An interesting incident of how a fire started from a spark after smouldering 54 hours, was related by Fire Chief Clint Baughman of Ashland when he was in Medford this forenoon. He said that a quantity of supposedly cold ashes had been placed in a cardboard receiver on the back porch of a dwelling recently. The ashes gave no outward appearance of having live sparks, but after slow smouldering, the wooden floor under the container began burning and the flames spread to the whole rear of the house. The blaze was discovered at 2 o'clock in the morning, but was placed under control in a short time by the Ashland fire department.

# Economy Groceteria

THE HOME OF BREAD LIKE MOTHER MADE  
YOUR SHARE OF YOUR DOLLAR

Years ago, when some old time grocer, just to oblige a neighbor, offered to bring his groceries along when he came to supper, he little realized what he was starting. Service after service has been heaped one upon the other until today there is a lot of doubt as to which costs the most—what you eat and wear, or what it costs to bring them to you.

Your share of your dollar is the merchandise actually delivered to you—and the fewer service luxuries before you get it, the more you get for your dollar. That's the secret of Groceteria lower prices—eliminating clerks, credits and small deliveries cut out the biggest factor in the service expense, adds much to your pleasure while shopping—and enables you to achieve what otherwise would be impossible.
