Soft, lovely hair!

The modern artist hair-dresser can do wonderful things with your hair. But all your hair-needs can not be supplied in the beauty shop. You must help at home. And that's where Danderine comes in. Danderine is so simple and easy to use. Each time you arrange your hair just put a little of this delicately fragranced liquid on your brush. As you draw it through the hair, Danderine removes excess oil, cleanses, brings out the natural color, gives your hair an amazing new lustre.

Used consistently, Danderine dissolves the dandruff, keeps the scalp comfortable and healthy; stops falling hair; helps make your hair grow long, silky and abundant. Your hair is so much easier to arrange and stays in place when Danderine is used. Waves "set" with it look nicer; stay in longer. Five million bottles used a year!
