

PIT PANTHERS ARRIVE TODAY FOR PRACTICE

Eastern Gridmen Will Stage 2-Day Acclimation Drill for Rose Bowl Battle With Trojans—All Seats Sold Out.

LOS ANGELES, Dec. 30.—(AP)—The University of Pittsburgh's powerful Panthers, undefeated and rated one of the outstanding football machines in 1929, will come to the end of their westward journey today and will immediately launch a two-day campaign to become acclimated for the New Year's day classic in the Pasadena Rose Bowl with the Trojans from the University of Southern California.

A stiff practice on Pasadena turf is in store for the Pitt boys today and tomorrow, according to plans announced by Coach Jock Sutherland. The Pitt mentor put his men through signal drill, dummy scrimmage and work on Trojan formations during a train stop at Tucson, Ariz., yesterday and reports indicate that the hot Arizona sun had no effect on Panther speed. Coach Sutherland said the Tucson practice was the most satisfactory in route as inclement weather hampered attempts further east.

Coach Howard Jones will put his Trojans through a workout on their own field today, and plans to send the boys into a final practice in the Pasadena bowl tomorrow. Jones says his team is in excellent shape for its first appearance in a Tournament of Roses game.

All seats in the bowl were sold out shortly after tickets were placed on sale, and more than 76,000 fans were scheduled to witness the New Year's day event. It will be the first rose classic played before a packed stadium.

HITS FEATURED NATIONAL LOOP IN PAST SEASON

Swatsmiths Had Big Year Is Evidence of Official Averages—Chi Cubs Set New Mark for Runs Batted in With 933.

By Brian Bell. Associated Press Sports Writer. NEW YORK, Dec. 30.—(AP)—As the official averages of the National league are released, the evidence grows that 1929 was a hitters' year in baseball. The pennant winning Chicago Cubs made a new record for runs batted in when they drove 933 tallies across the plate. This broke the old record of 829 established by the Pittsburgh Pirates in 1925. If the Cubs had not smashed the old high water mark, three other clubs would have done so for the Phillies, the Pirates themselves, and the Giants drove in more runs than the three-year-old record.

The Cubs also received the most bases on balls and to square accounts struck out the most, the bases on balls totalling 589 and the strikeouts 567.

The hard hitting Phillies out-slugged their fellows, amassing an average of .476 and total bases of 2559.

Cubs Led League. The Cubs were legitimate champions for they led the league at home and abroad. The Giants were second on the road but sixth at home, doing only a little better than an even break at the Polo grounds. The Cubs had a percent of .675 at home and .613 abroad.

Rogers Hornsby headed the sluggers for the second year in a row, his percentage of .681 surpassing by 48 points a new league record for runs batted in with 159, beating by seven Hornsby's record of 1922 when he was driving runs for the Cardinals. Wilson also was the most accomplished player in the league at missing third strikes. He struck out 83 times.

Melvin Ott of the Giants led the league in drawing bases on balls, 113, and Jimmy Welsh of the Giants and Braves was hit the most times, 11. Of the regulars, Pie Traynor, Pirates, proved the most difficult batsman to fool entirely. He struck out only seven times.

Jim Bottomley, Cardinals, for the sixth consecutive year, batted in more than 100 runs.

BENNY LOM AND SLOAN INURED

SAN FRANCISCO, Dec. 30.—(AP)—The west and east football eleven are working hard in preparation for their shriners' charity game at Kezar stadium New Year's day. The east roster this year includes a bright array of stars under coaches Andy Kerr and Dick Hanley. Only two things have disturbed the confidence in the western camp, Benny Lom, California star halfback turned up with an injured leg and Clair Cloan, Nebraska's backfield ace, is carrying a deep chest wound in his chest. Of the eastern stars, Tom Dowler, Colgate halfback, is out with a wrenched knee, but hopes to be sufficiently recovered to play part of the game.

Throughout the Year RICHFIELD wins AGAIN and AGAIN!

SMASHING speedway victories. Magnificent flying achievements. Sensational triumphs on water. World's speed records. World's endurance records. International trophies. Victory following victory month after month throughout the year. The greatest competitive record ever established by any gasoline. Richfield in the past decade, has won more speedway victories and world's records than all other gasolines combined. Its impressive list of achievements during 1929 points the way to an even more brilliant performance for the coming year.

IN THE AIR

The "Question Mark" army flight, first of the great endurance flights breaking all previous distance and duration records was made with Richfield. Bobbie Trout used Richfield gasoline when she brought back to the West the World's endurance record for Women. The solo endurance record of Herbert J. Fahy was another triumph for Richfield as was the sensational "Angeleno" endurance flight made a few weeks later. When Tex

—used Richfield. Cliff Woodbury—the winner at Detroit—used Richfield. Glenn Shultz—driving a Stock Studebaker President 8, winning the Annual Labor Day Pike's Peak Run—used Richfield.

At Los Angeles, Detroit, Altoona, Woodbridge, Syracuse, Bridgeville—wherever roaring motors slant around a speedway—"Richfield Wins Again."

ON WATER

Rankin completed the first official Canada to Mexico flight he made a fuel economy record of 18 1/2 miles per gallon with Richfield. Norman Goddard also made a unique record with the "Gasoline of Power" by winning 26 events in local air meets throughout California. Among Richfield's most famous achievements in the air are its records during the National Air Races; in the spectacular transcontinental non-stop flights of Art Goebel and Captain Wilkins 2300-mile dash across the North Pole, perhaps the most hazardous flight in the annals of aviation.

field gasoline, won the famous Duke of York trophy and followed this triumph with a new world's record for 1 1/2 litre hydroplanes at Balboa, California. In the Outboard class, Richfield won new laurels when H. G. Ferguson established a new world's record of 49.165 m.p.h., the fastest time ever made by an outboard motor.

One Night Stands Beckon the Great Shires

Smoking a trail of sock in the provinces, Art Shires is hot in pursuit for another ring victory and the gold that awaits only the great.

By Jay Vessels. Sports Editor.

NEW YORK.—(AP)—Unless he is double-crossed by the law of averages, Shy Arthur Shires, baseball's bashful boy, will win another big fight.

Taking on five opponents in 14 days, the American league's most valuable player (by his own choice) should check in with a ring victory before his exhibition tour is concluded January 9.

Whether his victim will be a football player, a jockey, billiardist, ball player or swimmer, cannot be stated. But certainly it will not

be a genuine boxer, for the proud young pugilist has been spared the necessity of meeting the simon-pure professionals of punch.

Arthur (Call Me The Great Shires) is assured of one win should even the averages fail. He already has Old Man Poverty hanging on the ropes under the pressure of combined guarantees of \$20,000 for the five fistie engagements.

You know it was the need for more that caused Shy Arthur to seek financial gain outside of his chosen profession. The White Sox paid him \$8,000 for six months of combined clowning, clouting (the

ball and not Manager Blackburne) and covering first base.

When the season closed, fines and various assessments made on Art's salary reduced the year's income to a very small sum. Way back in August when he still had another bare knuckle bout coming up with Blackburne he was looking ahead to side income for the fall and winter.

He dabbled in minor activities for a few weeks and finally was influenced to capitalize on his punching prowess by the cold days of early November, which presaged a long, long winter for even the Great Shires.

Richfield's qualities, proved in grueling competitive events, are the same qualities you need in your own car for every day driving— instant starting— maximum speed and power—unfailing dependability. TRY THIS WORLD CHAMPION MOTOR FUEL TODAY!
