## HARRISON, FOLGER GLOBE TRIP WILL BEGIN SEPTEMBER

## BUSINESS COLLEGE FALL TERM OPENS MONDAY, SEPT. 16

## OREGON GAINED 100 FAMILIES IN AUGUST MAINLY FROM SOUTH

Friday—that link day of the week—has made many a strong man quake in his boots, when anticipating a necessary trip to some not too distant point. Not Phil Harrison and W. A. Folger, who have deliberately chosen Friday, September 13 to begin a trip around the world.

The local men will leave here for San Francisco a few days in advance of the long trip. On the 13th they will take the President Lincoln, of the Dollar Steamship line, and leave for Hawaii. From there they will go to Shanghai and thence to Hong Kong where they will spend a month studying the ways of the Chinese. After this, they will set out for Manila where the two will part temporarily, Mr. Harrison taking the side trip to Java.

They will meet again in Ceylon, where after a few days of rest, they will go through the Suez Canal along the coast of Africa to Alexandria. Egypt, across the Mediterranean to Italy and up to Marseilles, France. Here they will do one of two things, either take the train to Berlin and a plane to London, or take a plane direct from Marseilles to the English coast.

After they have seen what they wish of England, they will return to Marseilles, continue on up thru the Mediterranean thru Gibraltar and then back to New York. Here they will again part, Mr. Harrison going by way of the Panama canal to Cuba and around to San Francisco, and Mr. Folger taking his return route through the west and middle west where he will visit relatives.

Whether they will be gone six months or a year, is a matter yet undecided by the two men. Which ever way the wind blows, they know in advance that they will be glad to return to Medford.

After ten years of continuous sessions of the Medford Business college, a complete change is being made in the courses, with 1929 edition textbooks being used in all classes starting with the fall term, according to G. W. Newberry.

One of the new courses being taught for the first time is laboratory filing practice. This subject has not been available at the college until this year. It will be taught as special work, and as a regular course.

The stenotype machines are also late editions to the college program. Stenotype is a form of shorthand, written on the stenotype machine, using the regular alphabet. This type of shorthand is more complete, easier to read, and increases efficiency.

It is believed that stenopy will take the place of written shorthand as typewriting has taken the place of handwriting," said Mr. Newberry.

New books in shorthand, bookkeeping and accounting have been obtained for the coming year.

A special night course for adults in English is to be taught, using the Miller system of correct English. Courses in public speaking and scientific salesmanship will be added, with instructors from the local high school conducting the classes.

The work is carried on by Mr. Newberry, J. Q. D'Albini, Miss Gay Webb, and two part-time instructors. The Medford Business college is the only private institution of this sort in Oregon to have a certified public accountant with the school.

The fall term will open Monday, September 16, and according to present indications a large number will be enrolled for the fall term.

With 100 families reported as having arrived and located in all parts of Oregon during the month of August, all records of the state chamber of commerce were broken, according to W. G. Lee, manager, who has just issued his regular monthly report of land settlement activities. Another record was also broken in August when the new arrivals made investments in lands, buildings, equipment and other property amounting to \$426,831.25. The new residents also purchased 4901 acres of land, most of which was not formerly in cultivation.

An interesting sidelight on attracting new settlers to Oregon is revealed by Manager Lee who stated that California has been sending the larger proportion of the new people, many of whom were drawn to that state by news of the Boulder Dam development.

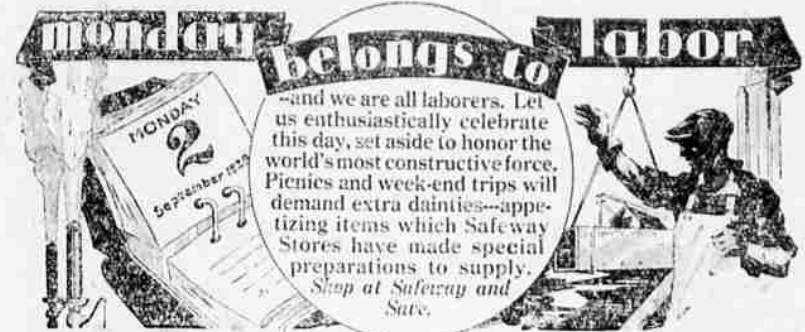

Since it will be several years before the Boulder Dam lands, many of these prospective settlers have been directed to Oregon, largely through the efforts of the Los Angeles office of the state chamber. An intensive campaign for new families, investors and parties seeking business and industrial opportunities will be carried on this fall and winter thru the Los Angeles headquarters.

### COWGILL RANCH FIELD WILLOW SPGS. BURNS

WILLOW SPRINGS, Ore., Aug. 29.—(Special.)—On Wednesday afternoon, a grass fire caused some excitement in the Willow Springs district. A large field, a part of the Cowgill ranch, was burned over.

Monday belongs to labor—and we are all laborers. Let us enthusiastically celebrate this day, set aside to honor the world's most constructive force. Picnics and week-end trips will demand extra dainties—appetizing items which Safeway Stores have made special preparations to supply. Shop at Safeway and Save.
