Light's Golden Jubilee

Fifty years ago, Thomas A. Edison made the first practical incandescent lamp. That eventful day ushered in a new era of comfort and convenience. We join in commemorating the golden anniversary of the birth of electrical illumination and pay tribute to the man whose inventive genius is reflected in practically every electrical appliance found in our homes. You will want to see the displays in our windows which show a replica of the first "carbon lamp" together with the most unusual and interesting historical display of Ward's contemporaneous growth with that of light and electricity.
