

EGGS AND BUTTER FIRM AS DEMAND CONTINUES

PORTLAND, Ore., Oct. 19.—(AP)—The egg and butter markets were firm today without change. Fresh eggs were selling rapidly at 48 and 50c retail, with some dealers getting even higher prices. Receipts of turkeys were smaller than expected, but prices remained unchanged.

Screen

Continuing to Centerian. Sauce for the gender is saucer for the goose and "Charming Sinners," a clever drama of domestic rearrangement, made into an all-falking picture, proves that a woman has often the best of the argument in a tussle of wits with her husband. Ruth Chatterton, Clive Brook, William Powell and Mary Nolan carry the loads at the Criterion theater tomorrow.

The story has to do with a new treatment for philandering husbands. Ruth Chatterton, as the wife, applies her unique remedy in a smart way. Clive Brook has a rare role and he handles it in delightful fashion. William Powell, as the "other" man, and Mary Nolan in the role of the laffinger, are strong supporters of the two well-known leads.

Coming to Rialto. When a bachelor girl gets bored, a "hobbed-lair" "and" takes a hand in string things up, and an exciting comedy drama follows. "This Fox" movietone all-talking picture, which is tomorrow's feature at the Rialto theater, has a cast of Alan Birmingham as the wealthy young bachelor, Lella Hyams as the disturbing young lady, Clyde Cook as a valet, and Farrell Macdonald and Arnold Lucy as the other featured members of the cast.

From the outset arresting and novel, the action proceeds at a fast clip, cleverly interweaving comedy with mystery and suspense with romance.

Edison to Receive Nation's Tribute On Anniversary of Light Invention

DETROIT, Mich., Oct. 19.—(AP)—Coming to receive a nation's tribute on the golden anniversary of his invention of the incandescent electric light, Thomas A. Edison arrived here from Orange, N. J., today. Traveling in the private car of Henry Ford, the inventor went immediately to the Ford estate, "Fair Lane," at Dearborn and planned to keep out of the public eye until Monday evening, when President Hoover will voice the nation's greeting in formally dedicating the new Edison Institute of Technology established by Mr. Ford in his early American village at Dearborn.

Light's own tribute to Edison will be a flood of modern illumination that will bathe the new Edison institute during the ceremonies Monday night. To give the celebration the atmosphere of 1879, however, the restored Menlo Park buildings and the reproduction of the Independence Hall, which is the principal unit of the early American village, will be illuminated only by tallow candles and oil lamps.

How Mr. Edison's incandescent light was greeted 50 years ago is told in the New York Herald in an issue of 1879: "Edison's electric light, incredible as it may appear, is produced from a little piece of paper—a tiny strip of paper that a breath would blow away. Through this little strip of paper is passed an electric current, and the result is a bright beautiful light, like the mellow sunset of an Italian autumn. . . . The paper is baked in an oven until all its elements have passed away except its carbon framework. . . . There follows a description of the light bulb's construction and, 'this light, the inventor claims, can be produced cheaper than that from the cheapest oil. Were it not for the photograph, the quadruplex telegraph, and the various other remarkable productions of the great inventor, the world might well hesitate to accept his assurance that such a beneficent result had been obtained. But, as it is, his latest achievements in science are sufficient guarantee that his claims are not without foundation.'"
