

LAND BANKS HAVE NO AUTHORITY TO ASSESS LIABILITY

WASHINGTON, Nov. 4.—(AP)—The supreme court decided today the federal farm loan board and receivers of failed joint stock land banks are without authority to levy assessments against stockholders of such banks and to maintain suits for the amount of their personal liability.

The court held the board and receivers must proceed in the courts to set up their rights and let the courts decide what should be done to protect the government's rights.

The controversy arose in Milwaukee, Wis., when J. R. Wheeler, holder of 50 shares of stock in the bankers' joint stock land bank, was sued by Howard Greene, receiver of the bank for \$5,000.

Wheeler took the position the creditors of the failed land bank only had the right to maintain suits against the stockholders to enforce their liability.

LOCAL MEN QUOTED IN PORTLAND NEWSPAPERS

Medford's importance as a leading city of the state is reflected almost daily by the news columns of the Portland newspapers. For instance, the Oregonian last Saturday published the following items about Medford people in its columns.

"We received more money this year for our beans than ever before," reports W. H. Gore, banker of Medford. "The crop was not the largest ever harvested, but the prices were so high that the crop has been a gold mine. Cattle haven't done so well, but then, perhaps the prices were all right and too much was exported. Anyway, Jackson county is in splendid condition."

"A. E. Reames, an attorney, and H. Chandler Egan, golfer, both of Medford are at the Hotel Portland."

"C. E. Gates, president of the Jackson County Fair association, and member of the highway commission, is at the Heathman with Mrs. Gates and Mr. and Mrs. George E. Gates, all of Medford."

He reported that Miss Shelby stepped in front of his car from in front of a parked automobile.

(Mrs. Shelby is an aunt of Mrs. Frank Owen, former well known Medford resident, and has not only been a frequent visitor but has conducted bridge classes in this city.)

TACOMA BANDITS ROB THEATER OF \$1500

TACOMA, Wash., Nov. 4.—(AP)—Two unmasked bandits held up D. S. Kimberley, manager of the Rialto theater here last night when he was transferring the day's receipts, about \$1,500 to a safe and escaped in an automobile. Kimberley and his cashier, Miss Nella Thompson were in the office at the time. The cashier screamed as one of the bandits advanced with drawn gun while the other stood at the car by the curb, but the robber calmly seized the money which was in a leather bag, ran out to the car and drove away.

Obituary of James G. Birdseye Is Taken From Medford Mail of 1895

A copy of the Medford Mail, resurrected from old files today by Guy Tex. Central Point postmaster contains the obituary of James G. Birdseye, who died December 3, 1895. The account appears in the issue of December 6.

The deceased was a son of David Nelson Birdseye, whose log cabin home near the town of Rogue River was the sign of a marker unveiling this afternoon, marking the spot where old Fort Birdseye once stood in 1855 and 1856.

The following obituary is of general interest in connection with the old home:

By the death of James G. Birdseye, which occurred at his home near Glad Hill Tuesday morning, December 3, 1895, Jackson county loses a highly respected and native born citizen.

For several months past Mr. Birdseye, which occurred at his home near Glad Hill Tuesday morning, December 3, 1895, Jackson county loses a highly respected and native born citizen.

For several months past Mr. Birdseye, which occurred at his home near Glad Hill Tuesday morning, December 3, 1895, Jackson county loses a highly respected and native born citizen.

James Birdseye was born on April 25, 1845, on the old Birdseye homestead on Rogue river, and claimed the distinction of being the first white boy born in the Rogue river settlement and the second in Jackson county. He attended school in Jacksonville, receiving a common school education, after which he learned the blacksmith trade and worked at it for a number of years, and afterwards had a shop in Central Point. He gave up the hammer and tongs and ran for county sheriff in 1880, but was defeated by W. H. Dean. Again in 1888 he was placed on the ticket for the same office, and was elected, after which he succeeded himself in 1890, proving a very popular and efficient officer. After retiring from public office he went onto his farm on Kanes creek where he lived until his death. He was married to Miss Katie Kitch on November 17, 1882, but she died a few years later. He was afterward married to Mrs. Fannie Johnson. A son and daughter were the result of his last marriage, who with his wife, survive him.

The opened note indicated Rogers had contemplated the act for a long time.

Sending the Whole Child To School

There are 25,000,000 children in American schools and we have found by actual survey that 5,000,000 of them have eyes which are so completely out of focus that it is interfering with their progress in school and robbing them of their opportunity for preparation for life.

Millions of young people quit school early because of some physical handicap; millions of others are retarded in their school work, finally graduating with indifferent grades, ill equipped for future life. These two types become recruits in the great army of misfits—square pegs in round holes—and cause much of this world's misery.

Retarded students hinder the work of the whole class and immeasurably the work of the teacher. It is not the fault of the school authorities that so many of our children are neglected, but too frequently due to lack of cooperation on the part of the parents who are uninformed or prejudiced and who give little attention to the physical needs of their children.

What about your child? Is he handicapped? Do not wait until a school examiner sends him home for the attention you should have given him before starting him to school. An eye examination will give you the facts about your child's eyes. Procrastination will only hinder your child's progress. Consult a competent Optometrist. Information mailed without obligation.

MEN OF TURKEY IRATE OVER WOMEN'S DRESS

CONSTANTINOPLE, Turkey.—(AP) Masculine Turkey is aroused over feminine Turkey's immersion in rouge and powder.

The makeup of Turkish women formerly consisted only in darkening the eyelids with Kohl and coloring the fingers with henna, both of which practices were of good report in the Moslem world, as they were believed to have been indulged in by the Prophet Mohammed himself.

A leading author of the new Turkey, Jellal Noury Bey, says in the semi-official press:

"World history, which has registered since 1910 the great war, the Bolshevik revolution and Spanish influenza, must register also the revolution of beauty. Our century has placed a crown on that which is false. Ebsity, rouge, have vanquished natural beauty.

"Twenty years ago these made-up women of our world have been arrested by the first Turkish policeman who saw them."

In the light of past defeats and victories this season, Willamette and Whitman remain alone as the conference leaders.

When BABIES are upset

Baby ills and ailments seem twice as serious at night. A sudden cry may mean colic. Or a sudden attack of diarrhea—a condition it is always important to check quickly. How would you meet this emergency—tonight? Have you a bottle of Castoria ready? There is nothing that can take the place of this harmless but effective remedy for children; nothing that acts quite the same, or has quite the same comforting effect on them.

For the protection of your wee one—for your own peace of mind—keep this old, reliable preparation always on hand. But don't keep it just for emergencies; let it be an everyday aid. Its gentle influence will ease and soothe the infant who cannot sleep. Its mild regulation will help an older child whose tongue is coated because of sluggish bowels. All druggists have Castoria; the genuine bears Chas. H. Fletcher's signature on the wrapper.
