling and storage plant of the Southern Oregon Sales, Inc., at Pacific Highway and Stewart avenue, constructed at a cost of \$200,000, and regarded as a model pre-cooling establishment, will start operations Tuesday morning with a force of 75 packers.

The plant the last two weeks has been visited by a steady stream of growers, railroad officials, refrigeration experts, efficiency engineers and storage authorities. The consensus of opinion was: "The plant is a revelation!" The plant was also inspected by Oregon State College horticultural heads.

The mechanical devices and other equipment of the establishment, are for the most part S. O. S. patents, which heads of the concern have worked out from their practical knowledge of the fruit industry. The plant is the only one of its kind in the world, and will be used as a model by a number of pre-cooling houses in the northwest, to be erected in the next two years.

The battery of sorters, washing machines and conveyors have been under test runs for the last two weeks. The refrigeration system has been in operation the past week, cooling the storage rooms, and walls of the storage warehouses, preparatory for the reception of fruit.

Innovations in the plant are a first aid station for employees, large men's and women's rest rooms, a cafeteria for employees, a grower's room, Leonard Carpenter, president of the company, said that as soon as the fruit shipping rush was over, work would start on landscaping the grounds with shrubs and flowers.

Paul Scheerer is general manager of the plant, others connected with the business are: Coaling, Kenly, Gordon Voorheis, and Alfred Carpenter.

There is a gallery walk the length of the packing and sorting room, for the use of visitors, desiring to see the plant in operation.

GREENLEAF SCORES IN 'RIP' READING

An unusual radio program which met with a fine reception from the local radio public was the presentation of "Rip Van Winkle" by Wm. Lee Greenleaf, noted Shakespearean reader last Tuesday. The program which was given through the courtesy of the California Oregon Power company brought out the versatility of Mr. Greenleaf in presenting all of the characters in the play and held the keen interest of listeners from start to finish. This was the 1976th time Mr. Greenleaf has given "Rip Van Winkle" but only the second radio presentation, the other one being featured by Conno nearly a year ago. Medford people were fortunate to be able to hear this well known artist who is spending a few days here on vacation and will return shortly to his dramatic work in California.

FIRE CHIEF GIVES PARTY FOR BOYS

Tuesday morning's the time, the swimming pool at the Nat is the place. And the event is the big boys' swimming party which Fire Chief Roy Elliott is giving for all the boys in Medford.

All the boys in Medford, that is, all of them under 14, and the chief probably is a tank full, Mr. Elliott thinks. There'll be enough fun and excitement down there Tuesday from 10:30 to 11:30 to make the proverbial of swimming hole event as quiet as a cat eating marshmallows in a graveyard.

Boy Scouts of the city are to be special guests of Mr. Elliott. They'll help the little fellows around. And everybody must bring his own suit, the chief says. That's the only thing the old swimmer's hole will have on this swimming party.

Daily Meteorological Report Sunday, August 18, 1929. Forecast: Medford and vicinity Sunday, fair and not much change in temperature. Oregon: Sunday, generally fair, but cloudy or foggy on coast; probably becoming unsettled in the northwest portion. Center in interior of north portion.

Obituary

SPINK—Mrs. Alice Spink, who, if she had lived until September would have been ninety-two years of age, passed away at the home of Mr. and Mrs. H. G. Wilson on Chestnut street Saturday morning at seven o'clock.

Mrs. Spink has been cared for by Mrs. Wilson for over two years.

At the age of ninety and also on her ninety-first birthday Mrs. Wilson gave her a party—those and all kind attentions the elderly lady always enjoyed very much.

Under Mrs. Wilson's kindly and efficient care Mrs. Spink seemed to constantly improve but Saturday morning her heart gradually ceased to function and she passed peacefully into the land beyond.

She had become greatly loved by the Wilson family who all called her "Mother" and she will be missed by them as well as by her daughter, Mrs. Janney, who has helped minister unto her until the end.

Funeral services for Isabelle Lovell, wife of J. T. Lovell, who passed away at her home, 525 W. 11th street Thursday, will be held at the Congreg. chapel at 11:30 a. m. today.

Interment will be at the Williams cemetery.

DAVIS—Ruth Marion Davis, 21-year-old daughter of Mr. and Mrs. W. A. Davis, passed away at the home of J. G. Sumner, 1929 E. Jackson early yesterday morning.

The Davis had come to the Sumner home for a few days, being old acquaintances. Miss Davis' death was unexpected at this time, although she had been in failing health for some time. She was an accomplished violinist. Besides her parents, she leaves one sister and three brothers, Janice, Lawrence, Wayne and Melvin. The body was forwarded by the Congreg. funeral parlors yesterday to Central, Wash. for services and interment.

HASELTON—Aden L. Haselton, a resident of Jackson county for the last 45 years and where he began teaching school more than 40 years ago, passed away at a local hospital at the age of 82 years. Mr. Haselton was born at Prusler Falls, N. Y. Since coming to this county he has resided for many years at Eagle Point and other localities where he followed teaching. He leaves six children, Mrs. H. E. High of Ashland, Mrs. J. W. King, Ashland, Frank Haselton Fine Ridge Ore., Adin of Klamath Falls, Robert, Salem Ore., and one daughter by a former marriage. Funeral services will be held at the Congreg. chapel at 2:30 Tuesday. Interment in Central Point cemetery.

SPINK—Funeral services for Mrs. Alice M. Spink, mother of Mrs. Paul Janney, who passed away Saturday morning at the age of 92 years, will be held at the Episcopal church in this city at 10:30 p. m. Monday, with the Rev. H. K. Hammond of Ashland, officiating, after which the remains will be forwarded by the Congreg. funeral parlors, to Portland for cremation.

PORTLAND, Aug. 17.—(AP)—His automobile smashed against a telephone pole, his skull fractured and his body broken, Allison Moulton, 19, of Portland, was found at the side of the Pacific Highway near Woodland, Wash., early today.

One of two New York baseball reporters who wrote that Manager McGraw had been "riding" and "kicking his Giants" were severely criticized by the "Little Napoleon."

16 CARS PEARS SENT EAST IN OPENING WEEK

Sixteen cars of Bartlett pears were shipped from the Rogue River valley during the past week, plants and railroad officials show.

The first of the canners' pears were shipped from the valley last night and were bound for the Lobb, McNeil & Lobb plant at Portland.

Shipments last week are but a fraction of what will leave the valley during the approaching week. But a few of the orchards have been picking. Tomorrow, however, picking will begin in general in orchards all over the valley. Tests made Friday and yesterday show that the Bartlett's are now ready for picking in almost all districts of the county.

Because of the large tonnage sold for canning this year, shipments during the next two weeks will be largely to the canneries in California and the Willamette valley. Packed fruit is already being sent to the eastern markets by several orchards including those in the Clatsop Hill and Rogue River districts.

With but few exceptions Medford packing houses will open with capacity crews in the morning. Several have been working intermittently through the week. Others, including the Bear Creek orchard, made test runs yesterday to be certain everything is in readiness for the rush of this week. The entire Bartlett crop of the Bear Creek orchard is being packed this year.

The peak of the Bartlett season will not come until about the last week in August this year because of the late ripening season. At that time about 2000 persons will be employed in harvesting the large crop. Chris Gottlieb, secretary of the U. S. employment bureau, reports that there will be no shortage of labor this year. The surplus which has existed for the past few weeks will be mostly absorbed this week, he says.

MANY NEW PRIZES FOR DOLL PARADE AND KID PAGEANT

Several prizes for the doll parade and children's pageant, Tuesday, August 27, have been announced, and much interest is being displayed in the event. Skaggs' Grocery stores will give a toy pup to all children who take part in the parade, the Medford Cycle and Repair shop has offered a prize for the best decorated bicycle and Al Piehe has offered a jack knife for the best decorated tricycle.

Cleverness and ingenuity will count toward the prize, which consists of a real doll being donated by Mann's department store for the best home-made doll. This will also apply in the doll beauty contest, the prize for which is \$5 in merchandise donated by Russell's department store. Miss Melba Williams, playground supervisor, says the dolls are not hard to make and may be either carved out of some material or some foundation may be used and the doll constructed of cloth or other material.

Some clever and unique entries are expected in the bicycle contest and old fashioned and oddily built bicycles are especially wanted in the parade. After the parade tricycle and scooter races will be held for the smaller children.

The home made autos for the contest may be made with roller skates, wooden wheels, baby buggy wheels or anything else that seems to the young inventor's mind. The prize is a football being donated by Lampert's hardware store.

Ludwig Haymann is the latest foreign heavyweight boxing champion. He is a graduate of the University of Munich.

BOY SCOUTS TO HOLD JAMBOREE TO END SEASON

The Boy Scout summer program committee discussed plans for the second annual Boy Scout Jamboree at the Armory August 29 and which is the last event of an intensive summer program of hiking and camping, when it met at the Hotel Medford Saturday noon.

Ray, Carmen E. Mell is chairman of the committee and the following heads for the jamboree were chosen: Alan Smith, decorating, seating and construction of booths; Homer Mays, publicity; William Lee Irleker, program; and Bob Swobbery and W. W. Allen, program critics and music. The above named heads and their assistants plan to have everything ready to move in Friday morning, August 29th.

The summer program committee will award a cup to the troop that captures the most points at the Jamboree and the first troop that wins it three years in succession will be allowed to keep it permanently. Points will be awarded for the different exhibits and events of the Jamboree. Penalties will also be awarded to first, second and third place winners. The points will also count toward the patrol essay tour to San Francisco, which will be given to the patrol that gathered the most points during the summer's work.

No admission will be charged for the scout show but as a large crowd is expected admission will be by ticket only. The tickets may be obtained free of charge from any Boy Scout.

Switzerland has completed the electrification of 1,500 miles for the main line of the Federal railways.

Electric Cookery Is Cleaner. Illustration of a woman in a kitchen using a Westinghouse electric range.

Not a Speck of Soot!

That's the beauty of a Westinghouse Electric Range with the Flavor-Zone Oven. The cooking utensils are always clean as new. It is less work to wash them, and that means less time in the kitchen.

The kitchen walls and ceiling, too, are cleaner. The old smudge that used to appear above the range shortly after re-decorating is no longer present. With a

WESTINGHOUSE RANGE

the kitchen is as clean as any room in the house—and it is easier to keep clean.
