

FORMATION "B" OF PANTHERS HOLDS MENACE

Famous Brain Child of Pop Warner May Be Used in Rose Bowl Battle—Men of Troy Perfecting Defense for System.

By Paul B. Zimmerman Associated Press Sports Writer. LOS ANGELES, Dec. 24.—(AP)—Formation "B," that famous brain child of Coach Glenn "Pop" Warner, looms again as a threat to the University of Southern California Trojans...

Will Coach John "Jock" Sutherland employ the system of two wing halfbacks in his offense against the men of Troy? Coach Howard Jones seems to think so...

Today he plans more detailed instruction to his officers in the matter of frustrating the plot of the Golden Panthers to make consistent yardage by their power house tactics...

Christmas Holiday Christmas will be a holiday in the Trojan camp—a sort of calm before the storm of intensive training which will mark the usual work of preparation to defend the western honors in the annual East-West classic.

With the powerful Pitt line before him, under the formation "B" Tom Parkinson, the battering ram fullback of the Panthers, is expected to do much in the way of progressing toward the Southern California goal...

This leaves Eddie Baker, quarterback, free for passing, fakes, or what have you, and permits Octavian Pansa, from his left half position to run the ends.

The Southern California staff is apparently satisfied with its own offensive, for as yet nothing more than short snappy signal drill has featured workouts.

SALT LAKE CITY, Utah, Dec. 24.—(UP)—According to the oft-sensitized smell of burning feathers in the less populated districts of the Utah farming country, the great outdoor sport of hunting "stubble ducks" swung into full activity this season.

Stubble ducks are generally regarded as "fine eating"; to exceed in tenderness and flavor even the most tender chicken. The breast is the biggest part of the bird and those who like white meat consider it a rare delicacy.

But stubble ducks, thick in many sections of the state, are protected by game laws under the heading "Chinthe pheasants," and only a short season is provided for hunters to kill them lawfully.

The name "stubble duck" was coined in an attempt to conceal the real import, and hunters and farmers were wont to hunt the "ducks" during the closed season.

Los Angeles—Goldie Hess, Ocean Park, Cal., outpointed Baby Sal Sorbo, San Bernardino (10).

Roanoke, Va.—George Godfrey, Leesville, Pa., knocked out Long Tom Hawkins, Akron, O. (3).

Indianapolis—Roy Wallace, Indianapolis, knocked out Chester Bush, Chicago, (2). Pete Mike, New York, outpointed Johnny Senna, Indianapolis, (3).

Chicago—Pat Moore, Memphis, Tenn., outpointed Jackie Stewart, Louisville, Ky. (3). Irish Mickey Gill, Dublin, Ireland, outpointed Frankie Grandetta, Hollywood, Cal. (3).

Rochester, N. Y.—Jimmy Slattery, Buffalo, N. Y., stopped Eddie Connors, Boston, (2). Lou Scizza, Buffalo, N. Y., stopped Almedo Drummond, St. Louis, (1).

Atlantic City, N. J.—Billy Wallace, Cleveland, and Tommy Liberty, York, Pa., drew, (3).

Klamath Falls.—New Oregon bank building dedicated.

Sore Throat? Don't Gargle This Doctor's Prescription Gives Quicker, Better Relief

Don't suffer the pain and discomfort of sore throat. Use a doctor's prescription called Thoxine guaranteed to relieve the very first swallow. Gargles and salves are too slow and if they do relieve, it is usually only temporary. Thoxine has a double action—it relieves the soreness and goes direct to the internal cause. It contains no harmful drugs and is safe and pleasant for the whole family. Thoxine is nothing better to stop coughing due to irritated throats. Just ask for Thoxine, put up ready for use in 25c, 50c and \$1.00 bottles. Money back if not relieved. Sold by Jarrin & Woods and all other good drug stores.

LOOKING OVER THE BASEBALL SITUATION

Here are the chief potentates of baseball talking things over during the annual baseball convention in New York City. Left to right: Ernest S. Barnard, president of the American League; John A. Heydler, president of the National League, and Judge K. M. Landis, baseball commissioner.

PUT-PUT RIDERS BUCK LAKE SNOW PAST GOVT. CAMP

The Crater Lake Motorcycle club made a trip to the snow line just below the entrance to Crater Lake park last Sunday. They found about a foot of snow at this point, frozen hard enough to support the machines, but as it was full of deep ruts and cracks, it made rather difficult riding.

Fred Christian performed a remarkable feat of cycling, being the only one to ride double and without chains to a spot a little above Government Camp. The snow was fresh and so soft that it was impossible to go farther.

Albert Forman accompanied Mr. Christian riding alone, and with chains on his rear wheel. The riders were Charles Thatcher, Frederick Cummings, Fred Christian, Albert Forman, Leon Brown, "Irish" Cingecade and two girls, Julia Leslie and Leila Dobbins.

Other trips of this nature are planned for the near future, to include all riders in the outlying districts who wish to go.

PHEASANTS SHOT UNDER AN ALIAS

SALT LAKE CITY, Utah, Dec. 24.—(UP)—According to the oft-sensitized smell of burning feathers in the less populated districts of the Utah farming country, the great outdoor sport of hunting "stubble ducks" swung into full activity this season.

Stubble ducks are generally regarded as "fine eating"; to exceed in tenderness and flavor even the most tender chicken. The breast is the biggest part of the bird and those who like white meat consider it a rare delicacy.

Man With Educated Nose Finds Radiator Alcohol Real McCoy

INDEPENDENCE, Kas., Dec. 24.—(AP)—Possession of olfactory memories that date back to pre-Vedic days has made an independence motorist the most popular man in town.

The happy one, who prefers to be unaltered, purchased a gallon of alcohol for the radiator of his motor car.

"Sniff, sniff, sniff," said he a little later on—or sounds to that effect. Following his nose, he investigated the radiator.

Northwest Sport Tips

By Frank G. Gorrie, Associated Press Sports Writer. SEATTLE, Dec. 24.—(AP)—Marshall Shields, one of the finest guards on the Pacific coast, intends to complete his education at the University of Oregon despite the fact that he has been ruled ineligible for further competition by the faculty committee of the Pacific Coast conference.

Shields plans to make football his profession and will continue to study the game from the sidelines. He is a major in the school of physical education and had hoped for another year of playing which would aid him in obtaining a coaching position.

Shields was declared ineligible after he had transferred back to Oregon from Ashland Normal, a junior college.

The Washington State College cougar will move into its new cage at Pullman after the Christmas vacation.

Finishing touches are being put on the latest unit of the Washington State campus, the new \$150,000 field house, and it will be ready for spring track practice next month.

Taroma fight fans have a "natural" lined up for them for New Year's day.

Joe Glick, Brooklyn button-maker, rated as one of the outstanding lightweights of the east, has agreed to meet Dynamite Doc Snell in the Greenwich coliseum, Tacoma.

Mr. and Mrs. George Parker of south highway left last Saturday morning for San Francisco and Los Angeles, where they will spend a month or more during the bad weather here.

Andrew Stevens, Harold Colver and Roy Coffman left last Friday morning for Sacramento and San Francisco to spend the holidays. Harold and Andrew will motor on down to the Mexican border before they return.

Noah Chandler butchered his fat hogs last Friday.

The pupils of Griffin Creek, where Mrs. Bonham is principal, held a Christmas program Friday and all enjoyed the tree and treats very much.

Talent people are afraid of their lives while on their streets, on account of the wild drivers who pass through the town. They say it was a wonder that at least three or four men were not killed when the car struck the wrecker last Thursday.

Dr. Susie E. Standard was accompanied home from Portland by her daughter, Miss Ellen Mae Standard, for the holidays.

Mrs. Sadie Hendrickson, Mrs. Irene Wells and Chauncey Hogen and Mrs. C. Carey, all of North Talent, were Christmas shopping in Medford last Saturday.

At last the big sign which was a menace to safety in coming out of the Hopkins place onto the highway, has been moved further back along Mr. Blagman's line.

Rev. Fred F. Schell, pastor of Phoenix Presbyterian church, was calling on those residing on south highway Thursday afternoon.

At last the big sign which was a menace to safety in coming out of the Hopkins place onto the highway, has been moved further back along Mr. Blagman's line.

'HUN' ANDERSON TO COACH LINE AT WASHINGTON

ST. LOUIS, Dec. 24.—(AP) Hourly "Hun" Anderson will probably be the line coach for the University of Washington's football team next year, Anderson indicated as much yesterday before he left for South Bend for the holidays and after a talk with Jimmy Phelan, Purdue mentor, who goes to the West Coast school as head coach.

Anderson was offered an \$8,400 contract to return to St. Louis university for the third year as head football coach but he said last night that Phelan's tender "nearly took me off my feet. It was so much better than I expected. I can't see more money coaching the line at Washington than I can here, so head coach and without the worry and responsibility."

Anderson expects to talk to Phelan again in January and sign a contract then he said.

CHICAGO, Dec. 24.—(AP) Coach A. A. Stone, of the University of Chicago, has left Chicago for California, where he will spend his annual vacation. The grand old man of the Midway will witness the Army-Stanford and Pittsburgh-Southern California games, and will stop off during the return trip to address alumni clubs at San Francisco, Los Angeles, San Diego, Denver and Salt Lake City.

Light Workouts for Cadets and Cardinal Squad

STANFORD UNIVERSITY, Cal., Dec. 24.—(AP)—A light setting up drill in the morning and a brisk scrimmage against a pebs eleven equipped with Stanford plays were on tap for the West Point Army team today, as the Cadets swept into the final stretch of their preparations for the Stanford contest next Saturday.

Next intensive workouts were scheduled for Pop Warner's Cardinals and the Shrine All-Star eastern team, both of whom are recovering from the effects of a hard-fought scrimmage yesterday that resulted in a knee injury to Tommy Dowder, Colgate fullback and an end of the eastern mainstay.

Warner indicated that his starting lineup for the Army contest would be the same as that which took the field against California, with the possible exception of Walt Heldeck at center. The stocky Cardinal pivot man contracted a severe cold, and it is doubtful if he will see much action against the Cadets. If he is unable to start, his place will be taken by Perry Taylor.

Seattleburg.—Preliminary arrangements made for financing and securing right of way for grading and graveling five or six miles of Umpqua highway from here east.

Falling Goose Costs Hand of Greedy Hunter

SAN FRANCISCO, Dec. 24.—(AP)—W. E. Speedy of Pittsburg, Cal., was in a hospital today with one hand shot off, all because of his desire to kill just one more goose during a hunting trip near Willows, Cal.

Speedy with several companions had lugged several geese and were about to quit the hunt yesterday when a particularly tempting flock sailed overhead. Speedy fired and one goose fell. It dropped into a neighboring blind, striking the trigger of another hunter's gun and discharging it. The charge tore off Speedy's left hand.

Joe Wright, Joe W. Johnson, Desauton, Ethel Freeman, Millie Higginbotham, Velma McCredie, Rose Jones.

Gained fruit, Martha Gregory, Mrs. Bertha Bursell, Mrs. Warren Patterson.

Brother I. T. Galliger, Rogue River.

Brother F. C. Westerfield gave a short talk on the farm relief bill and gave some reasons why Julius Barnes was fighting the measure.

Coffee, sandwiches and cookies finished the evening's work.

NAME COMMITTEES IN CENTRAL POINT GRANGE

CENTRAL POINT, Ore., Dec. 24.—(Special) Appointments of committees for 1930 were read at the last regular meeting of Central Point Grange as follows:

Finance, Warren Patterson, D. W. Beale, Fred Hesselgrave. Ways and means, John Anderson, L. J. Freeman, Opal Haley.

Educational, Mrs. Ethel Lathrop, Mrs. May Richardson, Mrs. Nettie Hillee. Legislative, Victor Bursell, Fred C. Sanders, John B. Sholey.

Agriculture, Henry Maury, Cliff F. Smith, Paul Martin. Membership, Frank Hammond, Benson, Mrs. Bertha Bonney.

Visiting, Mrs. Mollie Wright, Mrs. Della Whitstone, N. C. Westerfield. Relief, Mrs. Eva Smith, Georgia Pruitt, Velma McCredie.

Community project, H. R. Williams, A. M. Henderson, W. A. Hoyer. Marketing, John Brenner, Oscar Blackford, H. T. Whitstone.

Home economics, Mrs. Mary Higginbotham. Music, Mrs. Lula Strohmoeir, Lola Backford, Mrs. John Sholey. Publicity, E. H. Strohmoeir, Mrs. Arnold Bohmert, Mrs. Dora Hesselgrave.

County fair, Arnold Bohmert, general chairman. Vegetables, C. F. Smith, Geo. Obenchain, Otto Bohmert.

Grain and grasses, Arnold Bohmert, Earl Earl Henry Head, John Carey, Henry Maury.

Fruit, A. M. Tyrell, B. S. Tule, Olan, Frank Stephenson, Frank Hammond, Tom Pankey, Frank Thompson (died fruit).

Dairy and poultry, Pearl Bon-

Leads In Scoring

Rus Berghem, Northwestern full-back, heads the list of individual scorers in the western conference.

NEGRO HERO OF RIVER DISASTER IS REMEMBERED

Man Who Saved 32 Lives in 1925 Visited Each Year By Grateful Group—Purse Will Be Presented By Engineers Club

MEMPHIS, Tenn., Dec. 24.—(AP) A group of Memphis engineers plan to make their way to the home of a negro boatman to play Saint Claus—but as a matter of charity but as a mark of gratitude.

The negro is Tom Lee, hero of the steamer Norman disaster in 1925, and the visit will be in commemoration of an annual custom of members of the Engineers club of Memphis, many of whom owe their lives to Lee.

He saved 32 persons when the Norman rolled over in the Mississippi river and sank. At the time a delegation of southern engineers, here to form a chapter of the American society of Civil Engineers were aboard. Twenty-three persons drowned.

The home the anti Claus party will visit is one bought by popular subscription, sponsored by the Engineers club and the Memphis Commercial Appeal.

Yesterday the club held its holiday luncheon and the matter of the Christmas fund for Tom Lee was foremost in the order of business.

A purse of \$75 was raised. James Wood, now president of the club, who happened to be the first rescued by Lee at the time of the boat disaster, by coincidence was the first to hand in his donation to the purse.

Mystery Thriller Fox Rialto Today

Margaret Wycherly, famous New York stage star, makes her debut in talking pictures in "The Thirteenth Chair," playing the role of "Rosalee LaGrange," which she created on the speaking stage. The all-talking mystery thriller is now playing at the Fox Rialto theater.

It is a detective mystery of California, with a cast that includes Conrad Nagel, Lois Evans, Mary Forbes, Holmes Herbert, Cyril Chadwick, and many others of note.

Tomorrow the Rialto will feature William Haines in his latest all-talking comedy hit, "Navy Blues," with Anita Page and Karl Dane.

LINGERING COLD IS MENACE TO HEALTH

Cough—Nature's Warning Signal, Chiropractors Assert

Everyone, at times, suffers from colds, and there is perhaps no one common condition that is so distressing as a cold. Some people have only one or two a year and then they may not be severe; but on the other hand, there are millions of people who suffer from many colds each year and some of them are so severe that not only is life made miserable during these times, but it actually impairs the health of the body. A cold is a source of continual drain of vitality and resistance is lowered.

In different individuals colds affect the body in different ways. In some they settle in the nose and head; in others in the throat, and in some they affect the bronchial tubes and lungs. The part affected depends very largely upon the resistance which is present in the mucous membrane in these different areas. If it is the nose and head which is affected, it is assured that the membranes here possess a comparatively low resistance and are unable to withstand the toxins which have accumulated in the body.

Cause As a matter of fact a cold does not have an immediate cause. That is, there is no condition which occurs immediately before a cold manifests itself which can be considered as a cause. The real cause lies far deeper than this. It is the result of an accumulation of poisonous materials within the body for a certain period of time preceding the cold. The amount of poison which is accumulated and the rapidity with which it is formed determines, then, the frequency of colds. If the excretory organs of the body are comparatively normal these poisons will not be accumulated and colds will rarely manifest themselves.

Method The chiropractor is thoroughly trained to detect these abnormalities and to correct them. He knows what parts of the body are supplied by nerves coming from between certain vertebrae. As soon as he knows what organs are affected, he immediately goes to a certain region in the spine and there locates the trouble.

He locates, in the spine, that vertebrae which is producing pressure on the nerve trunks supplying the nose, throat or bronchial tubes. He realizes that inflammation in any one of these organs is the result of a lowered resistance dependent upon a nerve pressure in the spine. By correcting the abnormality which is producing lowered resistance and by adjusting the vertebrae which is producing lowered resistance here and by adjusting the vertebrae which is responsible for the lack of proper excretion, he corrects the real cause which is behind the local inflammation and the individual recovers normal health in the natural way.

Nor is this recovery temporary. It is permanent just as long as the spine of the patient remains in the normal condition because there is no longer the accumulation of poisons in the body where the cold manifests itself as an adaptation.

If you are subject to colds, whether you have one at the present time or not, you should see your chiropractor, have him restore your spine to its normal condition, and thus be free from these disagreeable occasions that are a continual and steady drain upon your vitality and strength.

Chiropractic is a science that is based on a firm foundation of fact. It has been repeatedly demonstrated and is becoming more and more a universal health system. A few years ago there were only a few million people in the United States who subscribed to drugless systems. Today there are approximately forty million people who subscribe to the drugless systems of one kind or another. Of all these, Chiropractic is the leader. It has attained and is maintaining that leadership through past performances. Case after case has received aid by this system when all other systems have failed. Time after time the chiropractor has discovered the fundamental causes of the diseases from which patients were suffering and has removed that cause.

No health system could have grown in the short space of thirty-four years to the proportions which Chiropractic has attained unless it possessed merits substantially superior to those offered by any other system. And yet that is the record which Chiropractic has made since its discovery. There are now approximately eighteen thousand practitioners who are carrying this health message to millions of people daily. This is the face of the fact that Chiropractic has built its reputation very largely upon successful results obtained in those cases which have failed to obtain results in any other method. Today the general public is coming more and more to realize that Chiropractic is more effective in acute conditions as well as chronic ones, and more and more is being utilized in all kinds of diseases.
