### S. S. Smith Quoted by Portland Journal on Medford Prosperity and Plans for Port Dedication

That the prosperity and growth of Medford and Jackson county have not been more pronounced in 20 years than now was declared by S. S. Smith, editor of the Medford Mail Tribune while a Portland visitor.

A substantial increase in real and personal property values is reported by the assessor, he said. The lumber mill and box factories have all been running six days a week. The Oya-Oregon mill, one of the largest in the state, has operated with two shifts of eight hour men.

The Medford district is not harvesting one of the largest wheat crops in history and receiving good prices.

About 2000 cars of peaches have been shipped and an equal or better number are yet to go to market. Cannery prices in Oregon and California for peaches are as high as \$5 a ton for Bartlett's and \$4.19 for fall peaches. Twenty cars of the famous Rose peaches are leaving for Detroit and beginning October 7, Medford will put on a campaign to show the Detroiters that the famous Rogue River Rose is the best fruit in the world. Professor Hornum of Oregon State college will assist in this campaign.

This year a half million dollars was spent in Medford in the erection of new processing, cold storage and fruit packing plants and in repairs and enlargements to other plants.

Seeing completion is the new class A airport, three miles north of Medford, one of the largest and most modern plants on the coast. It is over a mile long and a half mile wide, with a hangar 116 by 140 feet that will accommodate 16 large planes. There is also a new administration building, pilot house, quarters, waiting room, first aid station, restaurant, machine shop and other conveniences.

The first flight from the new field by the Pacific Air Transport will occur October 2, but the official dedication will not take place until July 2, 3 and 4 of next year, when Medford will stage the biggest event so far programmed for Oregon.

There will be air races day and night from Portland and Medford to Medford. There will be also all kinds of air stunts in which many noted aviators will take part.

Governor Peterson will see that the aviation congress of the 17 western states will be held at Medford during this celebration.

A feature will be a pageant depicting the evolution of transportation from the Creech race to the present, including a legion of aviation now and hereafter. This will be in charge of Dorris Smith, noted for her work in Portland and Eugene presents.

The Ford Motor company was so impressed with Medford's people's air-mindedness that they ran a race at the end of the leading magazines, telling of Medford's issue of \$12,000 in bonds to buy a margin of 12 to 1 to build the airport, and offering the Medford instance to other cities as an example to follow. No other city in the country has received such recognition.

Medford is on the through artery of the coast.

The government has constructed one of its airways super-radio stations in Medford that will be put in operation soon on a 24-hour basis. This, with the new government meteorological weather bureau station, will broadcast reports for all ships on the air.—Oregon Journal.

### CENTRAL POINT IOOF JOINT MEETING PLAN FOR MONDAY NIGHT

CENTRAL POINT, Ore., Sept. 27.—(Special)—There will be a joint meeting of the I. O. O. F. and Rebekah lodges on Monday night, September 30th. It will be mostly in the nature of a social affair and supper.

The Messrs. Ely and George Adams are attending normal school at Ashland.

Among the many who're on the sick list this week are Mrs. Jesse Richardson, Mrs. Landotand and Andre Chomel.

### TABLE ROCK MEN RAISE SORGHUM

TABLE ROCK, Ore., Sept. 27.—(Special)—Ralph Wilson and Sam Newman, who both have a nice patch of sorghum cane, plan to make a large quantity of sorghum for their hot cakes this winter.

Sam Newman, who hails from the Carolinas, where sorghum is sorghum, will have charge of the manufacturing and is scheduled to both the work soon.

Road signs are being placed on each side of the Table Rock school lot, to warn motorists that a school zone is being approached.

Relative of Mrs. Frank Myers of this place, who has been in the valley for several weeks, are leaving Saturday for their home in San Francisco.

Geneva Hurl, who had her tonsils removed last Monday, was far enough recovered to return to school Thursday noon.

Charles Dunlap has bought a new caterpillar tractor and will soon begin plowing on his large ranch here.

Leonard Freeman of Central Point delivered a tractor and plow to Charley Desmond of the Beagle section one day this week.

### MANILA PEOPLE VISIT ELDENS, WILLOW SPGS.

WILLOW SPRINGS, Ore., Sept. 27.—(Special)—J. W. Elden was accompanied home from Corvallis by Mr. and Mrs. Richard Hall of Manila, who came down from Portland to join him there. Mr. and Mrs. Hall are on a six month trip in the United States and are sailing for home on October 3, after visiting on both coasts and in the middle west.

Mrs. Hall was formerly Miss Millicent King of Rockford, Ill. She is a sister of Mrs. Lella King Elden and has a wide acquaintance and many friends here. They enjoyed a trip to Crater Lake.

J. W. Elden motored to Corvallis last Sunday and took his boys, George and Harry. The boys will attend O. S. U. This is Harry's first year, but George attended last year. Coy Brown, who is a junior, rode up with them.

### The "reducing diet" that stole her beauty

SHE was one girl who was going to be slim and beautiful—so she began a strenuous reducing diet. She counted calories. She shunned this and sought for that. But, all the time, she was missing something every diet should have. In the dishes she so carefully selected there was scarcely any roughage. Constipation gained a foothold. Her looks suffered as is often the case with constipated persons. She had headaches and her complexion became sallow.

Thousands of women and men are paying the price of diets which are lacking in bulk. Constipation continues to poison the system. No other evil is more widespread. It often ends with serious trouble and disease. By adding Kellogg's ALL-BRAN to any diet, the ideal roughage is obtained to relieve and prevent constipation.

ALL-BRAN does not add fat to the body. It just sweeps the intestines clean of poisonous wastes. Its regular use restores health and above all priceless beauty and charm.

No pills nor drugs can play the part of ALL-BRAN in a reducing diet. Their dose has to be constantly increased and they do not produce the natural results that ALL-BRAN does.

Don't trifle with pills. You will like the appetizing nut-sweet flavor of ALL-BRAN. It can be enjoyed in many ways. In soups. On salads. Soaked in orange, prune or fruit juice. As a cereal with milk or cream. Delicious with honey added. Just eat two tablespoonfuls daily—in chronic cases with every meal.

If you write us we will gladly send you a valuable booklet on the subject of safe reducing. It contains many approved diet suggestions which promote beauty as they help you reduce. Grocers everywhere sell ALL-BRAN. Be sure to get the genuine—made by Kellogg in Battle Creek. Served in hotels, restaurants and dining-cars.

GUARANTEED! Kellogg's ALL-BRAN is sold with this definite guarantee: Eat it according to directions. If it does not reduce constitutions safely, we will refund the purchase price.

### Stormy Career of Woman Physician Ends in Portland; Was War Heroine

PORTLAND, Ore., Sept. 27.—A military funeral for Dr. Lillian M. Stevenson, who died penniless and alone in a hospital here last week, became a possibility today as friends sought to uncover the record she made in overseas hospital service during the war.

While the records were being searched, Richard Deich, Portland attorney, recalled the many stormy episodes in the woman physician's life that brought her public attention. She came to Oregon after the war, settling in Astoria.

Deich said it was over a reduced baby she took from a Portland hospital to rear as her own that the controversy between Dr. Stevenson and various welfare and placing agencies began.

The attorney recalled that at one time she was imprisoned in the Clatsop county jail, where she went on a hunger strike, and on another occasion was indicted by federal authorities for sending at-

leged defamatory matter through the mails. Her troubles, Deich said, were based on the fight to keep her adopted son.

Deich said a week before her death, Dr. Stevenson sent for him and asked him to prepare adoption papers for the boy, now 5 years old and a resident at Vocational school at San Diego, Cal. Her will, Deich said, gave all property to the boy, known as Gault Stevenson, though no tangible assets have been found.

During the months previous to her death, Deich said, Dr. Stevenson had a hard-mouth existence in Portland. To keep the boy in school, Deich said, she sent a pawn ticket for a diamond ring valued at several hundred dollars to the school as tuition payment.

### AIR BEACONS FOR TEN MORE LINES

WASHINGTON—The nation's air mail may be speeded through the night over 2000 more miles of the airways of the country in the near future with completion of lighting projects on 19 airways.

The construction, involving the placing of 200 more airway beacons and the lighting of 25 more remote landing fields, will bring to 122 the number of airways over which lighted beacons will follow a trail of lights at night.

The present lighted mileage of 16,180 involves use of 1492 airway beacons and 243 lighted alternate fields. In addition to the hundreds of small marker lights at intervals of every few miles.

### BIRDLEGS ROADHOUSE SCENE OF GUNPLAY

PORTLAND, Ore., Sept. 27.—Elmer Jones, 17, negro, employee of the "Birdlegs" roadhouse on the Baseline road, was in a hospital today, seriously wounded, and Wintrop Dehlauss, 25, another negro, was in jail after the shooting of Jones last night in the roadhouse.

Dehlauss said authorities here shot Jones in self defense after Jones is said to have fired at him. Authorities said the shooting was the result of arrests shown by Jones to Mrs. Reed, whose husband, proprietor of the roadhouse, died several days ago.

Would you undertake making frosting for a cake as Tall as you are?

Of course not! There would be too much to handle—it would get out of control. It's the same in roasting coffee. That's why Hills Bros. roast only a few pounds at a time by a continuous process—Controlled Roasting. The flavor is perfectly controlled always. No bulk-roasting method can produce the flavor and delicious taste of Hills Bros. Coffee.

HILLS BROS COFFEE Fresh from the original roasters' feet. Roasted with the best.
