GIRL WORKS AT AIR FIELD TO AID IN PILOT TRAINING

Miss Nancy is 29. Her father is Albert T. Hopkins of Washington. She does not yearn to do fancy stunts or to hang up records. She longs to skim through the ether, a competent engineer of the airplanes, giving earth-bound mortals the thrill of flying.

NANCY HOPKINS

While completing the required 20 hours solo flights at Roosevelt field, she is earning money by riveting out information at the field. She answers all sorts of questions. Aviators come in from long hops and want information about hangars and hotels. Nancy knows just what to tell them. She meets anxious parents and eager youngsters who want to enter the flying game.

Paper Money Has Value!

AN ANCIENT PREJUDICE HAS BEEN REMOVED

An ancient prejudice nursed the ignorant fear and distrust of paper money. AMERICAN INTELLIGENCE inspires the faith which completely accepts the printed obligation. In the interest of convenience and safety, its use is universal.

"toasting did it"—

Gone is that ancient prejudice against cigarettes—Progress has been made. We removed the prejudice against cigarettes when we removed harmful corrosive ACRIDS (pungent irritants) from the tobaccos.

YEARS ago, when cigarettes were made without the aid of modern science, there originated that ancient prejudice against all cigarettes. That criticism is no longer justified. LUCKY STRIKE, the finest cigarette you ever smoked, made of the choicest tobacco, properly aged and skillfully blended—"It's Toasted."

"TOASTING," the most modern step in cigarette manufacture, removes from LUCKY STRIKE harmful irritants which are present in cigarettes manufactured in the old-fashioned way.

Everyone knows that heat purifies, and so "TOASTING"—LUCKY STRIKE'S extra secret process—removes harmful corrosive ACRIDS (pungent irritants) from LUCKIES which in the old-fashioned manufacture of cigarettes cause throat irritation and coughing. Thus "TOASTING" has destroyed that ancient prejudice against cigarette smoking by men and by women.
