More Mothers each year - treat COLDS EXTERNALLY

When Vicks VapoRub was introduced, mothers especially were quick to appreciate it, because it is just rubbed on and cannot upset children's delicate stomachs, as "dosing" is so apt to do. Of course it is equally good for adults.

Today, the whole trend of medical practice is away from needless "dosing," and the demand for Vicks has grown until it is necessary to again raise the figures in the famous slogan. There are now "Over 26 Million Jars Used Yearly."

What is this new and astonishing Agmel? Why has it this effect upon kidney deficiencies, high blood pressure, indigestion? For Good DO-NUTS AGMEL is astonishing both in what it is and what it does. Agmel is a great health food, a valuable tonic in kidney deficiencies, high blood pressure, indigestion and glycosuria. It is an extraordinary discovery, a real gift of nature - an imported vegetable milk from Mexico. In its native country this plant sap is called "aguamiel." It comes from the famous maguey plant and there is nothing else in the world like it. Fresh aguamiel has been used for centuries in Mexico. Now this pure sap has been concentrated for export, and the name has been shortened to Agmel. Everybody can now have Agmel. This is fortunate for those men and women just entering middle life and for those of all ages who are being warned of danger by frequent arising at night, headache, high blood pressure and other symptoms brought on by modern ways of eating and living. Imported by The Agmel Corporation, New York and Mexico, D. F.

A Slice of Fluhrer's Bread and jam or butter makes the ideal after-school lunch. The extra amount of milk solids in Fluhrer's Bread is the reason you should use only Fluhrer's.
