Picture of Youth, Rialto Tomorrow

"Old questions are given new life," says a critic of the new picture of modern youth, "The Road to Ruin," which will be shown for three days beginning tomorrow at the Rialto theater.

"One of these is whether it is justifiable to be frank in showing of youth the results of folly, when the folly also has to be shown. Some have said that this story in which boys and girls transgress from the straight and narrow path is harmful in that it puts notions into youthful minds. To one who takes this viewpoint there appear hundreds who favor the effort because it serves as a warning and will protect many thru this warning."

"The very strength of 'The Road to Ruin,' lies in its sincerity. The story is told frankly and with realistic vigor, there is never a time in it when there appears to be a tendency to sensationalism or any intention other than to entertain the audience and thereby hold its interest while the strength of the moral is relentlessly driven home."

HER EIGHT YEARS OF TROUBLES END

"I don't believe anybody in Black Lake ever suffered worse with indigestion and stomach trouble than I did for eight years."

MRS. IDA HENDRICKSON

"I had miserable headaches and dizzy spells, and a sluggish liver and constipation kept me continually taking laxatives. I lost weight and was weak and rundown. I started Sargon and now my stomach troubles and indigestion have disappeared. I have gained five pounds and am well, strong and energetic! Sargon Pills had a wonderful effect on my liver, my constipation is ended and I am actually free of headaches and dizziness. It's just wonderful what this marvelous treatment did for me."
